Idaho Department Of Water Resources

June 6, 2001

As you are aware, our county has declared it's self as a drought emergency county. Brian Egan has come to our office and has asked us about transferring the Holmes decreed water rights, "32-00001, 32-00002, 32-00003, 32-00004, and 32-00005" to his diversion for the purpose of irrigation of his crops. We do not see a problem with this, as long as Holmes no longer diverts water out of his diversion and Egan agrees to a 6%, "six percent" channel seepage loss. We also see no injury to other senior water right holders by the temporary transfer of this water for this year. Therefore we do endorse approval of this temporary transfer.

Below are the decreed water rights in which we believe to be part of this agreement.

Right number	priority	amount	6% loss	total diverted
32-00001	6/20/83	.64cfs	.04cfs	.60cfs
32-00002	10/01/83	.36cfs	.02cfs	.34cfs
