INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.

2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.

3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:		May 18, 1871	amount:	0.8 c.f.s. or	acre feet
		June 1, 1901	amount:	0.4 c.f.s. or	acre feet
Total claimed:		1.2 c.f.s. or	acre feet		

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
6, 7, & 8. Describe any other uses of water.

9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Re: Claim to a Water Right

Dear Mr. Gneiting:

It has recently come to the attention of this office that there is an error on a Claim to a Water Right that you filed with this office on February 27, 1968. For your information we have enclosed a copy of the Claim. Please note that in Item 2 (point of diversion), the township is shown to be 11S. During our review of this water right we noticed that the township should be 11N, which changes several items with respect to the Claim.

Because the county in Twp 11N Rge 33E is Fremont County and the county in Twp 11S Rge 33E is Power County, your Claim to a Water Right was not properly advertised. Instead of being advertised in Fremont County, it was advertised in Power County, and therefore, has to be redone.

In order to properly correct your water right, we have assigned the Claim a number which is appropriate for a Fremont County water right, No. 32-4066, instead of the previous number 29-4002. In addition, we have prepared an amended Claim to a Water Right, which is enclosed. Please review the amended Claim and, if it is correct, sign the Claim before a notary and include this information on the reverse side of the Claim form. Then if you return the amended Claim form to our Eastern Regional Office located at 150 Shoup Ave., Suite 15, Idaho Falls, ID 83401, telephone no. 525-7161, we will readvertise and file the new Claim. Pursuant to statute, no fee is required for filing an amended Claim.
