BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION)	
FOR TRANSFER NO. 3580 OF)	ORDER APPROVING
WATER RIGHT NO. 43-0192 IN)	TRANSFER IN PART
THE NAME OF F. STANLEY LLOYD)	

This matter having come before the Idaho Department of Water Resources (department) during the review of application for transfer no. 3580 filed pursuant to Section 42-222, Idaho Code, the Department finds, concludes and orders as follows:

FINDINGS OF FACT

1. On June 8, 1989, F. Stanley Lloyd (applicant) filed an application with the department to transfer 0.8 cfs of water under right no. 43-0192. The application proposed changing the the source of water under this right from Green Canyon Creek to a groundwater source. The application also requested a change in the place of use in order to correct the recorded place of use description and show the actual current place of use and amount of irrigated acreage.

2. The applicant has stated on the transfer application that the natural flow of Green Canyon Creek (shown as Green Creek on 7.5 minute USGS topographic maps) is insufficient for full diversion of water under water right no. 43-0192. The applicant therefore has proposed drilling a groundwater well and diverting groundwater from said well to provide the full rate of diversion allowed under right

MICROFILMED

MAY 18 1992

43-0192. The applicant further proposes that the priority date of the groundwater diversion should be the same priority date identified under right no. 43-0192, or April 30, 1880.

3. Department records indicate that right no. 43-0192 is the earliest priority right on Green Canyon Creek. Only one other right from the same source has the same priority date as right 43-0192. All other rights from the same source are junior to right 43-0192. According to claims filed in the Snake River Basin Adjudication, all but three of the junior rights are located downstream from the applicant's point of diversion. The one right with the same priority date, right no. 43-0371, is also located downstream from the applicant's point of diversion.

4. Review of the Department's records also indicate that there are no other groundwater rights upstream from the applicant's point of diversion from Green Canyon Creek.

5. The availability of water from Green Canyon Creek has not changed as a result of the activity of man. Stream flows at the applicants point of diversion have not been depleted by the drilling of wells or changes in upstream diversions. Water unavailability resulting from drought conditions should not justify approval to divert groundwater with a priority date equivalent to the earlier surface water right.

6. Approval of the transfer providing the applicant the ability to divert groundwater under an 1880 priority date surface water right when surface water is not available for delivery under right 43-0192 is an expansion of the original right. Such expansion may result in injury to downstream rights.

MICROFILMED

MAY 18 1992

CONCLUSIONS OF LAW

1. Section 42-222(1), Idaho Code provides direction and authority to the department in the review and approval of water right transfer applications. The statute states in part:

The director of the department of water resources shall examine all the evidence and available information and shall approve the change in whole, or in part, or upon conditions, provided no other water rights are injured thereby, the change does not constitute an enlargement in use of the original right, and the change is consistent with the conservation of water resources within the state of Idaho and is in the local public interest as defined in section 42-203A(5), Idaho Code.... In the event that the director of the department of water resources determines that a proposed change shall not be approved as provided in this section, he shall deny the same....

2. Approval of the proposed change in point of diversion and source of water from Green Canyon Creek to groundwater would result in an expansion of right no. 43-0192. The proposed changes may further result in injuries to downstream rights.

3. Application for Transfer No. 3580 of Water Right no. 43-0192 requesting a change in point of diversion and source of water from Green Canyon Creek to groundwater should be denied. The proposed change in place of use which corrects the recorded water right place of use should be approved.

ORDER

IT IS HEREBY ORDERED that Application for Transfer No. 3580 of Water Right No. 43-0192 which requests a change in the point of diversion and source of water is DENIED. IT IS FURTHER ORDERED that the requested change in the place of use is APPROVED subject to the following conditions:

1) The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.

MAY 18 1992

2) Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.

3) Partial approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Dated this 11th day of February, 1992.

APPLICATION FOR TRANSFER OF WATER RIGHT

PART 1

APPROVED

Name of applicant F. Stanley Lloyd Phone (208) 638-5543
Post Office address HC-61, Box 1510 Elba, Id. 83326

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☒ Add diversion point(s) ☒ Change place of use Surface water Right to Fulfill Surface water Right to Underground Right
☐ Change nature of use ☐ Change period of use ☒ Other Surface Right to Underground Right
2. Describe the reason for the proposed changes We have a water Right to a Volume of Water granted by The State of Idaho that we do not receive every year. We believe that we should be allowed to Turn to the Underground Source to fill This Right in The applicable years.

B. DESCRIPTION OF RIGHT(S) OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. Right Number 43-0192 Priority 1880 Amount 0.8 CFS Nature of Use Irrigation Period of Use Apr 30 to Nov. 1
Note: (We expect this Underground fulfillment Source to will Carry This Same Date of 1880.)

2. Total amount of water being transferred 0.8* cubic feet per second and/or _____ acre-feet per annum.
 3. Source of water Green Canyon Creek tributary to Cassia Creek
 4. Point(s) of Diversion:

Lot	1/4	1/4	1/4	Sec.	Twp.	Rge.	County	Local name for diversion
~~2~~	~~SW~~	~~SE~~	~~SE~~	12	14S	24E	Cassia	Green Canyon Ditch (headgate from)
	SW	SW	SE	12	14S	29E	Cassia	well

5. Lands irrigated or place of use:

Twp.	Rge.	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
14S	24E	12																39.8	39.8 *
14S	24E	12																40	
14S	25E	7									1	4						5	

** Decree incorrectly listed use in E 1/2 SE 1/4, should be S 1/2 SE 1/4 in sec 12

* Changes made per telecon 7/7/89 w/ Lloyd, Total acres 39.8 45
 By DRJ

PART 1

6. General Information:

a. Description of diversion system Headgate And Ditch System to
be Supported by Irrigation well

b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? yes Yes _____ No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:

No Change in Land Irrigated

d. Remarks:

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. 43-00192

And said application is hereby APPROVED IN PART, subject to the following limitations and conditions:

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR TRANSFER OF WATER RIGHT

PART 2

(Attach one copy for each right)

A. DESCRIPTION OF RIGHT AS RECORDED

1. Right evidenced by: # 992
 - a. Decree No. 43-0192 Decreed to S.H. Lloyd
in case of Albion Idaho Land Company vs. Jobe Adams, Et.al
dated 17 May 1922 in U.S. District Court county of Cassia
 - b. License No. _____ issued by the Idaho Department of Water Resources.
 - c. Claim No. _____ on file with the Idaho Department of Water Resources.
 - d. Transfer No. _____ which produced this right.
2. Attach a copy of last year's tax notice for the property to which the water right is appurtenant or other documents which show ownership. Label document as attachment A. Check appropriate box below:
☒ Tax Notice (Canyon)* ☐ Warranty Deed ☐ Other _____
3. Source of water Green Canyon Creek tributary to Cassia Creek
4. Date or priority 1880 (4/30/1880)*
5. Water is used for the following purpose:
amount 0.4 CFS for Irrigation purposes from Apr. 30 to Nov. 1
(cfs/ac-ft) _____ for _____ purposes from _____ to _____
(cfs/ac-ft) _____ for _____ purposes from _____ to _____
(cfs/ac-ft) 0.8* for _____ purposes from _____ to _____
(cfs/ac-ft) 0.4 CFS
6. Total amount of water under right 0.4 CFS cubic feet per second and/or _____ acre-feet per annum.
7. Point(s) of Diversion:

Lot	1/4	1/4	1/4	Sec.	Twp.	Rge.	County	Local name for diversion
<u>4</u>	<u>SW</u>	<u>SE</u>		<u>12</u>	<u>14S</u>	<u>24E</u>	<u>Cassia</u>	<u>Green Canyon Ditch</u>

8. Lands irrigated or place of use:

Twp.	Rge.	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
<u>14S</u>	<u>24E</u>	<u>12</u>													<u>I</u>		<u>#</u>	<u>I</u>	<u>89.8</u>
<u>14S</u>	<u>25E</u>	<u>7</u>																	
(Acres unspecified on decree)																			
MAY 18 1972																			

Total acres 89.8

9. Describe any other water rights used for the same purpose as described above None (Stat. claim 43-4074)

*Changes made per telecon 7/2/89 w/ F. Stan Lloyd by DRJ

10. To your knowledge, has any portion of this water right undergone a period of five or more consecutive years of non-use?

No

If yes, describe _____

B. DESCRIPTION OF PORTION OF RIGHT BEING TRANSFERRED

(If the entire right is to be changed by the applicant, omit part B and C.)

1. amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)
 amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)
 amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)

2. Point(s) of Diversion:

Lot	¼	¼	¼	Sec.	Twp.	Rge.	County	Local name for diversion

3. Lands irrigated or place of use:

Twp.	Rge.	Sec.	NE ¼				NW ¼				SW ¼				SE ¼				Totals
			NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	

Total acres _____

C. DESCRIPTION OF UNCHANGED PORTION OF RIGHT (omit if there is no change)

1. amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)
 amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)
 amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)

2. Point(s) of Diversion:

Lot	¼	¼	¼	Sec.	Twp.	Rge.	County	Local name for diversion

3. Lands irrigated or place of use:

Twp.	Rge.	Sec.	NE ¼				NW ¼				SW ¼				SE ¼				Totals
			NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	

Total acres _____

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCESAPPLICATION FOR TRANSFER OF WATER RIGHT
PART 3

- A. Draw a map or attach a USGS map indicating the new point(s) of diversion and/or the new place of use for rights described in part 1. Clearly depict the land by section, township and range number.

SCALE: 2 inches equal 1 mile. Draw plan in ink.

PART 3

B. CHANGES IN NATURE OF USE

1 New Nature of Use

Amount (cfs/ac-ft)

Hours/days/year

Period of Use

~~Same Use~~ 0.4 cfs 24/180/ Apr. 30 to Nov. 1

2. Quantity and quality of return flows and location of discharge:

~~Probably any discharge would be to the underground with minimum surface discharge to local drainage. Quality - Good.~~

3. Describe effects on other water uses resulting from the proposed change:

~~None~~

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willful misrepresentations made in this application may result in voiding its approval.

N/A

4. The property to be leased or conveyed to:

N/A

5. Description of property to be covered by the release, subordination, or consent:

See attached "Application for Transfer of Water Right"

6. The use to be made of the property covered by this application is:

MICROFILMED

MAY 18 1992

This form is used by FmHA borrowers to obtain the consent of the Government to enter into certain transactions as set out in FmHA regulations, to permit junior liens, or to request partial release from the terms of real estate security instruments.

Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: Department of Agriculture, Clearance Officer, OIRM, Room 404-W, Washington, D.C. 20250; and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, D.C. 20503.

7. The anticipated proceeds from this transaction are:

Initial payment \$ 0
Subsequent payment(s) \$ _____

Other considerations:

If the borrower obtains a loan from another lender as a result of any subordination covered by this application, the lender must incorporate in the borrower's note a statement that the loan will be in default should any proceeds of the loan funds obtained as a result of this subordination be used for a purpose that will contribute to excessive erosion of highly erodible land or to the conversion of wetlands to produce an agricultural commodity.

None

8. Subject to the provisions of Paragraph 7 it is proposed to use the proceeds as follows:

None

9. Have you or any member, stockholder, partner or joint operator of the entity borrower been convicted under Federal or State law of planting, cultivating, growing, producing, harvesting, or storing a controlled substance since December 23, 1985?

☐ Yes ☒ No

If yes, provide date of conviction and details on a separate sheet.

10. If this application is approved, the undersigned borrowers agree to comply with such terms as may be prescribed by the Farmers Home Administration and to disposition of the proceeds as required by the Farmers Home Administration pursuant to its regulations, including the method of applying payments to the borrowers' loan accounts. It is expressly understood that unless a separate written instrument of subordination or partial release is executed and delivered by the Farmers Home Administration pursuant to this application, approval by the Farmers Home Administration of this application will merely constitute and evidence its consent, as lienholder, to the proposed transaction without in any way subordinating its lien, releasing any of its security, modifying the payment terms of the loan, or otherwise affecting any rights of the Farmers Home Administration.

The borrower(s) agrees that none of the funds obtained as a result of any subordination covered by this application will be used for a purpose that will contribute to excessive erosion of highly erodible land or to the conversion of wetlands to produce an agricultural commodity, as explained in Exhibit M of Subpart G of Part 1940 of Title 7 of the Code of Federal Regulations.

**NOTICE OF PROPOSED CHANGE
OF WATER RIGHT**

No. 43-0192

Notice is hereby given that F. STANLEY LLOYD of Elba, ID has applied to the Department of Water Resources to change the following described water right(s) pursuant to Section 42-222 of the IDAHO CODE.

WATER RIGHT AS RECORDED

Water right No. 43-0192

Basis of right: Decreed to S.H. Lloyd in case of Albion Idaho Land Company vs. Jobe Adams, Et. Al. dated 5/17/1922 in U.S. District Court, Cassia County.

Source: Green Canyon Creek tributary to Cassia Creek

Priority Date: 4/30/1880

Amount of water: 0.80 cfs

Water use: irrigation

Point(s) of diversion: Lot 4 (SW1/4SE1/4), S12, T14S, R24E (Green Canyon Ditch); Cassia County.

Place of use: Unspecified acres on decree within S12, T14S, R24E; S7, T14S, R25E.

TO BE CHANGED AS FOLLOWS

Water right No.: 43-0192

Amount: 0.80 cfs

Total amount being transferred: 0.80 cfs

Source: Green Canyon Creek tributary to Cassia Creek

Source: Groundwater

Point of diversion: SW1/4SE1/4, S12, T14S, R24E (Headgate from Green Canyon Ditch); SW1/4SW1/4SE1/4, S12, T14S, R24E (well); Cassia County.

Place of use: 45 acres within S1/2SE1/4, S12, T14S, R24E; W1/2SW1/4, S7, T14S, R25E.

Any protest against approval of the application for transfer must be filed with the Department of Water Resources, 222 Shoshone Street East, Twin Falls, ID 83301 on or before July 9, 1990.

RE: TRANSFER 3580/RT. NO. 43-0192 IN NAME OF STANLEY LLOYD

=====

Per my previous memo of December 26, 1991 and further discussion with Gary Spackman, it is recommended that the requested change in point of diversion and source of water be denied. The requested change for place of use should be approved subject to the conditions below. Conditions to be shown on attached order.

- 1) <<T07>> The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
- 2) <<T08>> Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
- 3) <<T09>> Partial approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

RE: TRANSFER 3580/RT. NO. 43-0192 IN NAME OF STANLEY LLOYD
=====

This transfer proposes changing/adding a groundwater point of diversion to the above decreed surface water right without any advancement in priority.

Glen's memo to Norm dated May 22, 1990 suggested that we return the application and consider it unacceptable since Section 42-222, Idaho Code does not provide for a change in the source of water. Glen concluded that we advertise the application and draft a decision denying the application. Norm agreed but further advised evaluating the application with as much detail as possible in regard to interrelationship of sources, impacts to other uses and expansion in volume.

I feel the application should be denied but am not certain how to proceed. I argue that the change would result in an expansion of the 'natural flow' right. Moreover, the proposed change may injure existing surface and/or groundwater rights. Perhaps only some type of explanation is needed in a decision to show expansion and injury rather than a detailed evaluation.

As an alternative, and as recommended by the region, we could approve the application on the condition that the groundwater diversion be regulated as a surface water diversion. It is obvious though that this latter option will not satisfy the applicant. It will only force him to either violate conditions of the approved transfer and thereby result in potential problems with the watermaster and other users, or force him to file a supplemental groundwater application, which is what he should have done in the first place. As Glen has suggested, this issue may be better addressed in the SRBA. Maybe we should advise the applicant to seek the priority date change in the SRBA.

Your comments and directive are welcome. I can draft an order for decision denying the transfer, but I would like to know if any detailed evaluation is needed.

Re: Application for Transfer No. 43-0192

Dear Mr. Lloyd:

The Department of Water Resources acknowledges receipt of your Application for Transfer.

This office will be advertising the application in the South Idaho Press on 6/21 and 6/28/90. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

Before we can forward your application to our state office for approval we must include in the file evidence of ownership of the land from which the water is being removed such as copies of deeds, tax records, etc. and/or a notarized statement from any lien holder on the property.

State Office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

GLENN —

1) Based upon the applicant's 5/8/90 letter, I think he deserves a decision.

The filing should be evaluated in as much detail as possible relative to

- a) Inter-relationship of sources
- b) Expansion in volume per year diverted and consumptively used
- c) Effect on other rights
- d) Limitations on an approval to allow the use to be managed if approved

2) Better advertise. While ~~the~~ advertising seems irrelevant if we are going to deny, ~~but~~ it could be important if decision is taken to ~~file~~ 2-1701A hrg or is appealed.

MEMORANDUM

To: Norman C. Young
From: L. Glen Saxton *MS*
RE: APPLICATION FOR TRANSFER OF RIGHT 43-0192
Date: May 22, 1990

The attached file is an interesting one. The applicant has filed a transfer to add a groundwater point of diversion to his surface water right. The intent is to claim the priority of the surface water for water diverted from the proposed well.

The application has not been advertised. S. Region would like not to advertise it since approval is not likely.

There are several options for action including the return of the application for transfer and drilling permit application together with fees to the applicant advising that the application is not acceptable and will not be processed. The reason for unacceptability would be that section 42-222, Idaho Code, does not provide for a change in the source of water. Depending on the tenacity of the applicant, the matter might die or might result in the service of a writ of mandamus requiring action by the department.

There may be future intent of others in this basin or in the state to do this same type of filing. Hence, I suggest the application be advertised and denied with a memorandum decision and order unless we wish the matter to be addressed in the Snake River Adjudication. The adjudication could be the vehicle to use, since it is my understanding that adjudication claims have been filed which claim diversion of groundwater with the same priority as the older surface water rights.

Your comments will be appreciated.

Re: Well drilling permits and Application for transfer of water
right No. 43-0192

Dear Mr. Lloyd:

This office is in receipt of your request to proceed with action on your application for transfer and applications for drilling permits for yourself, Bruce Turner, and Wayne Whitaker.

The \$30.00 fee submitted is insufficient for the three drilling permits, however, we are receipting the check and applying the amount submitted first to the Turner and Whitaker Drilling permits, and second to your own drilling application. Your receipt and approved drilling permits for the Turner and Whitaker wells are enclosed.

An additional \$90.00 in fee is due on your own drilling application. It may be premature to submit the additional fee now because the department will not act on your drilling application until action is taken on the water right transfer.

If you have any questions regarding this matter, please let us know.

Very Truly yours,

Loren O. Holmes, P. E.

ACTION OF DEPARTMENT OF WATER RESOURCES

This Permit is _____.

If approved, this permit authorizes the construction of a well subject to the following conditions:

GENERAL CONDITIONS

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

Re: Application for transfer of Water right No. 43-0192

Dear Mr. Lloyd:

Some time ago, you filed an application to add groundwater as a source of supply to the above referenced decreed surface water right.

Prior to any action on the application, I had the proposal reviewed by our groundwater hydrology section. A copy of the memorandum reporting that analysis is attached.

It would appear to me that a more proper course for you would be to apply to appropriate groundwater to supplement the decreed right rather than to apply to add groundwater as a source on the original right.

To date we have not taken any action to process your transfer application, so the filing fee will be refunded if the application is withdrawn.

I have enclosed an application for permit form and instructions for your use in applying for a groundwater permit if you wish to do so.

Please let us know within thirty days how you wish to proceed..

Very Truly yours,

Loren O. Holmes, P. E.
Southern Region Manager

MEMORANDUM

CECIL D. ANDRUS

GOVERNOR

R. KEITH HIGGINSON

DIRECTOR

TO: Loren Holmes,
Southern Regional Office Manager

DATE: July 25, 1989

THRU: Alan Robertson
Hal Anderson
Norm Young

FROM: Steve Baker

SUBJECT: Comments Regarding F. Stanley Lloyd's "Application
For Transfer of Water Right"

As stated in his application, Mr. Lloyd holds an 1880 natural flow right on an unnamed creek in T14S-R24E-S12 SW/SE. Because flow in this creek varies both seasonally and annually, he does not always receive his decreed amount of .8 cfs throughout the irrigation season. As a result, he feels he should be entitled to obtaining a ground-water supply with the same priority date to supplement during periods of shortage.

Information on his water right suggests that he holds the oldest and farthest upstream right on the creek. If this is true, then there is no way he could be affected by improper management of the resource. Also his land is bordered on three sides by National Forest, so there is no reason to believe that he has been impacted by later development.

There is currently insufficient data available to assess the local relationship between the creek and ground water. However, on a regional scale it is well-known that the surface and ground waters in the upper portion of the Raft River Valley are in hydraulic communication with each other. Any additional ground water use will have an effect on existing water users in the valley.

If you have any other questions regarding this matter, please contact me.

SUBJECT: Lloyd Transfer, request for technical assistance

Attached is a copy of a transfer application which proposes to change the source of water from a surface source to groundwater.

Before processing the application, I would like to get a technical opinion on the relationship between the creek and the groundwater so we can determine whether to consider the application.

The region can make a field investigation if we know what data needs to be collected.

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1Name of applicant F. Stanley Lloyd Phone 208/168-5543
Post Office address HC-61, Box 1516 Elba, Id. 83326

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☒ Add diversion point(s) ☒ Change place of use ☐ Change nature of use ☐ Change period of use ☒ Other Surface water Right to Full Surface Right to Underground Right
2. Describe the reason for the proposed changes We have a water Right to a Volume of water granted by The State of Idaho that we do not receive every year. We believe that we should be allowed to Turn to the Underground Source to fill This Right in The applicable years.

B. DESCRIPTION OF RIGHT(S) OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. Right Number 43-0192 Priority 1880 Amount 0.8* (cfs/acre-ft) Nature of Use Irrigation Period of Use Apr 30 to Nov. 1

Note: (We expect this underground fulfillment Source to will Carry This Same Date of 1880.)

2. Total amount of water being transferred 0.8* cubic feet per second and/or _____ acre-feet per annum.
3. Source of water Green Canyon Creek tributary to Cassia Creek
4. Point(s) of Diversion:

Lot	1/4	1/4	1/4	Sec.	Twp.	Rge.	County	Local name for diversion
~~3~~	~~SW~~	~~SE~~	~~SE~~	12	14S	24E	Cassia	Green Canyon Ditch
	SW	SW	SE	12	14S	24E	Cassia	well

5. Lands irrigated or place of use:

Twp.	Rge.	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
14S	24E	12																	39.8
14S	24E	12																	40
14S	25E	7									1	4							5

** Decree incorrectly listed use in E/2SE 1/4, should be 3/2 SE 1/4 in Sec 12

* Changes made per telecon 7/7/89 w/ Lloyd Total acres 39.8 45

PART 1**6. General Information:**

a. Description of diversion system Headgate And Ditch System to
be Supported by Irrigation well

b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? yes Yes _____ No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:

No Change in Land Irrigated

d. Remarks:

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. _____

And said application is hereby _____, subject to the following limitations and conditions:

APPLICATION FOR TRANSFER OF WATER RIGHT

PART 2

(Attach one copy for each right)

COPY
FOR YOUR FILES

A. DESCRIPTION OF RIGHT AS RECORDED

1. Right evidenced by: # 992
 - a. Decree No. 43-0192 Decreed to S.H. Lloyd
in case of Albion Idaho Land Company vs. Jobe Adams, Et.al
dated 17 May 1922 in U.S. District Court county of Cassia
 - b. License No. _____ issued by the Idaho Department of Water Resources.
 - c. Claim No. _____ on file with the Idaho Department of Water Resources.
 - d. Transfer No. _____ which produced this right.
2. Attach a copy of last year's tax notice for the property to which the water right is appurtenant or other documents which show ownership. Label document as attachment A. Check appropriate box below:

☒ Tax Notice (Canyon)*
☐ Warranty Deed
☐ Other _____
3. Source of water Green Creek tributary to Cassia Creek
4. Date or priority 1880 (4/30/1880)*
5. Water is used for the following purpose:

amount 0.4 CFS for Irrigation purposes from Apr. 30 to Nov. 1
(cfs/ac-ft) _____ for _____ purposes from _____ to _____
amount _____ for _____ purposes from _____ to _____
(cfs/ac-ft) _____ for 0.8 X purposes from _____ to _____
amount _____ for _____ purposes from _____ to _____
(cfs/ac-ft) _____
6. Total amount of water under right 0.4 CFS cubic feet per second and/or _____ acre-feet per annum.
7. Point(s) of Diversion:

Lot	¼	¼	¼	Sec.	Twp.	Rge.	County	Local name for diversion
4	SW	SE		12	14S	24E	Cassia	Green Canyon Ditch

8. Lands irrigated or place of use:

Twp.	Rge.	Sec.	NE ¼				NW ¼				SW ¼				SE ¼				Totals
			NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼

14S	25E	7																	
(Acres unspecified on decree)																			

MAY 18 1992

Total acres 398

9. Describe any other water rights used for the same purpose as described above None (Stat claim 43-4874)
*Changes made per telecon 7/7/89 w/ F. Stan Lloyd by DRJ

10. To your knowledge, has any portion of this water right undergone a period of five or more consecutive years of non-use?

No

If yes, describe _____

B. DESCRIPTION OF PORTION OF RIGHT BEING TRANSFERRED

(If the entire right is to be changed by the applicant, omit part B and C.)

1. amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)
 amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)
 amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)

2. Point(s) of Diversion:

Lot	¼	¼	¼	Sec.	Twp.	Rge.	County	Local name for diversion

3. Lands irrigated or place of use:

Twp.	Rge.	Sec.	NE ¼				NW ¼				SW ¼				SE ¼				Totals
			NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	

Total acres _____

C. DESCRIPTION OF UNCHANGED PORTION OF RIGHT (omit if there is no change)

1. amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)
 amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)
 amount _____ for _____ purposes from _____ to _____
 (cfs/ac-ft)

2. Point(s) of Diversion:

Lot	¼	¼	¼	Sec.	Twp.	Rge.	County	Local name for diversion

3. Lands irrigated or place of use:

BEFORE THE DIRECTOR
OF THE
IDAHO DEPARTMENT OF WATER RESOURCES

RECEIVED
NOV 8 1977
Department of Water Resources
Southern District Office

IN THE MATTER OF) ORDER MODIFYING BOUNDARIES OF
THE RAFT RIVER) THE RAFT RIVER CRITICAL GROUND-
CRITICAL GROUNDWATER AREA) WATER AREA

WHEREAS, on July 23, 1963 the following part of the State of Idaho containing the Raft River Groundwater basin was declared to be a "Critical Groundwater Area" pursuant to Sections 42-226 and 42-233a, Idaho Code.

Beginning at a point on the southerly boundary of the Burley Irrigation District on the Line common to Ranges 24 and 25 East; thence South on said range line to the westerly boundary of Marsh Creek Drainage; thence southerly on said westerly boundary to Harrison Mountain; thence southerly on the westerly boundary of Raft River Drainage to the south line of the state of Idaho; thence east on said line to a point on the easterly boundary of Raft River Drainage; thence northerly along said easterly boundary to the Snake River; thence westerly along the Snake River to the easterly line of the Burley Irrigation District; thence southerly and westerly along the boundary of said district to the point of beginning," and;

WHEREAS, after completion of various studies of the Raft River Valley, modifications have been made removing certain areas from the critical designation. On August 2, 1965, an area on the extreme northern boundary was removed. On September 19, 1966, the Albion Basin on the west side was removed. On November 16, 1970, the area generally north of the Yale road was removed from the critical designation and;

WHEREAS, the Director received on February 14, 1977, several petitions signed by more than eighty residents of the critical groundwater area requesting that the designation be removed from the upper Raft River Valley, Elba, Yost-Almo subbasins and;

WHEREAS, a public meeting was held in Elba, Idaho on May 6, 1977 to obtain information concerning the request, and all comments favored removing the critical designation from the upper areas of the Raft River Valley and;

WHEREAS, pursuant to Section 42-233a, Idaho Code, the Director of the Department of Water Resources gave notice to the public that he was considering modification of the critical groundwater area by removing the portion

MICROFILMED

MAY 18 1992

generally described as the upper Raft River Valley, Elba and Yost-Almo subbasins from the designation, and further gave notice that he intended to hold a hearing May 26, 1977 at 7:30 p.m. in the Raft River High School, Malta, Idaho, to consider any oral or written statement that any person might wish to make in support of or against the proposed modification.

WHEREAS, at the hearing the hearing officer extended until June 6, 1977 the time within which written statements would be accepted and;

WHEREAS, public input at the hearing and as written statements has unanimously favored the removal of the critical designation from the Yost-Almo and Elba subbasins and; with some reservations, the removal of this designation from all upper areas of the Raft River Valley and;

WHEREAS, the average rate of underground water outflow from the Yost-Almo subbasin (including Junction Valley) is estimated to be 16,900 acre feet per year (USGS open file report, "The Raft River Basin, Idaho - Utah, as of 1966") and;

WHEREAS, the average rate of underground water outflow from the Elba subbasin has not been fully quantified but has, in part, been estimated to be 600 to 800 acre feet per year ("USGS Open File Report "The Raft River Basin, Idaho-Utah as of 1966") and;

WHEREAS, it is the opinion of the Director that underground water resource the Elba and Yost-Almo subbasin can be developed further without adverse effects to either the ground water resources of the remaining areas designated as critical groundwater areas or the water rights from streams and rivers in the Raft River Drainage. However, the development of ground waters in the Elba and Yost-Almo subbasins must be limited in volume, location and depth of waters appropriated, and place of use of the ground waters if adverse affects to prior rights are to be avoided.

NOW THEREFORE IT IS HEREBY ORDERED, that the Raft River Critical Groundwater area as described in the State Reclamation Engineer's order of July 23, 1963, be further modified to include only the area described as follows:

Beginning at the northeast corner of Section 36, T. 10 S., R. 25 E.B.M., that point lying on the line between Ranges 25 E. B. M. and 26 E. B. M.; thence South along said line to the intersection with the easterly boundary of the Marsh Creek Drainage; thence southerly along the drainage divide between the Raft River Basin and the Marsh Creek Drainage Basin to the southern-most intersection of said drainage divide with the line between ranges, 25 E.B.M. and 26 E.B.M., MAY 18 1992

3

thence south along that range line to the boundary line between the states of Idaho and Utah; thence easterly along said boundary line to the intersection of said boundary line with the drainage divide between Raft River Drainage Basin and Black Pine Drainage Basin; Thence northeasterly along the eastern boundary of the Raft River Drainage to the intersection of the Section line common to Sections 26 and 35, T. 10 S., R. 29 E.B.M.; then west along a line parallel to and one mile north of the line common to Township 10 South and Township 11 South, to the northeast corner of Section 31, T. 10 S., R. 28 E.B.M.; thence north to the northeast corner of Section 18, T. 10 S., R. 28 E.B.M.; thence west to the northwest corner of section 13, T. 10 S., R. 27 E.B.M.; thence south one mile, thence west one-half mile; thence south one mile; thence west one-half mile; thence south one mile to the northeast corner of Section 34, T. 10 S R. 27 E.B.M.; thence west along a line parallel to and one mile north of the line common to Township 10 South and Township 11 South to the point of beginning; and

IT IS FURTHER ORDERED, that development of the groundwater resources of the subbasins hereby removed from the critical designation be limited to an actual net withdrawal not to exceed the rate of underground water outflow listed herein, or as subsequently determined by the Director. Before taking action on any application to appropriate groundwater in the area hereby opened, the Director will consider the location of the proposed well, the aquifer layer from which water is to be obtained, the location of the place of use, the location of return flow, the requested diversion rate, and any other factor which may determine the affect of the proposed development upon the availability of water to fill prior surface and groundwater rights.

IT IS FURTHER ORDERED, that the above change in the critical designation shall be effective 8:00 a.m. July 22, 1977, and that any application for permit to appropriate groundwater properly filed with the Director for the areas hereby removed from the critical designation between the effective date of this order and the date of its issuance shall be given the date of priority of the time the order is effective.

DATED THIS DAY OF 30th June, 1977.

APPLICATION FOR TRANSFER OF WATER RIGHT

NO. 43-0192

Department of Water Resources
Southern Region Office

RECOMMENDATION OF WATERMASTER

I, Neal Twitchell, watermaster of Cassia Creek,
of Water District No. 43-C, County of Cassia, State of Idaho,
whose address is HC 61 Box 1510 Elba, Idaho 83326
have read the attached copy of the application for transfer of water right for _____
F. Stanley Lloyd, and to the best of my knowledge believe the
(name)
application to be true.

A. I hereby endorse the above numbered Application for Transfer and recommend
that the Director of the Department of Water Resources approve the transfer subject to
the following conditions: that the groundwater source
only be used after the surface water source
is no longer able to be filled.
OR

B. I do not endorse approval of the above numbered Application for Transfer as re-
quested for the following reasons: _____

Dated at Elba, Idaho, this 24th day of July 1989.

Dear Mr. Lloyd:

The Department acknowledges receipt of your Application for Transfer. A copy is enclosed for your information.

At this time we are unable to state whether the application will be advertised or not, that decision will depend upon the results of the watermaster recommendation and hydrology analysis.

If you have any questions or if this office can be of further assistance, please feel free to contact us.
