Dear Mr. Kulp:

Re: Permit No. 19466
William Thomas Hawkins

Your letter addressed to William Thomas Hawkins under date of June 8, 1950, has been referred to me for answer.

Mr. Hawkins insists that the proof that was submitted in connection with the beneficial use of water under the above permit is true and correct, and that the land which that proof shows to have been irrigated was in fact irrigated.

It is his opinion that your field examiner was not able to properly identify the land, and by reason of that fact, has made an erroneous report. Hawkins is of the opinion that if the examiner had consulted him, that he would have shown him the lines, and if and when he is shown the lines his report would not have been as it was. Hawkins suggests that if the examiner makes an inspection in connection with permit No. 19520, that he interview Hawkins, and permit Hawkins to accompany him to the land, and that he will be able to convince him of his error in connection with the permit No. 19466.

Yours very truly,

Re: Permit No. 19466

Mr. William Thomas Hawkins
Bridge, Idaho

Dear Mr. Hawkins:

We now have on file the report of our Field Engineer on examination for beneficial use under Permit No. 19466.

This report shows that you have irrigated 40 acres in the SW 1/4 Section 13, and 40 acres in the NW 1/4 NE 1/4 Section 24, Township 15 South, Range 26 East, B.M.

Therefore, upon receipt of the statutory fee of \$4.00, a License will be issued for 1.6 second feet of water from Raft River, with point of diversion in the SW 1/4 NE 1/4 Section 24, for irrigation and domestic use on the above described 80 acres.

Dear Mr. Hawkins:

We have received from Mr. S. T. Lowe, the depositions of yourself and two witnesses, also Affidavit of Publication in the Burley Herald, all in Proof of Beneficial Use under Permit No. 19466.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, the Field Engineer for this Department will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Dear Mr. Lowe:

We have received your letter of November 8, 1949, enclosing duplicate Notice of Beneficial Use under Permit No. 19466, in the name of William Thomas Hawkins.

We note several differences between the land description as given in this notice and as contained in the original filing, as follows:

The notice describes the $NE\frac{1}{4}$ $SE\frac{1}{4}$, $SW\frac{1}{4}$ $SE\frac{1}{4}$ and $SE\frac{1}{4}$ $SE\frac{1}{4}$ Section 13 and the $NE\frac{1}{4}$ $NE\frac{1}{4}$ Section 24, Township 15 South, Range 26 East, but the Permit describes the $NW\frac{1}{4}$ $NE\frac{1}{4}$ of Section 24.

The notice describes Lot 3 and the $NW\frac{1}{4}$ $SW\frac{1}{4}$ of Section 18 in Township 15 South, Range 26 East, whereas the Permit describes this as in Township 15 South, Range 27 East, B.M.

We assume the Permit is correct and with your permission, we shall change the notice accordingly.

Mr. Wm. Thomas Hawkins

Bridge, Idaho

Boise, Idaho **November 1, 1945**

Dear Sir:-

Under the terms of your permit No. 12466-----you are required to complete your diversion works on or before January 28, 1946.... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
