Madam:

Find enclosed, herewith, license issued under the above numbered permit, together with receipt covering fees submitted.

Relative to the proof submitted under the permit held by your mother, you are advised that there is a discrepancy between the report of our examining engineer and the proof, and our records; consequently the matter will have to be taken up with our engineer upon his return to the office from the field, which will be in the near future.

Instructions To Examiners

1. Examiners will not be permitted to examine any of the records in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own rights in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

In re: Permit #11773

Stella Holley,
Corinne, Utah.

Dear Madam:

Replying to your letter of August 8th, relative to the issuance of license under your final proof, heretofore submitted, showing proof of beneficial use of water under your permit, you are advised that there has been allowed to accumulate in this Department for the past three years, some two hundred and fifty examinations to be made on final proofs under permits. These examinations cover the entire state and the reason for not making them is unknown to the writer. However, it was the intention of this Department to dispose of these examinations this spring and summer and issue licenses thereunder, but due to the great scarcity of water throughout the state this summer and the resulting call upon this Department to distribute the waters of the State, it has been found impossible to put any of our engineers in the field to make such examinations, they being kept busy distributing water.

If you desire to arrange with some competent engineer in your vicinity to make the examination required by statute, you will be allowed to do so and any competent person you may designate to this Department will be authorized to make the examination. All charges in connection with the examination, however, must be arranged between yourself and the engineer whom you name. If this examination is made by some person whom you name and who is authorized to make the examination by this Department the statutory fee of \$2.00 for each forty acres reclaimed, would not be due this Department. Kindly advise.

Dear Sir:

I have your note stating that you never received any money for final proof for Permit #11773. In order to clear this matter up, I will give you the history of it up to date:

On July 3d we wrote to Mrs. Holley as follows:

"Replying to yours of the 29th ult. would say that no fees accompanied the depositions for proof of use of water under the above permit. Only the depositions and affidavits of publication."

In reply to that letter we received one from Mrs. Holley dated July 6th as follows:

"Inclosed find check I paid Mr. Calhoun to be sent to you which he apparently did not send to you. What can I do about this?"

The check is as follows:

"Brigham, Utah, June 3, 1918
The First National Bank of Brigham City
Pay to W. D. Calhoun or order \$10.00

BOISE, IDAHO, May 13, 1918

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of application of water to beneficial use under your Permit No. **11773**

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On June 3, 1918, the date set for the proof of application of water to beneficial use, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at Almo, Idaho
2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$2.00 for each 40-acre tract, or fraction, to which water has been applied. When these have been received together with report of examining engineer, if everything is properly executed, License will issue.

Yours truly,

Re Permit 11773.

Mrs. Stella Holley,
Almo, Idaho.

Dear Madam:--

In checking your affidavit for proof of completion of works under above permit, I note that you have given Raft river as one source of supply while only Circle creek is given in your permit. This should be corrected. I also note that the point of diversion from Circle creek is given in section 13 while the permits shows it in section 11. This correction should be made. The affidavit is herewith returned for these corrections.

Receipt for fees is attached to the affidavit.

Very truly yours,

FRED A. WILKIE,

State Engineer.
