STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 41-07083 Telephone No. (208) 548-2301
2. Name(s) of Permit Holder(s): Dora Wiedholz
3. Mailing Address: 3850 Rock Creek Road American Falls, Id. 83211
4. Source of Water: Groundwater

If **GROUNDWATER**, Well Driller's Name: Dubbe Drilling # 148 Date Drilled: 12-25-89

OPTIONAL:

Pump horsepower: 5 hp Pressure (psi): 60 Dynamic pumping level (ft.): 60'

5. Extent of Use (as authorized by the permit):

Domestic ☒ (No. of households) Stockwater ☒ (No. and type of stock)
Irrigation ☒ (No. of acres) Other _____

6. Total rate and/or volume for which proof is submitted 0.20 cfs OR _____ acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? ____ Yes NO Installed? ____ Yes ____ No

OR
Flow Measurement Port: Required? ____ Yes NO Installed? ____ Yes ____ No

8. Fee Enclosed: \$ ☒ (See License Fee Schedule on back of Instruction Sheet)

9. Person to contact to accompany the Department representative during field examination of the water system.

Dora Wiedholz 548-2301
Name Telephone No.
3850 Rock Creek Rd. American Falls, Id. 83211
Address

10. The above information is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the state of Idaho.

E. NARRATIVE/REMARKS/COMMENTS

FILE: 41-07083

FROM: AMANDA FOLSOM

DATE: OCTOBER 25, 1999

The Field Exam was conducted on September 30, 1999. I met with Dora Wiedholz and her son-in-law who helps set up the hand lines in the spring. There is one well on the property in the SWNW 1/4 of Sec 14, Twn 09S, Rng 30E. This well is used for one house, stockwater, and irrigation.

I took a measurement with the Fuji on the irrigation main line. The pipe coming from the well was plastic, and to my knowledge would not register on the meter. The Fuji calculated 0.13cfs which I am recommending. In the spring, the grazing land for the cattle is irrigated with hand lines. The pasture for the horse is also irrigated with hand lines. The hand lines are moved to irrigate all the land. In the front of the house, a drip hose system is used. The hoses extend all the way to the road. The total amount of land being irrigated is 8 acres.

The stockwater is for cattle and one horse. The number of cattle per year fluctuates. Last year they had fifteen, and upon examination, five. I am recommending 0.02cfs for the stockwater. A spigot close to the horse stable is used to water the horse. Down the hill in the grazing land, there is a water hole with a floater in it which automatically refills the water for the cattle.

For the domestic I am recommending the 0.04 that was permitted.

Have conditions of permit approval been met? ☒ yes ☐ no

F. FLOW CALCULATIONS

Measured Method:

$$\text{Fuji} - \frac{58 \text{ gpm}}{448.83} = 0.13 \text{ cfs}$$

☒ Additional Computation Sheets Attached

$$\text{Spk} - 3.1 \text{ gpm} (18 \text{ spk}) = 55.8$$

$$\frac{55.8}{448.83} = 0.12 \text{ cfs}$$

$$\text{Theo} - \frac{(8.8)(5)(.70)}{150 + (30 \cdot 2.31)} = \frac{30.8}{219.3} = 0.14 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (8)(4) = 32$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (0.13)(246)(1.9835) = 63.4$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 32 \text{ afa}$$

ACTION OF DEPARTMENT OF WATER RESOURCES

This Permit is Approved.

If approved, this permit authorizes the construction of a well subject to the following conditions:

GENERAL CONDITIONS

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

SPECIFIC CONDITIONS

Dated this 26th day of July, 1989.

RE: PERMIT NO. 41-07083

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls, at (208)736-3033.

Sincerely,

JULIE L. YARBROUGH

RE: Permit No. 41-07083
Drilling Permit No. 41-89-S-0001-000

Dear Permit Holder:

Enclosed is a copy of the Proof of Beneficial Use submitted in connection with the above referenced water right. It, and your permit to appropriate water (copy enclosed), both indicate that water is diverted for domestic, stockwater and irrigation. Also enclosed is a copy of the drilling permit you applied for in 1989. It indicates the extent of use to be single family domestic and stockwater. Single family domestic and stockwater use constitutes the diversion of 0.04 cfs or less and/or the use for one home.

You were properly charged \$10.00 for the domestic well drilling permit. However, because of the use you have indicated (irrigation with a diversion of 0.20 cfs), the drilling permit is no longer considered strictly single family domestic. The charge for a non-domestic drilling permit at that time was \$100.00.

Before the Department can accept the proof of beneficial use as filed, you will need to pay the additional \$90.00 fee to upgrade the drilling permit to a non-domestic. The Department will hold your file for 30 days to allow you time in which to submit the additional fee. Please address your correspondence directly to me.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

LAPSE NOTICE

RE: PERMIT NO. 41-07083

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated October 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

POCATELLO ID 83201

PROOF DUE NOTICE

RE: PERMIT NO. 41-07083

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 41-07083

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Re: Application for Permit No. 41-07083

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the POWER COUNTY PRESS on 6/6 & 6/13/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent
