Re: Permits Nos. 15845, 16436, R-525 & 17764

Mr. F. M. KOSSMAN
Malta, Idaho
Box 24

Dear Sir:

We have your letter of April 15th with reference to permits issued to J. J. Neddo and Neddo Brothers of Raft River. In view of the fact that four permits have been issued to these people we have no way of knowing which particular permit interests you at this time. Therefore, we shall give, in brief form, what the applicants proposed to do under each permit.

Permit No. 15845 was issued to Geo. W. Neddo and Isaac J. Neddo, Jr., and, both proofs having been made as required, the department issued a license under this permit for 4 cubic feet of water per second from Raft River. This right was made appurtenant to 223 acres, all in Section 6, T. 13 S., R. 27 E., and dates from September 16, 1924.

Permit No. 16436 was, likewise, issued to them jointly. This permit claims 0.5 of 1 second foot from Pine Springs. Some time after its date of issuance it was assigned to Geo. Chadwick, Leroy Robinson and Archie Yates. To date, proof of completion of works has not been submitted although it was due in 1927. The reason the permit has not been cancelled is that an indefinite extension of time was granted the permit holders because of their inability to get federal permission to go onto the reserve to construct their works. However, the order granting the extension of time specifically provides that the holders of the permit shall give the department notice within 30 days from the date of the removal of the obstruction, or in other words, when permission has been granted by the proper officials, so that a definite date for compliance with the various requirements of the permit can be set. To date, this has not been done and, in view of the time since such order was granted, it is some what questionable as to whether or not the permit holders have attempted to proceed in good faith. If you have any particular interest in this permit you might investigate, locally, and get an idea of just what they have done.

Permit No. R-525 was issued to Geo. W. Neddo, individually, and under the terms of this permit he proposes to construct a reservoir of sufficient capacity to impound 1200 acre feet of water per annum from Meadow Creek Wash, Point Springs Wash, Graveyard Wash and Washes Nos. 1, 2 & 4 South. Proof of completion of works will be due under this permit on September 17, 1937.

Permit No. 17764 was also issued to Geo. W. Neddo for 1.6 second feet of water from Point Springs Creek. The point of diversion was given as being in the

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, August 29, 1927

Isaac J. and GEO. W. Neddo,
c/o

Charles A. Johnson,
Burley, Idaho.
DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 15845

DEPOSITION OF PERMIT HOLDER, DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On September 17, 1927, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Burley before Charles A. Johnson, notary public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

GEO. N. CARTER,
Commissioner of Reclamation.

Re: Permit No. 15845

Messrs. Isaac J. Neddo, Jr. and George W. Neddo,
Malta, Idaho.

Gentlemen:-

We are today in receipt of your notice of proof of beneficial use of water under the above permit. One copy will be mailed to the Burley Bulletin in time for the required four weeks publication prior to September 27, the date set for proof, and deposition blanks for holder and two witnesses will be mailed to Charles A. Johnson, the notary public at Burley.

In view of the fact that the proof is being made 1 year, 1 month and 16 days later than the date specified in the permit, the date of priority has been brought down to September 15, 1924. Other than this, the notice will be published as filled out.

Very truly yours,

Dear Sir: Your letter of July 22 in reference to permit No. 15845 regarding checking of affidavit for proof of completion of work which showed lots 1, 2, 3, 4 and E $\frac{1}{2}$, NW $\frac{1}{4}$ and part of SE $\frac{1}{2}$, NE $\frac{1}{4}$ Sec 7, Twp 13 S. R 27, E, B. M. This land is not included in our permit nor owned by us but does come under the works completed and is in permit No 15846 to Skinslow R. Taylor and Thomas Taylor Jr.

Therefore the land to which permit No 15845 is granted and a map submitted with application for permit is correct and describes all the land owned by us and we cannot amend to include the above described land.

Should we again submit affidavit for proof of completion of works

15845

or can you fix us up after
this explanation without a
new affidavit,

Awaiting your further instruction
we remain,

Yours truly,

PROOF OF COMPLETION OF WORKS

Isaac J. Heddo, Jr. & Geo. W. Heddo Boise, Idaho, May 6, 1925
Malta, Idaho

Dear Sir:—

Under the terms of your permit No. ~~15845~~ you are required to complete your diversion works on or before Aug. 2, 1925 I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
