APPLICANT WILL ANSWER THE FOLLOWING QUESTIONS.

From What stream is the water diverted? Parke Creek and Parke Springs.

— Where is the diversion point located? No particular diversion point.

— Through what ditch is it now conducted? Main channel

How much land is now irrigated by the water sought to be transferred? Not to exceed 40 acres.

Give the description. SE $\frac{1}{4}$ NE $\frac{1}{4}$; N $\frac{1}{2}$ SE $\frac{1}{4}$; S $\frac{1}{2}$ SW $\frac{1}{4}$; S $\frac{1}{2}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$
Section 21, township 13 S. R. 26 E. 3. N.

What is the total amount of water in inches or second feet, dedicated to the said land? 3.3 cubic feet per second.

What kind of crops are being raised? Hay and some grain.

How much water per acre is now required to irrigate said land? One inch to the acre.

What will be the effect of the land now irrigated, if the use of water on it is discontinued? It will not interfere with the land. There is sufficient water from Cassia Creek to irrigate all of the land under cultivation.

Give location of new point of diversion, if change is to be made. New points of diversion are nearer to head of stream and will be from the stream as it passes thru the land to which the water is to be transferred.

Through what ditch will it be conducted after transfer?

How much water will be required per acre to irrigate the land to which this water is transferred? One inch per acre. The water is not sufficient to irrigate all the land on which it is to be transferred, but by reason of the rapid slope of the land the water can be collected and rediverted as it passes down thru the land.

Do you claim any other water right for the land from which you seek to abandon the use of this water? The owner of the land does

If so, give amount, date and source. Two cubic feet per second, date of priority, June 15, 1873, from Cassia Creek.

Is there now any other water right for the land to which you seek to make this transfer? If so, give amount, date and source. No other water, excepting under the decree in the case of Marshall, et al, v. Wickel, it is provided that the waters of Parke Creek and Parke Springs can be used on the land to which the transfer is requested, after the flow decreased to a point where it will not reach the land formerly owned by the Marshalls and Parke.

The title to this ^{water} is questionable. The water now used flows
to Cassia Creek and, naturally, contributes to the flow of
Cassia Creek via return flow. If this transfer is allowed
this water is definitely removed from Cassia Creek drainage.
