It is hereby certified that BLAINE L LARSEN
PO BOX 188
HAMER ID 83426-0188 has complied with the terms and
conditions of the permit, issued pursuant to Application for Permit dated August 28, 1997; and has
submitted Proof of Beneficial Use on September 25, 1998. An examination indicates that the works
have a diversion capacity of 0.66 cfs of water from:

SOURCE

CONDITIONS OF APPROVAL

1. Industrial use is for a processing plant.
2. Use of water under this right shall be non-consumptive.
3. Rights 31-07370F, 31-07627B and 31-07651 when combined shall not exceed a total diversion rate of 0.66 cfs, and a total annual maximum diversion volume of 121.5 af.
4. Authorization to divert water under this right is fully dependent upon the right holder's re-use of the water for irrigation purposes under Rights 31-07370F and 31-07627B. Water shall not be diverted under this right unless the full quantity of water diverted under this right is subsequently re-used for irrigation purposes in accordance with Rights 31-07370F and 31-07627B.

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF PERMIT)
NO. 31-07651 IN THE NAME)
OF BLAINE LARSEN)
_____)

**PRELIMINARY ORDER
CORRECTING PRIORITY**

This matter having come before the Department of Water Resources ("Department") as a result of review of Permit No. 31-07651 ("permit") for the issuance of a license, the Department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On August 28, 1997, the Department received Application for Permit No. 31-07651 ("application") to appropriate water, along with the required filing fee.
2. On October 2 and 9, 1997, the Department advertised the application for permit in the Jefferson Star with notice of assigned priority date of August 21, 1997.
3. On November 10, 1997, the Department approved the application as Permit 31-07651 ("permit") with a priority date of August 21, 1997.
4. On September 25, 1998, the permit holder submitted a completed Proof of Beneficial Use form and the required license examination fee to the Department.
5. In December, 2002, the Department conducted a field examination of the system developed under the permit.
6. Section 42-219, *Idaho Code*, provides as follows:
 - (4) The date of priority confirmed by the license shall be the date of the application for the permit for the construction of the works from which the water is taken, and to which the right relates, provided there has been no loss of priority under the provisions of this chapter.
7. On January 6, 2003, the Department prepared to issue a water right license for the use developed under the permit and found the priority date of the permit is not the date of the application for permit.

MICROFILMED

FEB 10 2004

CONCLUSIONS OF LAW

1. The permit approved November 10, 1997, incorrectly stated the priority of the permit to be August 21, 1997 instead of August 28, 1997.
2. The Department should issue an order correcting the date of priority for the permit.

ORDER

IT IS THEREFORE HEREBY ORDERED that the date of priority of Permit No. 31-07651 is corrected to be **August 28, 1997**.

Dated this 9th day of January, 2003.

RE: License No. 31-7651 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
FEB 10 2004

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: January 29, 2004
To: Water Right File 31-7651
From: Shelley Keen *SWK*
Re: Proposed Volume

Because of the ESRPA moratorium, the use of water under Right 31-7651 was to be non-consumptive. Decreed rights 31-7370F and 31-7627B authorize the re-use of 121.5 AFY diverted under this right for the irrigation of 43 acres of land. The field examiner was not able to confirm that the right holder does not consume the difference between the amount of water diverted under Right 31-7651 (230 AFY, more or less) and the 121.5 AFY authorized for re-use. The right holder did not provide the information when it was requested. Therefore, I recommend limiting the annual diversion volume under this right to the amount that is actually re-diverted and used under irrigation rights 31-07370F (63.0 AFY) and 31-07627B (58.5 AFY). Any amount over this has not been shown to be non-consumptive. If water will not re-diverted and re-used under Rights 31-7370F and 31-7627B, then it should not be diverted under this right.

RE: Permit 31-7651

Dear Mr. Larsen:

In 1997 the Department of Water Resources (IDWR) issued Permit 31-7651 authorizing you to divert 0.66 cfs from ground water for industrial purposes in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 4, T7N, R36E, B.M. IDWR issued the permit despite the moratorium on new water uses in the eastern Snake River plain because your application indicated that the industrial use would be non-consumptive. Approval condition no. 5 on the permit says, "Use of water under this right shall be non-consumptive."

In 1998 you submitted a proof of beneficial use statement for the permit, and in 2002 an IDWR field examiner inspected the industrial site to verify the beneficial use of water established there. The field examiner reported that you ~~have~~ are pumping about 230 acre-feet per year at the permitted rate of 0.66 cfs. The examiner also reported that except for a small amount of water that ends up in the industrial plant's septic system, the effluent is discharged to a settling pond lined with bentonite to prevent seepage. The effluent retention pond is approximately 0.7 acres in size. Two irrigation water rights, 31-7370F and 31-7627B, authorize the diversion and use of 121.5 acre-feet of the effluent for the irrigation of 43 acres nearby.

IDWR cannot issue a water right license for the use of water established in connection with the permit until it can verify that you have complied with the conditions of the permit. The examiner was unable to verify that your industrial water use is non-consumptive because he could not determine how you dispose of the amount of industrial effluent that is not used for irrigation. To facilitate the licensing process, please send IDWR detailed information describing your method for disposing of the effluent that is not used for irrigation. The documentation should include the quantity of water involved. If IDWR does not receive the information within thirty days, I will recommend that your license be issued for the amount of water that is re-diverted for irrigation under Rights 31-7370F and 31-7627B.

If you find that you are not in compliance with the condition requiring your water use to be non-consumptive, and you cannot reduce or modify your water use to come into compliance, you may be able to mitigate for your consumption of ground water. Any mitigation plan would have to

be consistent with the requirements for transferring water rights within the eastern Snake River plain aquifer, and it would have to be approved by IDWR.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

2. kwalker 1/6/2003 Point of Diversion

Comment: Recommend using 10-acre tract for point of diversion. Same well for
decreed rights which identify the well in NWSESE, S4.

3. kwalker 1/7/2003 Proposed Volume

Comment: Use of water under this permit was to be non-consumptive so I recommend
we license the amount that can be used under irrigation rights 31-07370F (63.0 af) and
31-07627B (58.5 af) which total 121.5 afa. Any amount over this would be
consumptive and not allowed under this permit.

6. kwalker 1/9/2003 Priority Date

Comment: While reviewing this permit for licensing, I found the priority date to be in
error. The application was received and receipted on 8/28/1997 which should have
been the priority. The priority date assigned to this permit was 8/21/1997. An order
was signed today which corrected the priority date to 8/28/1997.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 31-07651

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **EASTERN** Regional Office of the department in Idaho Falls at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH

PROOF DUE NOTICE

RE: PERMIT NO. 31-07651

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 31-07651

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.
