State of Idaho

License and Certificate of Water Right

Water License No. 18398

Amount 0.1 second foot

Water District No.

Priority January 18, 1937

THIS IS TO CERTIFY that HOLLIS I. SHENTON
 of Small, Idaho, made application for a permit to appropriate the
 public waters of the State of Idaho, dated January 18, 1937; that Permit No. 18398
 was issued under said application; that Certificate of Completion of works, with a carrying capacity of
 1 second foot, was issued thereunder on December 17, 1941, showing that said works
 were completed on the 3rd day of December, 1941; and that on the 13th
 day of September, 1943,

HOLLIS I. SHENTON

of Small, State of Idaho, made proof to the satisfaction of the
 State Reclamation Engineer of Idaho, of the right to use the waters of a well
 (subterranean), a tributary of, for the purpose of domestic and livestock
 watering, under Use Permit No. 18398 of the Commissioner of Reclamation
 and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is
 hereby confirmed by the State Reclamation Engineer
 Commissioner of Reclamation of Idaho and entered of record in Volume 7
 of Licenses, at page 4193, on the 11th day of February, 1944;

The right hereby confirmed dates from January 18, 1937;

The Point of Diversion is located N. 1700 ft. distant from SE corner Sec. 9, T. 10 N., R. 34 E., B.M.
 in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 9, Tp. 10 N., R. 34 E., B. M. Clark County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid,
 is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 0.1
 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use
 herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer
 Commissioner of Reclamation, affixed at Boise, Idaho,
 this 11th day of February, 1944

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Application No. 25692
Permit No. 18398
District No.

1. Name of Applicant: **HOLLIS I. SHENTON**
 Postoffice address: **Small** County: **Clark** State: **Idaho**
 I. If applicant is a corporation, give:
 (a) Date and place of incorporation:
 (b) Amount of capital stock:
 (c) Amount paid in:
 (d) Names and addresses of directors:
 II. The financial resources of the applicant are:
 (a) Cash on hand:
 (b) Treasury stock
 (c) Bonds to be issued:
 (d) Other resources:
2. Quantity of water claimed: **One** cubic feet per second.
3. Source of water supply: **Subterranean** which is a tributary of **no known stream**
4. Location of point of diversion: **N. 1700** feet distant from the **SE** corner of Section **9**, T. **10 N.**, R. **34 E.**, B. M., and is in the **NE $\frac{1}{4}$ SE $\frac{1}{4}$** of Section **9**, T. **10 N.**, R. **34 E.**, B. M., County of **Clark**
5. Water is to be used for: **Domestic Use and Livestock Watering**
6. If for mining, milling, power or manufacturing purposes, give:
 (a) Point of use of water: **feet distant from** corner of Section **T.**, R. **, B. M.**, in the **of Section**, T. **, R.**, B. M.
 (b) Amount of power generated: **H. P.**, under **feet head.**
 (c) Water is to be returned to **at a point** feet distant from the **corner of Section**, T. **, R.**, B. M., in the **of Section**, T. **, R.**, B. M.
7. Estimated cost of works: \$ **75.00**
8. Kind of works: **Excavation of well, and ditches**
9. Height of dam **feet**; length of dam at top **feet**; length of dam at bottom **feet**; material used in dam:
10. Size of headgate: Width **feet**; height **feet**.
11. Ditch: Width at bottom **1 $\frac{1}{2}$** feet; width at water line **2** feet; depth of water **2 in.** now **Intend to develop additional** ~~feet~~ dimensions of flume:
 Diameter of pipe **inches**; length of conduit **50 ft.** ~~miles~~
 Average grade per mile **1500** feet.
12. The time required for the completion of such work is **five** years.
13. The time required for the complete application of the water to the proposed use is **six** additional years.
14. The land to be irrigated is described in the following tabulation: See remarks.

15. (a) Is reservoir to be used? **No** If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

HOLLIS I. SHENTON

Applicant.

Idaho

Dear Mr. Harn:

Reference is made to your letter of November 16th in regard to the above numbered license in the name of Hollis I. Shenton.

A reference to our files shows that there was an error made in the license and the point of diversion should have been described as North 1700 feet distant from the SE Corner Section 9, Twp. 10 N., Rge. 34 E., B. M. and in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 9, Twp. 10 N., Rge. 34 E., B.M., Clark County.

If you will return the license we will be glad to make the necessary correction.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Boise, Idaho

RE: Permit No. 18398, Hollis I. Shenton,
Small, Idaho.

Gentlemen:

In examining captioned License and Certificate of Water Right, I note that the point of diversion states as follows:

"N. 1700 ft. distant from NE corner
Sec. 9, T. 10 N., R. 34 E. B. M. in
the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 9, Tp. 10 N. R. 34
E. B. M., Clark County"

It appears to me that this is in error in that the letter "N" should be a letter "S", as N. 1700 ft. would throw the point of diversion into Section 4.

The actual location of the well is approximately 1700 feet south from the northeast corner of Section 9.

Yours very truly,

H. R. Harn

Permit No. 18398

Examination for Beneficial Use

County Clark

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make a plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.

September 21, 1943

Re: Permit No. 18398
Hollis I. Shenton

Mr. H. R. Harn
Dubois, Idaho

Dear Mr. Harn:

We acknowledge receipt of the deposition of the holder, depositions of two witnesses, and affidavit of publication from the Clark County Enterprise-Banner, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in the matter, the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, since this Department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact Mr. Shenton at the time he makes the examination, so that he may show him over the grounds.

Very truly yours,

JAMES SPOFFORD
State Reclamation Engineer

NOTICE FOR PUBLICATION
(Notice of Proof Application of
Water to Beneficial Use.)

Notice is hereby given that at 10:00 a. m., on the 13th day of September, 1943, at Dubois, County of Clark, State of Idaho, before H. R. Harn, United States Commissioner, proof will be submitted of the application to beneficial use of one cubic foot per second of the waters of Subterranean Well, in accordance with the terms and conditions of Permit No. 18398, heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit is Hollis I. Shenton, Small, Idaho.

The use to which said water has been applied is domestic and live stock watering.

The amount applied to beneficial use is one second foot.

The place where said water is used is NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 9, Township 10 North, Range 34, E. B. M., in Clark county, Idaho.

The name of the canal, ditch or other works by which said water is conducted to such place of use is (no name.)

The right to take water from such works is based upon Permit No. 18398.

The source of supply from which such water is diverted is Subterranean Well.

The date of Priority which said water user, is prepared to establish is January 18, 1937.

JAMES SPOFFORD,
State Reclamation Engineer.

Permit No. 18398

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Hollis I. Shenton, occupation livestock and farming,
residence and post office Small, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit 18398, dated January 18, 1937, priority of January 18, 1937

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. subterranean well, point of diversion NE $\frac{1}{4}$ EE $\frac{1}{4}$ Sec. 9, Twp. 10 N.,
Range 34 E.B.M. in Clark County, Idaho

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. 77 feet of 2 inch iron pipe, one wood water trough 9 feet long,
3 feet deep and 3 $\frac{1}{2}$ feet wide, another wood water trough 11 feet long,
2 $\frac{1}{2}$ feet deep and 3 $\frac{1}{2}$ feet wide. Do not know how much water pipe would
convey but it is adequate for the present flow.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used entirely for stock watering purposes and domestic use. No
irrigation of any kind or nature.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Used only for stock watering purposes and domestic use. Domestic use
consists of using water at well location and also hauling it in cans
to home ranch a distance of about 3 $\frac{1}{2}$ miles.

18398

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. The 1 gallon per minute flow is sufficient for most of the time. I intend later on to install additional storage for about 500 gallons.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. My stock water at well about 9 months of each year. I haul water to home ranch for about two months of year for domestic purposes.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other waters than what I have.

(Sign)

Hollis I. Shenton

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Dubois, County of Clark, State of Idaho, on this 13th day of September, A. D. 1943.

My commission expires

United States Commissioner
Eastern District of Idaho.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO.

PERMIT NO. 18398

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Edward Doschades, age 30, residence Small, Idaho, occupation
livestock and farming, P.O. address Small, Idaho

Ques. 2. Are you acquainted with Hollis I. Shenton, the
holder of Permit No. 18398? How long have you known him and where does he reside?

Ans. Yes, I have known him for 20 years or more and he resides
at Small, Idaho

Ques. 3. Have you read or heard read said Permit No. 18398, and are you familiar with
its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water
from point of diversion to place of use.

Ans. Subterranean, NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 9, Twp 10 N Range 34 E.B.M. Has dug out
hole, installed pipe, has water troughs(two), pipe leads to troughs.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place
of use, and how much water have you seen being so conveyed?

Ans. Well flows not over 2 gallons per minute, but pipe would carry
25 gallons per minute.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each
sub-division in which water has been used and number of acres irrigated in each subdivision.) State
whether cultivated or natural meadow land and the nature of all improvements which have been made
as a direct result of said use.

Ans. Used only for stock watering and some taken to home for domestic
use, as he does not have well at home.

18398

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. ~~Not used for power~~

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. ~~Not used for irrigation~~

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I usually see the works about three times each year as some of my cattle drift out that way. This well is only about 3 miles from my residence. Mr. Shenton runs his cattle and horses on the range near the well.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO.

PERMIT NO. 18398

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Stephen Green, age 57, residence and postoffice Small, Idaho.
Occupation livestock and farming.

Ques. 2. Are you acquainted with Hollis I. Shenton, the holder of Permit No. 18398? How long have you known him and where does he reside?

Ans. Have know him about 30 years, he farm is near Small, Idaho

Ques. 3. Have you read or heard read said Permit No. 18398, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Developed an underground supply of water by excavation, installed
pipe for conveying it into two water troughs. Location SE $\frac{1}{4}$ of Sec 9,
Township 10 North, Range 34 E. B.M.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Well flows about a gallon per minute, pipe would handle around
15 to 20 gallons per minute.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for watering livestock, at place where water was
developed.

18398

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No power.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Not enough for irrigation

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have seen Mr. Shenton's stock using the water, usually in the spring and late in the fall.

Re: Permit No. 18398

Mr. H. R. Harn
Dubois, Idaho

Dear Mr. Harn:

We acknowledge receipt of your letter of August 13th, enclosing duplicate notice of beneficial use proof, and authorization to publish same in the Clark County Enterprise-Banner, all in connection with the above numbered permit in the name of Hollis I. Shenton.

We have filled in the amount as shown on the original application and permit- which is one cubic foot per second- which is all that is required for the notice. When our field engineer makes his examination, after the proof has been made- the exact amount to which the applicant is entitled can then be determined.

The notice has been sent to the newspaper with instructions to publish it once a week for four consecutive weeks prior to September 13th, the date set for proof. It should reach the paper in time for publication this week, but if not, it will be necessary to set the date up a few days in order to allow for the necessary publication. We suggest that you get in touch with the newspaper in regard to this.

We are enclosing the necessary forms on which these proofs are to be made, including one for the holder and one for each of two witnesses.

On the date set, Mr. Shenton, and two disinterested witnesses, who are familiar with the terms of the permit and the works constructed thereunder, should appear at your office for the purpose of executing these depositions.

Very truly yours,

JAMES SPOFFORD
State Reclamation Engineer

RE: PERMIT #18398 - Hollis I. Shenton

Gentlemen:

Enclosed are forms #10 and #11 in connection with giving of notice of intention to make beneficial use proof.

It would be appreciated if this proof could be set for Monday, September 13.

You will note the amount of water claim^{ed} has been left blank. The well flow is approximately one gallon per minute and if you will determine the correct figure and insert it I will very greatly appreciate it.

Yours very truly,

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO

County of CLARK

} ss.

HOLLIS I. SHENTON

, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No. 18398, and that his postoffice address is Small State of Idaho

Second: That the name of the stream from which said water is to be directed is subterranean

Third: That the point of diversion of said water is north approximately 1700 feet distant from the southeast corner of Sec. 9, Twp. 10 N., R. 34 E.B.M. and is located in the NE 1/4 of said section.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by January 18th ----, 1942

Fifth: That the use for which said water is intended is Domestic and livestock watering

Sixth: That on the date above mentioned, the works constructed under said permit were (or were not) fully completed and consisted of the following:

I. Kind of works: Excavation, pipe and water tanks

(Reservoir, dam, ditch, flume, pipe or otherwise.)

II. Dimensions of work:

(a) Height of dam feet, length of dam at top feet, length of dam at bottom feet. Material used in construction 77 ft. of 2 in. iron pipe, one wood water trough, 9 ft. long, 3 ft. deep, 3 1/2 ft. wide. Another wood water trough, 11 ft. long, 2 1/2 ft. deep and 3 1/2 ft. wide.
(State whether wood, earth, stone or concrete.)

(b) Capacity of reservoir acre feet.

(c) Size of headgate: Width feet, height feet.

(d) Conduit width at bottom feet, width at water line feet, depth of water feet; diameter of pipe inches, average grade per mile is feet. Length of conduit is miles.
(State whether ditch, flume or pipe.)

Seventh: That said works are capable of conducting to the place of intended use one gallon per second feet of water. minute

Eighth: That water appropriated under said permit is available for none acres of land described as follows:

Ninth: Remarks: That cost of works are: pipe, \$30.80; Excavation, \$100.00; one wood water trough, \$15.00; another wood water trough, \$15.00

Re: 18398
Mr/ Hollis I. Shenton
Small, Idaho

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No. 18398 you are required to complete your diversion works on or before Jan. 18, 1942. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

E. V. HERO.
Commissioner of Reclamation.
