RE: Approved Transfer and Amendment Applications

Dear Jim:

Enclosed are 21 approved transfer applications and 9 amendment of permit applications covering approximately 3200 acres.

All of the points of diversions associated with the water rights listed must have department approved measuring devices installed. I am sending you 1995 Reporting Forms for each diversion listed on the enclosed water rights. The form must be completed during 1995, and returned to the Department on or before January 15, 1996.

Also enclosed are Water Measurement Certification forms for 1995. Please fill in the meter and piping information on the front page.

If the meter was installed after December 8, 1994, you must sign the form at the bottom of the first page, verifying that the meter was installed according to both the Department's and the manufacturer's specifications.

If your meter was installed prior to December 8, 1994, you must calibrate your meter, and complete the back page of the Water Measuring Device Certification form. The Department will accept calibration by a second metering device (such as a sonic meter, or pitot gauge), a volume-time measurement (such as timing how long it takes to fill a fixed volume bucket at representative locations), or a comparison of a chemical or dye concentration before and after it is injected into a delivery system. If you wish to calibrate using any method other than another measuring device, please contact the Department for proper standards.

Once you've completed the Measuring Device Certification Form, you may send it to the Department immediately, or send it with the annual report. You will only be required to calibrate your meter once every four years, unless the meter is replaced or you know it is not reading accurately. Remember that although the meter must only be calibrated every four years, you must keep it in good repair, and read and report diversions every year.

DEC 20 1995

As per agreement annual volumes are restricted to the amounts identified on each approved transfer. You should maintain records that show the five year rolling averages for each diversion and a five year rolling average for all of the water rights identified in the enclosed set of approvals.

If you have any questions let me know.

Sincerely,

A handwritten signature in black ink, appearing to be "Jim Johnson", written over a horizontal line.

Water Rights Permit Section
