CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Commercial use is for a store and 14 trailer hook-ups.
6. Domestic use is for 1 home.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of

Idaho No. 31-7504, and said application is hereby APPROVED

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before

October 1, 19 89.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

I spoke to Mrs. Haight and she informed me the well was drilled by Mr. James Cope in about summer 1986 to a depth of 100'. She had spoke to Mr. Cope who said he would try and find the Driller's Report. I spoke to Dennis Dunn in Eastern Region who indicated that Mr. Cope drinks heavily and is broke and that trying to obtain a Driller's Report dating back 5 years was futile. Mr. Cope was not a licensed driller or operator at the time the well was drilled. It does not appear that enforcement action ~~is~~ is appropriate as it will not likely benefit the Dept.

Dear Mr. and Mrs. Haight:

The department received your completed proof of beneficial use form and fee, however, before completing processing, additional information is needed.

If you have a well driller's report and a drilling permit, please send a copy to the department. If you do not have these, please let me know who drilled the well and when it was drilled.

Please remit the requested information as soon as possible. Upon receipt of the well information, the department will continue processing the proof by notifying the region that a field exam is needed.

If you have any questions concerning this matter, feel free to contact this office.

RE: Permit No. 31-7504

Dear mr. and Mrs. Haight,

We received your return correspondence to our letter dated November 24, 1989 on April 27, 1990. We notified you of our requirements that a Drilling Permit and a Driller's Report be included in your Water Right file before we can continue processing. Your indicated to us that you had contacted the driller who was currently out of business and that he said he would look for the information, but apparently he has not replied to your request for a copy of the Driller's Report.

I have included an Application for Drilling Permit which you need to complete and remit with the appropriate fee of \$ 200.00. Also send us the name, address and phone number of the driller so that we may contact him directly to obtain the Driller's Report. At such time that we secure the above information we will begin processing your Water Right Permit.

If I can be of assistance you can reach me at (208) 327-7956.

Sincerely,

Mark S. Slifka

Dear Mr. and Mrs. Haight:

Re: Permit No. 31-7504

On November 24, 1989, the department requested additional information regarding your well. I am again requesting that information.

Can you tell me who drilled the well and when it was drilled? If you have a copy of the well log, can you provide me with a copy?

The department has been holding action on the proof of beneficial use form until this information is provided. Please supply the information within thirty days.

If you have any questions, please feel free to contact me.

Sincerely,

RITA I. FLECK

RE: Permit No. 31-7504

Dear Mr. and Mrs. Haight:

The department received your completed proof of beneficial use form and fee, however, before completing processing, additional information is needed.

If you have a well driller's report and a drilling permit, please send a copy to the department. If you do not have these, please let me know who drilled the well and when it was drilled.

Please remit the requested information as soon as possible. Upon receipt of the well information, the department will continue processing the proof by notifying the region that a field exam is needed.

If you have any questions concerning this matter, feel free to contact this office.

Sincerely,

Nina Shields

PROOF DUE NOTICE

RE: PERMIT NO. 31-07504

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 31-07504

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also

RE: Application for Permit No. 31-07504

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 31-07504. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Post Register. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Ernest Carlsen
Water Rights Supervisor
