WATER RIGHT LICENSE

WATER RIGHT NO. 32-7064

Priority: December 2, 1976 Amount: 1.61 CFS 384.0 AFA

This is to certify, that NEAL SAUER

5566 W. 49 N.

IDAHO FALLS, ID 83402

has complied with the terms and conditions of the permit issued pursuant to Application for Permit dated December 2, 1976, and has submitted proof to the Department of Water Resources on December 21, 1979, that water has been applied to a beneficial use; an examination by the Department indicates that the works have a diversion capacity of 3.21 cfs of water from a **GROUNDWATER** source and that a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>VOLUME</u>
Irrigation	04/01 to 11/01	1.61 cfs	384.0 afa

LOCATION OF POINT OF DIVERSION(S): NWSW , Sec. 26, Township 9N, Range 33E
Clark County

PLACE OF USE: Irrigation

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
9N	33E	26	NESW 32	NWSW 32	SWSW 32	SESW 32	128

Total number of acres irrigated: 128

CONDITIONS/REMARKS:

1. The right to the use of the water hereby confirmed is limited to the amount which can actually be beneficially used and is restricted and appurtenant to the lands or place of use and to the purpose herein described, as provided by the laws of Idaho.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 19th day of April, 1988.

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 32-7064 }

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

RE: Blaine Larsen Transfer Application

Jeffrey C. Fereday
Givens, McDevitt, Pursley,
Webb & Buser
P.O. Box 2720
Boise, ID 83701

Dear Mr. Fereday:

I have reviewed the application for transfer of water rights submitted for Blaine Larsen Farms and have the following comments.

1. More than one transfer application is required

The proposed place of use location identified on the transfer application (attachment #2) indicates 15 different pumps which appear to supply water to separate and non-interconnected center pivot systems. The transfer application as proposed will apportion the 8 rights identified to the 15 circular systems. The quantities appurtenant to each of the circular systems is not identified.

A separate transfer application is required for each non-interconnected circular system. This is consistent with the fact that each circular system has its own application for permit.

2. Permits cannot be included on a transfer application

The transfer application identified eight different water rights; four of the water rights are still in the permit stage. A review of our files show that field exams have been completed on these permits. An application for transfer cannot include those rights until the permits are licensed.

If you intend to transfer the use under the permits for the 1988 irrigation season, the Department will expedite issuance

MICROFILMED

JUN 16 1988

of the licenses. In some cases, the amount of flow, acres irrigated and annual volume of the rights when licensed will be substantially less than identified in attachment #1.

3. A claim to a water right on a transfer application must be verified prior to approving the transfer application

Since a claim to a water right has not undergone any prior verification, water use under the claims to water rights must be field inspected prior to transfer approval. The transfer will be limited to the extent of use verified under the claim.

In conclusion, we are returning the enclosed Application for Transfer. You will need to prepare a transfer for each of the circular systems, the transfers cannot include water right permits, and a transfer application which includes a claim will require additional time to process because the Department must schedule an examination to determine the validity of the claim.

I am sure you will have many questions and the Department will need to put priority of processing the identified permits toward licensing if you still intend to pursue the transferring of these water rights. Therefore, if you feel that you need any further assistance, please let us know.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

VIA HAND DELIVERY

Mr. Norman C. Young
Acting Director
Idaho Department of Water Resources
Statehouse
Boise, ID 83720

Re: Blaine Larsen transfer applications

Dear Norm:

By letter of August 6, 1987 to Ron Carlson, we informed the Department that Blaine Larsen intends to lease water to cover his 1987 depletions and therefore will not pursue the 1987 transfer applications that we submitted to you on July 31. However, Mr. Larsen does intend to submit transfer applications involving these same waters for 1988, presuming that is necessary. In order to inform us about any further information that you might need if these or similar applications are to be processed for 1988, we would appreciate your reviewing these and providing us with any comments you might have.

Thanks for your help in this matter.

Very truly yours,

Jeff Fereday

Re: Blaine Larsen Transfer Applications

Dear Jeff:

In further response to your letter of July 22, 1978, I would like to confirm the statements I made in our telephone conversation of July 30, 1987.

Your letter states your understanding that counsel were in agreement that it would be consistent with the recent stipulation for Mr. Larsen to proceed with supplying 1987 make-up water by filing applications for transfer from the Sauer land for the 1987 irrigation season. The applications were filed with the department on July 31, 1987.

As I indicated in our telephone conversation, I agree that we discussed during the course of the negotiations the filing of applications for transfer from the Sauer land for the 1987 irrigation season. I do not recall, however, any agreement that such filings could satisfy Mr. Larsen's obligation to supply 1987 make-up water. I did not discuss such filings with department administrators.

The stipulation does not anticipate Mr. Larsen satisfying the 1987 make-up water requirement by retroactively transferring water rights from lands which were not irrigated in 1987. I did not expect that Mr. Larsen would be filing such applications.

Consistent with paragraph 13 of the stipulation, it was my understanding that the applications for transfer to be filed by Mr. Larsen were to be for the 1988 irrigation season and that the

JUN 18 1988

Jeffrey C. Fereday, Esq.
August 4, 1987
Page 2

Director agreed to the expedited processing of such applications. It was further my understanding, consistent with paragraph 12(c) of the stipulation, that if Water Supply Bank water became available to Mr. Larsen during 1987 he would purchase such water. I also believe that following through with this course of action would be in Mr. Larsen's best long-term interests.

As you and Mr. Larsen are aware from Ron Carlson's letter of July 30, the Committee of Nine met on July 29, and authorized Ron to make water available for lease to people needing replacement water. Ron's letter further states that he will not be able to guarantee that water will be available past August 15. I believe that Mr. Larsen has an obligation consistent with the stipulation to purchase 1987 make-up water from the Water Supply Bank at this time.

Sincerely,

PHILLIP J. RASSIER

Re: 1987 transfer of water rights from Neil Sauer to
 Blaine Larsen

Dear Norm:

Pursuant to the terms of the Stipulation and Order entered into recently between the Department, Blaine Larsen and Idaho Power Company, we are hereby submitting for your immediate consideration Mr. Larsen's application to transfer to his use water rights held by Mr. Neil Sauer, who is not exercising them this year and has agreed to lease them to Mr. Larsen. This water is intended to cover all but a small portion of the 1987 depletions enumerated in the Stipulation and Order. Mr. Sauer's water is diverted from the Snake Plain Aquifer, the same source from which Mr. Larsen has been pumping water in 1987.

You will notice in attachments 1 and 2 to the application that the amount of water that can be supplied under Mr. Sauer's rights through this proposed transfer is slightly more than what Mr. Larsen needs to cover his 1987 depletions from these lands, both those which have occurred so far and those which will occur during the remainder of the season. These lands are covered by 15 applications for ground water diversions which Mr. Larsen filed last winter and which are still pending before the Department. The remainder of his applications represent lands which either have not been developed in 1987 or are covered by Water Bank rental agreements and interim approvals.

Filing this application to cover 15 wells comes very close to covering all of Mr. Larsen's 1987 depletions for which there is not substitute rental water or other approval, ~~that is, the~~ depletions that were in dispute between Mr. Larsen and the Department. However, Mr. Sauer's water falls about 360 acres

JUN 16 1988

Mr. Norman Young
July 31, 1987
Page 2

short of being adequate to cover the 1987 depletions. Accordingly, we have selected one of Mr. Larsen's applications, No. 31-7470 for well No. 112, for separate treatment outside of this transfer program. We expect that we will seek to rent Water Bank water to cover that well's 1987 depletions; we understand that additional rental water has become available recently. Incidentally, although application No. 31-7470 seeks water sufficient to irrigate 360 acres, the lands involved actually total only 200 acres irrigated by means of pump No. 112. Therefore, we expect that any application we make to rent water will reflect this situation.

In the transfer application and the attached exhibits, we have indicated that the acreages irrigated by Mr. Larsen are equivalent to those acreages listed in his water right applications on file. This is correct as a general matter. However, the actual acreages being irrigated this season actually are less than the number of acres applied for. The reason for this is that, in most cases, the acres applied for were calculated on the basis of 40-acre square sections, while the lands irrigated are smaller, circular tracts. In the minority of cases, the lands being irrigated by pivot are greater than the acreages applied for, but this situation still does not change the net result: the acreages applied for are greater than the acreages irrigated. In other words, although Mr. Larsen is seeking to transfer water for 2,600 acres -- which he intends to supply with water Mr. Sauer has used to irrigate 2,674 acres -- he actually has been irrigating less than 2,600 acres.

Part 2 of the application involves eight separate forms with their attachments; each form represents a separate water right which Mr. Sauer will lease to Mr. Larsen. The attachments consist of the applications, licenses, permits, claims, beneficial use reports and other documentation supplied to us by the Department. The attachments indicate that the Department has treated Mr. Sauer and Sauer Enterprises as the owner of all of the water rights to be transferred. We assume this is sufficient indicia of ownership on the part of the transferer to satisfy the Department. If not, please let us know immediately.

With respect to Permit Nos. 32-7064 and 32-7069, we find no indication in the files we received that the record owner, Mr. Jack Bond, assigned his interest to Mr. Sauer as he had done with some of the other water rights. However, in 1984 the Department completed a Beneficial Use Field Report for both of these water rights which indicates that Sauer Enterprises and Neil Sauer are the owners. If necessary, we will prepare a

JUN 16 1988

Mr. Norman Young
July 31, 1987
Page 3

formal Assignment between Mr. Bond and Mr. Sauer as to these two permits, but we trust that the Field Reports are sufficient to indicate that such an assignment already has occurred. Incidentally, we have not yet prepared a lease or other instrument formalizing the agreement between Sauer and Larsen, but we will be doing so in the near future. We thought it most important at this juncture to present you with applications that you could react to at the earliest opportunity.

Instead of attaching 8 separate maps showing the places of use and points of diversion of Mr. Sauer's water rights to be transferred and 15 separate maps for each of the places of use and points of diversion of Mr. Larsen's use, we are attaching one large map which indicates all such locations. We believe that this will be more efficient, and hope that it meets your approval. Please let us know if you need different or further maps.

As agreed between Mr. Larsen, the Department and Idaho Power Company, we expect the Department to expedite the processing of these transfer applications to ensure that they are disposed of in sufficient time for Mr. Larsen to make alternative plans if some or all of the transfers are not approved. We thank you for your cooperation and look forward to working closely with you and your staff in processing these applications.

Very truly yours,

Jeffrey C. Fereday

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

JUN 16 1986

Certified water right examiners are licensed engineers or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing of certified water

right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Mr. Baker:

Enclosed are copies of your approved Applications for Permits as referenced above. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain measuring devices at your points of diversion has been placed upon your permits. We are enclosing a letter describing different types of measuring devices accepted by this office.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

RE: 32-7051/etc. APPLICATIONS FOR PERMITS - BAKER

Enterprise-Citizen
Box 7
Rexburg, Idaho 83440

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill.

Very truly yours,

RONALD D. CARLSON
Supervisor,
Eastern Region

Bill submitted 1-13-77 by CW

RECEIVED

NOTICE OF APPLICATIONS FOR PERMITS

Notice is hereby given that Bernard Baker, Leoti, Kansas has on 12-02-76 applied to the Idaho Department of Water Resources for permits to appropriate 112.76 cubic feet per second of water from ground-water sources by means of wells and pumps, to be used from Apr. 1 to Nov. 1 for the irrigation of 8,220 acres. The following applications are all within T. 9N, R. 34E, B.M., Clark County:

Application No. 32-7051, amount: 6.68 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 2, place of use: 640 acres within Sec. 2.

Application No. 32-7052, amount: 6.68 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 3, place of use: 480 acres within E $\frac{1}{2}$, SW $\frac{1}{4}$, Sec. 3.

Application No. 32-7053, amount: 6.68 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 4, place of use: 600 acres within the E $\frac{1}{2}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 4.

Application No. 32-7054, amount: 6.68 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 5, place of use: 480 acres within the S $\frac{1}{2}$ N $\frac{1}{2}$, S $\frac{1}{2}$, Sec. 5.

Application No. 32-7055, amount: 5.20 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, place of use: 260 acres within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 6.

Application No. 32-7056, amount: 6.68 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 9, place of use: 560 acres within W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 9.

Application No. 32-7057, amount: 6.68 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10, place of use: 560 acres within the E $\frac{1}{2}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 10.

Application No. 32-7058, amount: 6.68 cfs, point of diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 11, place of use: 440 acres within the N $\frac{1}{2}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 11.

Application No. 32-7059, amount: 7.68 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 15, place of use: 680 acres within the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 14, Sec. 15.

Application No. 32-7060, amount: 6.68 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 16, place of use: 640 acres within Sec. 16.

Application No. 32-7061, amount: 6.68 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 17, place of use: 480 acres within the N $\frac{1}{2}$, SE $\frac{1}{4}$, Sec. 17.

Application No. 32-7062, amount: 6.68 cfs, point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 22, place of use: 440 acres within the N $\frac{1}{2}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 22.

Application No. 32-7066, amount: 7.20 cfs, point of diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 28, place of use: 360 acres within the W $\frac{1}{2}$ W $\frac{1}{2}$, Sec. 27, NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 34, N $\frac{1}{2}$ N $\frac{1}{2}$, Sec. 33.

Application No. 32-7067, amount: 6.40 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 31, place of use: 320 acres within the S $\frac{1}{2}$, Sec. 31.

2025 RELEASE UNDER E.O. 14176

Application No. 32-7068, amount: 6.68 cfs, point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 32, place of use: 640 acres within Sec. 32.

The following applications are located within T. 9N, R. 33E, B.M., Butte County:

Application No. 32-7063, amount: 3.20 cfs, point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 24, place of use: 160 acres within the SW $\frac{1}{4}$, Sec. 24.

Application No. 32-7064, amount: 3.20 cfs, point of diversion: SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 26, place of use: 160 acres within the SW $\frac{1}{4}$, Sec. 26.

Application No. 32-7065, amount 3.20 cfs, point of diversion: SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 26, place of use: 160 acres within the SE $\frac{1}{4}$, Sec. 26.

Application No. 32-7069, amount: 3.20 cfs, point of diversion: SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35, place of use: 160 acres within the NE $\frac{1}{4}$, Sec. 35.

If issued, these permits will be subject to all prior water rights. Protests against the granting of any or all of the permits must be filed with the Idaho Department of Water Resources, 1515 Lincoln Road, Idaho Falls, Idaho, 83401, on or before January 3, 1977.
