ST. ANTHONY, IDAHO

AFFIDAVIT OF PUBLICATION

STATE OF IDAHO }
County of Fremont } ss

I, Terry Weatherston,
being first duly sworn, depose and say, that I am
the printer of THE CHRONICLE-NEWS, a weekly
newspaper printed and published weekly at St.
Anthony, Fremont County, Idaho; and I do
solemnly swear that the

Notice Of Application For Water Right

a copy of which notice appears attached here-
to, was published in the regular and entire issue
of said newspaper, and not in any

supplement issue thereof for 2
consecutive issues, the first publication hav-

ing been made on April 11, 1985
and the last publication having been made
on April 18, 1985.

Further, that said newspaper is one of general
circulation in said county; that it is a legal
newspaper, conforming to legal specifications
under the Idaho Statutes; that it has at least two
hundred bona fide subscribers living within the
county of publication; and that it has been
continuously and uninterruptedly published in said
county during a period of seventy-eight con-
secutive weeks prior to the first publication of the
said notice.

WATER RIGHT LICENSE

WATER RIGHT NO. 31-07415

Priority: January 16, 1984

Maximum Diversion Rate: 1.38 CFS
Maximum Diversion Volume: 237.0 AF

This is to certify, that QUALITY FARMS INC
2120 W 4200 S
REXBURG ID 83440

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated January 16, 1984; and has submitted Proof of Beneficial Use on August 16, 1990. An examination indicates that the works have a diversion capacity of 3.670 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 11/01	1.38 CFS	237.0 AF

LOCATION OF POINT(S) OF DIVERSION: LOT 3(NWSW), Sec. 30, Township 08N, Range 37E
FREMONT County

PLACE OF USE: IRRIGATION

	37E	30	LOT 2(SWNW) 16	SENW 16	LOT 4(SWSW) 2	40
			NWSE 5	SWSE 1		

Total number of acres irrigated: 79

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.
6. The maximum combined rate of diversion under this right & Right No. 31-7416 shall not exceed 3.67 cfs.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 31-7415, and said application is hereby APPROVED CONDITIONALLY

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use is not required unless permit is reprocessed and approved in compliance with 42-203C, Idaho Code.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: See attachment for conditions d through k.

Witness my hand this 13 day of May, 1985.

HW

Chief, Operations Bureau

J. Alan Saylor

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

WITH RESPECT TO INTERIM APPROVAL OF

APPLICATION FOR PERMIT NO. 31-7415

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 31-7415; and interim approval is granted subject to the following limitations and conditions:

- a. Subject to all prior water rights.
- b. A measuring device or an access port of a design approved by IDWR shall be installed prior to diverting water under the interim approval.
- c. The water user acknowledges that the interim approval does not convey a continuing right to divert water and does not convey any right to divert water except as specifically provided in the interim approval.
- d. The water user assumes all risk that he or she will be successful in obtaining a permit for water which may be reallocated under the Water Appropriation Rules and Regulations. The water user accepts all risk that storage water will be available and obtainable from the rental pool in future years to allow the interim approval procedure to continue, if storage water is required.
- e. Violation of interim approval conditions, provisions of the Idaho Code, or the Water Allocation Rules and Regulations is cause for cancellation of the interim approval and denial of future requests.
- f. By accepting and commencing diversion of water under this interim approval, the water user acknowledges and agrees that the Director of IDWR is authorized to disconnect the power supply from the pump motor used to divert water under the interim approval or to take other reasonable steps to insure that water is not diverted during any period the interim approval is suspended or revoked.
- g. The Director may impose additional conditions not a part of the original interim approval conditions as determined by the Director.
- h. The filing on which the interim approval is given may be reprocessed under the provisions of Section 42-203C, Idaho Code, at the request of the water user or as determined by the Director in compliance with pertinent adopted rules and regulations and statutes.
- i. Investments made by the water user to divert and use water under the interim approval will not be considered by IDWR when reprocessing the filing under the provisions of 42-203C, Idaho Code.
- j. The volume of stored water required to be rented from the Upper Snake River Water Supply Bank shall be equal to the volume of water consumptively used as determined by the Director. For irrigation use, the volume shall be two (2) acre feet per acre.

MICROFILMED

JUL 02 1987

- k. Water shall not be diverted unless storage water is available, rented, and on assignment to the Director of IDWR for purposes of replacing reductions of flow in the Snake River.
- l. The Director of IDWR will retain jurisdiction of this interim approval to enforce the provisions of the interim approval and to revise the volume of stored water, if appropriate.
- m. By accepting and commencing diversion of water under this interim approval, the water user acknowledges and agrees that the Director of IDWR may suspend the interim approval to divert water during any period that the required storage water supply is not available.

Witness my hand this 15th day of May, 1987.

J. Glen Saxton
Chief, Operations Bureau

MICROFILMED

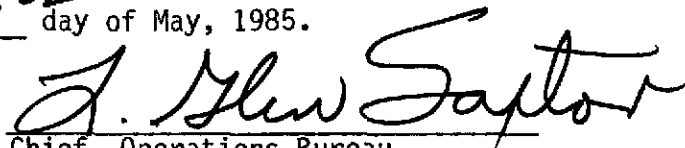

JUL 02 1987

CONDITIONS OF APPROVAL

The following conditions are hereby made a part of the action of the Director of the Idaho Department of Water Resources (IDWR) on Application for Permit No. 31-7415.

- d. Issuance of this permit is on an interim basis until processing can be accomplished under Section 42-203, as amended, Idaho Code, and is contingent upon the permit holder assigning storage water to replace water taken from other water rights as determined by the Director of IDWR.
- e. Each irrigation season before water is diverted under this permit, evidence shall be provided to the Department that storage water has been rented through the Upper Snake River Water Supply Bank and assigned to the Director of IDWR for release to replace water taken from other water rights.
- f. The volume of stored water required to be rented from the Upper Snake River Water Supply Bank shall be equal to the volume of water consumptively used, as determined by the Director. For the 1985 irrigation season and each following year that this permit is to be used or until modified by Order of the Director of IDWR, the volume of stored water required is 190 acre-feet (95 acres x 2.0 acre-feet per acre = 190 acre-feet per year).
- g. Water shall not be diverted at any time that storage water is not available and on assignment to the Director of IDWR for purposes of replacing reductions of flow to other water right holders.
- h. The Director of IDWR retains jurisdiction of this permit to enforce the provisions of this permit, to revise the volume of stored water required, to cancel this permit for failure to comply with the conditions of approval, and to require procedural and substantive compliance with any subsequently adopted rules and regulations concerning exchange or augmentation of water supplies.
- i. By accepting and commencing diversion of water under this permit, the permit holder acknowledges and agrees that: (1) the Director of IDWR may suspend the right to divert water during any period that evidence of the required storage water supply needed for release is not on file with IDWR, and (2) the Director of IDWR is authorized to obtain a court order to disconnect the power supply from the pump motor used to divert water under this permit or by other reasonable means insure that water is not diverted at any and all times, that the right to divert water under this permit is suspended.
- j. This permit will be reprocessed under the provisions of Section 42-203D, Idaho Code, at the request of the permit holder or as determined necessary by the Director for compliance with Section 42-203D, Idaho Code, and Section 7D of the Swan Falls Agreement.
- k. A measuring device or an access port of a design approved by IDWR shall be installed prior to diverting water under this permit to allow the rate of diversion to be determined.

Witness my hand this 13 th day of May, 1985.

RECEIVED

WATER BANK LEASE AGREEMENT FOR 1985

APR 1 1985

EXCHANGE AGREEMENT

Department of Water Resources
Eastern District Office

The Committee of Nine, hereafter lessor, being authorized pursuant to Idaho Code §42-1765 to operate the Upper Snake River Water Supply Bank does agree to lease to Quality Farms, Inc. of Rexburg, hereafter lessee, 500 A.F. of water for the irrigation year starting April 1, 1985. This agreement is subject to the adopted Rules and Regulations of the Water Supply Bank and applicable conditions on the requisite water right permit granted by the Idaho Department of Water Resources.

Upon execution of this agreement and receipt of \$ 1250.00, the Snake River Watermaster will assign to the Director of the Department of Water Resources 500 A.F. of storage to be released at his discretion in exchange for water pumped from groundwater at a well(s) located within:

NW 1/4 SW 1/4, Sec. 30, T. 8N, R. 37E;

Other: NW 1/4 NW 1/4, Sec. 30, NW 1/4 SE 1/4, Sec. 30, T. 8N, R. 37E.

For the irrigation of 250 acres of land within:

SE 1/4, NE 1/4 NW 1/4, S 1/4 NW 1/4, SW 1/4, Sec. 30, T. 8N, R. 37E

SE 1/4 NE 1/4, E 1/2 SE 1/4, Sec. 25, T. 8N, R. 36E

The lessee understands and agrees that this lease in no way obligates the lessor to future leases or in any other manner not specified above.

RE: WATER RIGHT NO. 31-07415

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 15 days.

If you do not concur with these findings or if you have any questions, please contact us within the 15-day period.

Sincerely,

SHARLA CURTIS

OCT 21 1991

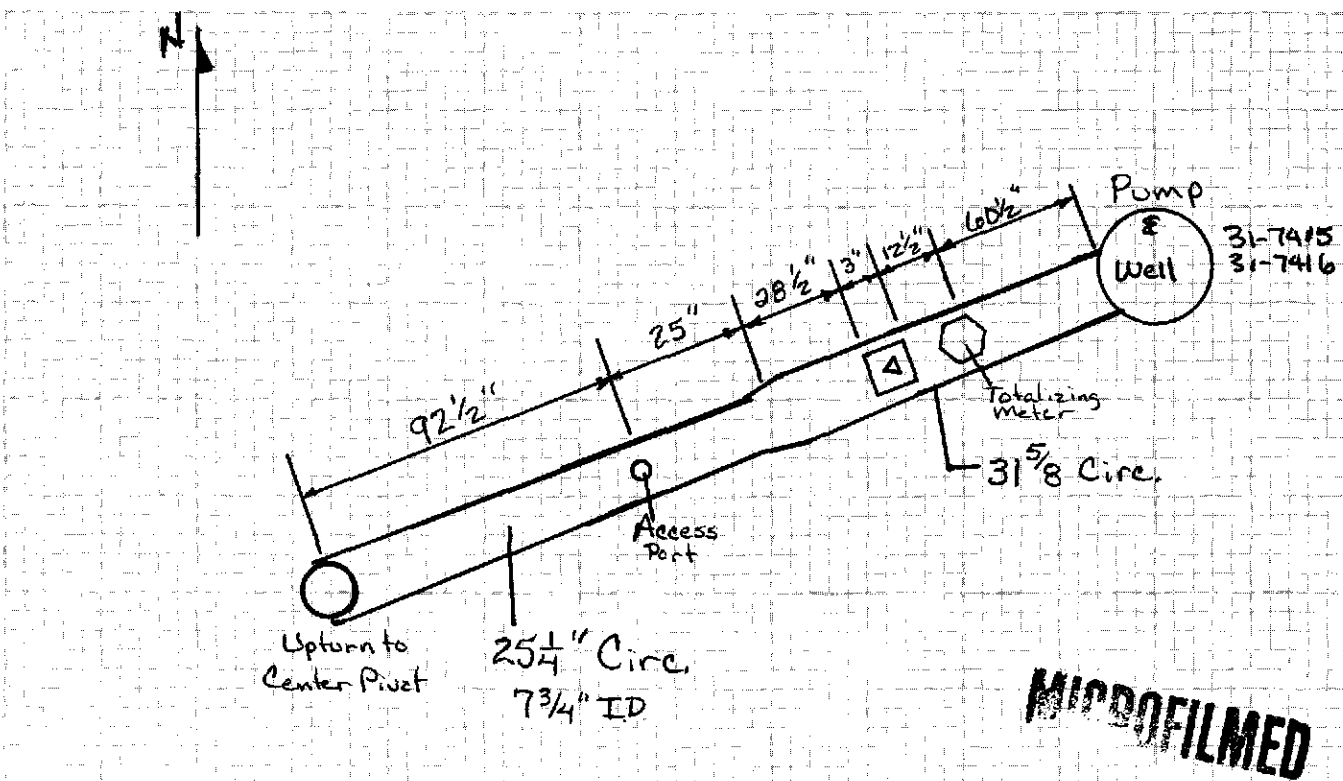

**B. OVERLAP REVIEW**

1. Other water rights with same place of use: NONE  
\_\_\_\_\_ ☐ Copies Attached  
2. Other water rights with same point of diversion: 31-7416  
\_\_\_\_\_ ☐ Copies Attached ☐ Copies of Field Exam's Attached

Department of Water Resources

**C. SYSTEM DESCRIPTION**

1. **Diversion System Diagram:** Indicate all major components and distances between components. Indicate weir size/ditch size/pipe i.d. as applicable. ☐ Alternative diagram attached

**MICROFILMED**  
FEB 07 1992

Scale: 1" = \_\_\_\_\_

2. ☐ Copy of U.S.G.S. Quadrangle Attached Showing location(s) of point(s) of diversion and place(s) of use (required).  
☐ Photo of Diversion and System Attached (required for all but single household domestic groundwater, and stockwater).  
☐ Aerial Photo Attached (required for irrigation of 10 acres or more).

Do not use this space

#### D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

| Measurement Equipment | Type       | Make | Model No. | Serial No. | Size  | Calib. Date |
|-----------------------|------------|------|-----------|------------|-------|-------------|
| Pressure Gauge        | Rain Bird  |      |           |            | 0-160 |             |
| Totalizing Meter      | McCrometer |      |           |            | 10    |             |
|                       |            |      |           |            |       |             |
|                       |            |      |           |            |       |             |

2. Measurements:

0.01 AF / 118.6 seconds (McCrometer) Circ at McCrometer =  $31\frac{5}{8}$   
 105 psi <sub>operating pressure</sub> ID:  $7\frac{3}{4}"$  Circ:  $25\frac{1}{4}"$  (at access port)

#### E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:

$$Q = 3.67 \text{ cfs}$$

2. Alternate Method for Checking Purposes:

$$\text{Theoretical } Q = 3.41 \text{ cfs}$$

#### F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: \_\_\_\_\_ psi x 2.31 = \_\_\_\_\_ ft (1); Dynamic pumping level: \_\_\_\_\_ ft (2)

Total Head: (1) + (2) = \_\_\_\_\_ (3) ; Flow rate: \_\_\_\_\_ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = \_\_\_\_\_ (5)

Meter Input KW: 3.6 x \_\_\_\_\_ KH x \_\_\_\_\_ CTR or \_\_\_\_\_ MULT x \_\_\_\_\_ PTR x \_\_\_\_\_ N/ \_\_\_\_\_ T = \_\_\_\_\_ (6)

Meter Input HP: (6) x 1.34 = \_\_\_\_\_ (7)

Panel Input KW: \_\_\_\_\_ Ave PF x \_\_\_\_\_ Ave Volts x \_\_\_\_\_ Ave Amps x .001732 = \_\_\_\_\_ (6)

Panel Input HP: (6) x 1.34 = \_\_\_\_\_ (7) Efficiency: (5)/(7) x 100 = \_\_\_\_\_ %

#### G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 79 \text{ ac} \times 3.0 = 237 \text{ afa}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (1.38 \text{ cfs})(214)(1.9835) = 585.8$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 237 \text{ afa}$$

2. Volume Calculations for Other Uses:

**MICROFILMED**

FEB 07 1992

**H. REMARKS AND OVERLAP REVIEW ANALYSIS**

**I. RECOMMENDATIONS**

**1. Recommended Amounts**

| Beneficial Use | Period of Use    | Rate of Diversion | Annual Volume |
|----------------|------------------|-------------------|---------------|
| Irrigation     | From 4/1 To 11/1 | 1.38 cfs          | 237           |

**2. Recommended Amendments**

- ☐ Change P.D. as reflected above  
☐ Change P.U. as reflected above  
☐ Add P.D. as reflected above  
☐ Add P.U. as reflected above  
☐ None  
☐ Other

**J. AUTHENTICATION**

STATE OF IDAHO  
DEPARTMENT OF WATER RESOURCES  
**LICENSING REPORT**

31-7415

Permit No.

**Measurement Calculations**

a) Field Measurement Calculations (Include theoretical capacities and system capacity)

Theoretical Capacity       $h_p = 200$      $eff = 70\%$   
                                          $Lift = 119$      $psi = 105$

$$Q = \frac{h_p (8.814) eff}{Lift + (psi \times 2.308)} = \frac{200 (8.814) (0.7)}{119 + (105 \times 2.308)} = 3.41 \text{ cfs}$$

Measured Capacity       $0.01 \text{ of in } 118.6 \text{ sec}$

$$Q = \left( \frac{0.01 \text{ of}}{118.6 \text{ sec}} \right) \left( \frac{43560 \text{ ft}^2}{\text{ac}} \right) = \underline{3.67 \text{ cfs}}$$

$$Q = 3.67 \text{ cfs}$$

Total acres permitted under 31-7415 & 31-7416 = 210 ac

Total acres irrigated under 31-7415 & 31-7416 = 210 ac

$$\text{Rate per acre} = 3.67 \text{ cfs} / 210 \text{ ac} = 0.017 \text{ cfs/ac} < 0.02 \text{ cfs/ac}$$

Therefore:

$$31-7415 \text{ with } 79 \text{ acres would receive } \frac{79}{210} (3.67 \text{ cfs}) = 1.38 \text{ cfs}$$

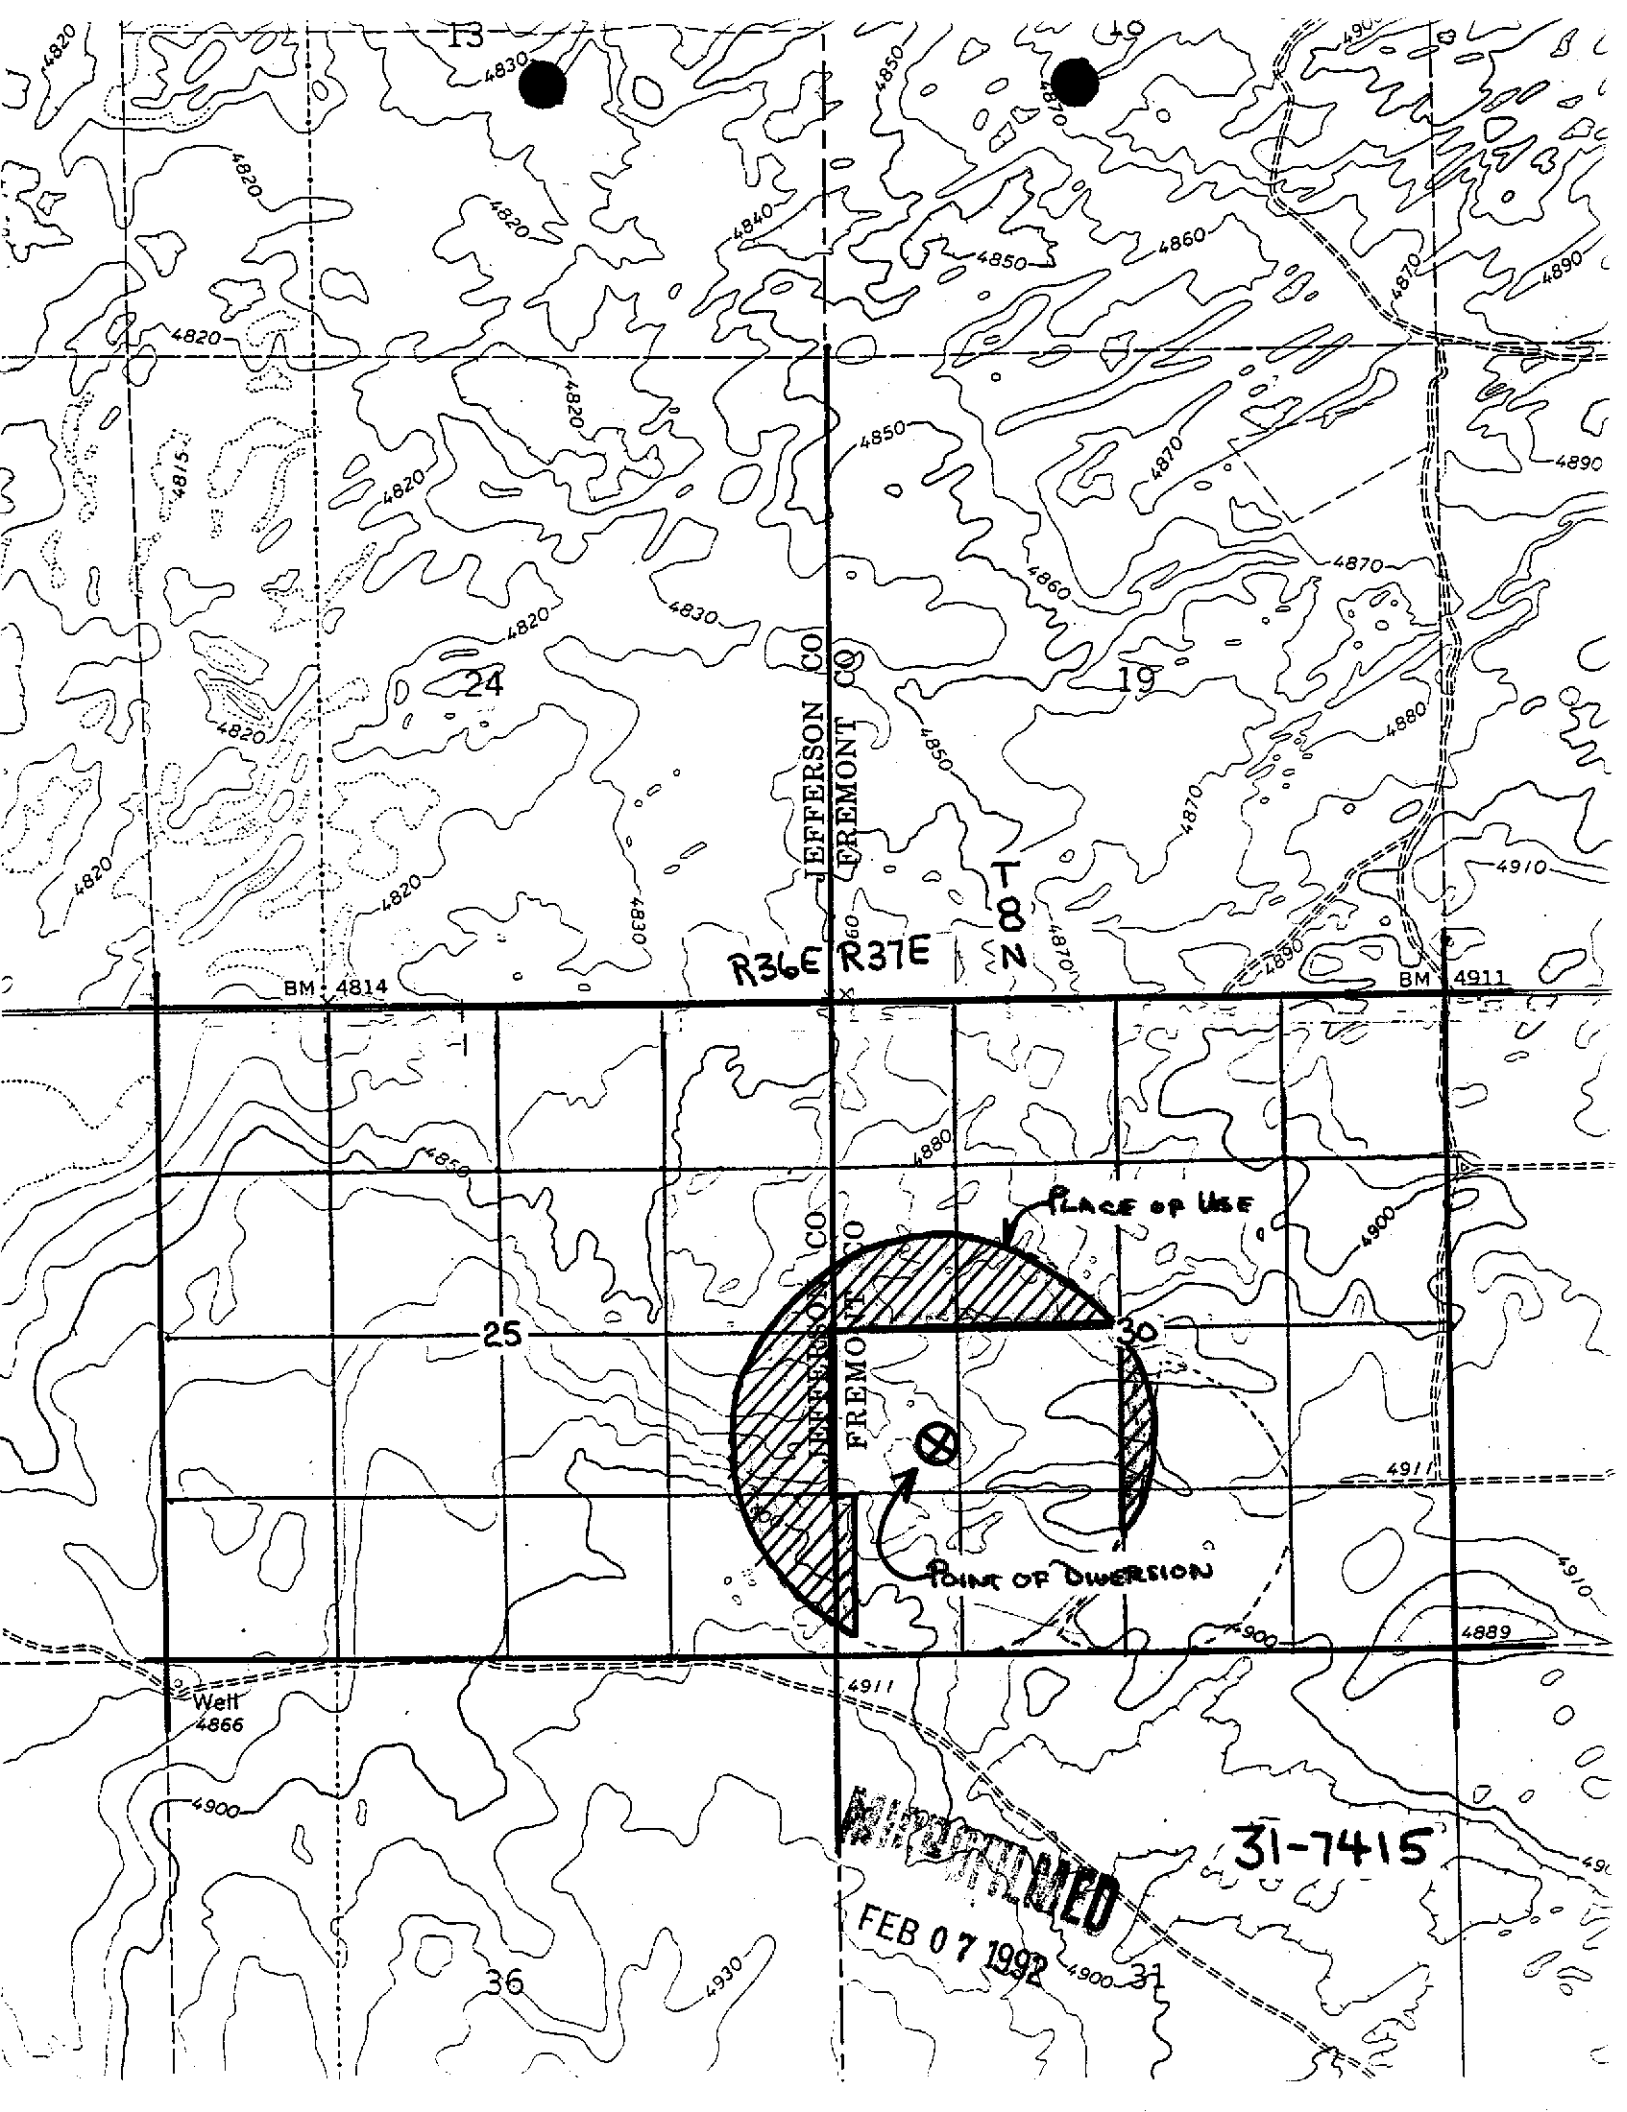

$$Q_{31-7415} = 1.38 \text{ cfs} \checkmark$$

$$31-7416 \text{ with } 131 \text{ acres would receive } \frac{131}{210} (3.67 \text{ cfs}) = 2.29 \text{ cfs}$$

$$Q_{31-7416} = 2.29 \text{ cfs} \checkmark$$

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 31-07415

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Rita Fleck  
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P31-07415

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

**MICROFILMED**

NOV 20 1989

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor  
Water Right Permits Section

RE: Application for Permit Nos. 31-7415 & 31-7416

Golden C. Linford  
Quality Farms Inc.  
Rt. 3, Box 433-B  
Rexburg, ID 83440

Dear Mr. Linford:

Enclosed are amended Applications for Permit Nos. 31-7415 and 31-7416.

After reviewing the original applications along with the evidence you recently submitted, I noted that the place of use legal descriptions on the applications do not actually match the actual place of use shown as field number 27 on the ASCS photos which you submitted. You will also note that the two applications as originally filed combined for a total of 235 acres. The aerial photo which you submitted shows 210 acres and our review of the photo confirms this figure.

I have gone ahead and drafted amended versions of applications 31-7415 and 31-7416 to reflect the actual place of use and acres irrigated. The total number of acres therefore have been reduced from 235 acres to 210 acres. The 210 acres were developed prior to October of 1984. The department can not at this time authorize the approval of the remaining 25 acres because they were not developed prior to October of 1984.

In order to expedite processing, I urge you to endorse the enclosed amended applications. Please review the applications and if the changes are satisfactory, you should sign and return them along with a \$20.00 amending fee for each application as soon as possible. If the changes are for some reason not satisfactory or if you have questions concerning these applications, please contact me.

Sincerely,

TIM LUKE  
Sr. Water Resource Agent

MEMORANDUM

TO: FILE/PERMIT NO.S 31-7415 & 31-7416

FROM: TIM LUKE

RE: SWAN FALLS PROCESSING

DATE: 9-7-89

---

The applicant has provided the department with evidence from the Jefferson County ASCS office (see file) that the lands under the application were irrigated in 1984 (prior to 10/1/84). Review of the department's report of irrigated acreage using 1986 landsat data confirms that these fields were irrigated in 1986.

Based on the evidence submitted and the additional information available here at the department, I recommend that the department exempt these filings from the review requirements of Section 42-203 and remove them from the Swan Falls process list. I further recommend that the department approve the applications to permit as soon as possible.

Note: The two applications together combine to form one large system. The total number of irrigated acres which should be licensed should be limited to the number of acres under the large circle/pivot system identified as field number 27 on copy of aerial photos in file. The ASCS shows this field as 210.4 acres. Both applications should be condition so that when combined, the total number of acres should not exceed 211 acres.

SUBJECT

MR. LINFORD called today & explained that Fields # 27, along w/ 28 & 29 were irrigated in 1984. The 1986 Remote sensing DRAFT confirms irrig. of these fields in that year. Betty Peterson of Jefferson Co. ASCS said 1984 crop report & Aerial slide shows irrig in 1984. MR. Linford will send statement from ASCS & Crop Report ASAP.

DRAFT memo at first time & recommend exemption.

RE: Application for Permit Nos. 31-7415 and 31-7416

Golden C. Linford  
2120 W. 4200 S.  
Rexburg, ID 83440

Dear Mr. Linford:

I have received your letter of August 21, 1989 along with a copy of an ASCS aerial photo and a brief explanatory memo from Ernest Carlsen of our Idaho Falls office.

Upon reviewing your letter and Mr. Carlsen's note, I assume that you are seeking to have the department exempt the above referenced filings from the review requirements of Section 42-203D, Idaho Code (i.e., sequential priority date processing of applications affected by Swan Falls litigation and moratorium). The exemption can be granted if the lands under the applications were irrigated prior to October of 1984. The exemption status would allow the department to expedite the approval of these applications.

As I review the situation, it appears that you were licensed to irrigate 200 acres in the field that is marked number 27 on the map you submitted. This land was then placed in set-aside in 1984. That same year, you filed transfers and moved the 200 acres in field 27 to different locations (to fields 28 and 29). Prior to October of 1984, you were irrigating only 200 acres of ground. These 200 acres were authorized by the two existing licenses, 31-7268 and 31-7303. The 200 plus acres under the applications represent different and additional lands which were undeveloped prior to 1984.

I cannot recommend exemption of these applications from the Swan Falls review requirements. The applications, therefore, cannot be approved at this time. Approval may be given when the department reviews filings with 1984 priorities such as yours. We are currently processing filings with priorities as late as 1981. There is a very good chance that 1984 filings will be reviewed next year.

If you feel my analysis is in error or have questions concerning this matter, please feel free to contact me directly at 327-7864.

Sincerely,

TIM LUKE  
Sr. Water Resource Agent

Department of Water Resources

RE: 31-7415 & 31-7446

I helped Mr. Linford prepare the ~~document~~ attached letter based on the water right records & his recollection of what transpired. The licenses confirm the land was irrigated prior to 1985 so I did not feel it was necessary to submit affidavits and other documentation.

TX

Ernest.

RE: Applications for Permit 31-7415 and 31-7416.

Dear Mr. Luke:

The majority of land listed under applications 31-7415 and 31-7416 were originally covered by licenses 31-7268 and 31-7303. The attached aerial photos, obtained from the ASCS, illustrate the extent of development in 1978.

In 1984, the land under these licenses, identified as field 27, was placed in government set aside. Since this field was idle we decided to transfer the water rights to two smaller pivots, fields 28 and 29, just north of field 27. The transfers, numbered 3009 and 3010, were necessary because fields 28 and 29 had been developed that year and were under crop but the Department had ceased issuing permits due to the Swan Falls controversy. When field 27 was withdrawn from set aside, we filed the two applications in question. Subsequently, the Department granted interim approval to once again irrigate field 27.

Sincerely,

Golden C. Linford, President  
Quality Farms, Inc.

Re: Interim Approvals

Dear Gentlemen:

In January, 1988, the Department sent you a letter regarding interim approvals for Application Nos. 31-7415 and 31-7416. The letter confirmed that you received interim approval for diversion of water during the 1987 irrigation season. It also set forth the requirements to qualify for interim approval during the 1988 irrigation season. One of the requirements for interim approval during 1988 was that you must lease replacement water from the Upper Snake River Supply Bank.

I spoke to Ron Carlson, District 01 Watermaster, on March 18, 1988 and again on April 4, 1988, regarding water availability from the Upper Snake River Supply Bank. Ron informed me that unless there are extraordinary increases in the snow pack, there will be no water to lease as replacement water during the 1988 irrigation season. As a result, interim approvals will not be issued by the Department during the 1988 irrigation season.

Please be advised that you cannot irrigate any portion of your lands not covered by water rights by relying on the remote possibility that storage water will be available for lease during 1988. If you plan to irrigate the lands previously covered by interim approvals on Application Nos. 31-7415 and 31-7416, some other source of water must be found. The Department will happily discuss possible alternatives with you.

Sincerely,

GARY SPACKMAN, Supervisor  
Water Allocation Section

Re: Interim Approval

Gentlemen:

Department records show that you were issued an interim approval for Application Nos. 31-7415 and 31-7416. Interim approvals were a temporary measure to allow users to divert and use water until the Department could process the application under the provisions of the Swan Falls Agreement. Despite the passage of congressional legislation that may resolve the Swan Falls stalemate, it appears that your applications will not be processed prior to the 1988 irrigation season. If you intend to divert water under your interim approval, you must lease replacement water for the coming irrigation season from the Upper Snake River Water Supply Bank.

If replacement water is not leased and assigned to the Director by April 1, 1988, the Department will cancel the interim approval. After cancellation, diversion of water under the application will not be authorized. The application will then be held until it can be reviewed under the permit process.

Regional office personnel of the Department will field inspect the places of use listed on all cancelled interim approvals. Idaho statutes dictate penalties for the unauthorized diversion and use of water, and the Department will seek civil penalties for diversion of water on lands previously covered under an interim approval that has been cancelled.

For information on the availability of storage water from the Upper Snake River Supply Bank, you should contact the water supply bank at 150 Shoup Avenue, Suite 15, Idaho Falls, ID 83401, telephone 525-7161.

Sincerely,

GARY SPACKMAN, Supervisor  
Water Allocation Section

Gentlemen:

Enclosed are your interim approvals for the 1987 irrigation season.

The copies of the applications for permit to appropriate water attached to the interim approvals define the various components of your interim approvals. The inclusion of the copies of the applications is only for the purpose of definition, and any terms contained therein are limited by the conditions of the interim approvals.

Sincerely,

GARY SPACKMAN  
Supervisor, Water Allocation Section

Re: Interim Approval

Gentlemen:

### NOTICE OF PENDING INTERIM APPROVAL CANCELLATION

Department records show that you were previously issued an interim approval for Application Nos. 31-7415 and 31-7416, and that you were notified on January 26, 1987, that your interim approval must be renewed for the 1987 irrigation season. To initiate the renewal process, you were informed that you must rent storage water from the Upper Snake River Water Supply Bank.

The Department has not received the necessary proof of rental of storage water. Unless you submit: (1) notification of intent to divert water in 1987, (2) proof of rental of storage water, and (3) any required readvertising fees, you will not be authorized to divert water in 1987. Please be advised that you must process the interim approval renewal by May 1, 1987, or your interim approval will be cancelled. Diversion of water for irrigation of lands listed in your applications without interim approval is illegal under the laws of the State of Idaho.

For more information on interim approval, you should contact the Department's eastern regional office at 150 Shoup Avenue, Suite 15, Idaho Falls, ID 83401, telephone 525-7161

Sincerely,

GARY SPACKMAN, Supervisor  
Water Allocation

Re: Interim Approval

Gentlemen:

Department records show that you were issued an interim approval for Application Nos. 31-7415 and 31-7416. As you know, interim approvals were a temporary measure to allow users the opportunity to divert and use water until the Department could consider processing the application under the provisions of the Swan Falls Agreement. Since FERC has not approved the Swan Falls Agreement, the agreement is not fully effective, making it necessary for you to lease replacement water for the coming irrigation season from the Upper Snake River Water Supply Bank if you intend to divert water authorized by the interim approval.

If replacement water is not leased and assigned to the Director by April 1, 1987, the Department will cancel the interim approval and diversion of water under the application will not be authorized. The application will then be held until it can be processed under the provisions of the Swan Falls Agreement.

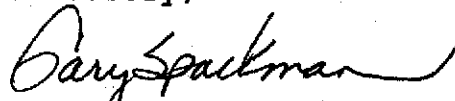

Regional office personnel of the Department will field inspect the place of use for all continuing interim approvals and for all canceled interim approvals, since the Idaho statutes now dictate penalties for the unauthorized diversion and use of water.

RE: Interim Approval for Permit No. 31-7415 & 31-7416.

Quality Farms Inc.  
Rt. 3, Box 433-8  
Rexburg, ID 83440

Gentlemen:

During 1985 you received interim approval for application No. 31-7415 and 31-7416. This approval was for one year and was conditioned upon your leasing replacement storage from the Water Bank. If you are planning on diverting water during 1986, it appears it will be necessary for you to again lease replacement storage. In April, the Idaho Power Company filed suit to prevent implementation of the Department's rules and regulations, which would have allowed the Department to resume the processing of water right applications. This suit virtually guarantees that the rental of replacement water will be necessary again this year.

If you have any questions, please feel free to contact this office.

Very truly yours,

RONALD D. CARLSON  
Watermaster

SEPTEMBER 1, 1985

DEAR PERMIT HOLDER:

ACCORDING TO OUR RECORDS, YOU ARE THE HOLDER OF A WATER PERMIT ON WHICH PROOF OF BENEFICIAL USE OF WATER WAS NOT SUBMITTED BEFORE JULY 1, 1985, WHICH INDICATES YOUR PROJECT IS NOT COMPLETE. THEREFORE, YOU NEED TO BE AWARE OF CHANGES IN IDAHO LAW, EFFECTIVE JULY 1, 1985, WHICH IMPACT ALL WATER PERMITS ISSUED BY THIS DEPARTMENT.

SPECIFICALLY, PURSUANT TO SECTION 42-203D, IDAHO CODE, THE DEPARTMENT MUST REVIEW ALL PERMITS FOR WHICH DEVELOPMENT OF WATER USE WAS NO COMPLETED ON OR BEFORE JULY 1, 1985, TO DETERMINE IF THEY MEET THE NEW REQUIREMENTS OF CHAPTER 2, TITLE 42, IDAHO CODE. RULES AND REGULATIONS GOVERNING THE RE-EVALUATION OF PERMITS ARE NOT YET FINALIZED. HOWEVER, IF YOU COMPLETED THE DEVELOPMENT UNDER YOUR PERMIT BEFORE JULY 1, 1985, YOU SHOULD SUBMIT A PROOF OF BENEFICIAL USE STATEMENT, STATING THAT THE PROJECT WAS COMPLETED BEFORE JULY 1, 1985 SO THAT YOUR PERMIT WILL NOT BE SUBJECT TO THE REVIEW REQUIREMENTS OF SECTION 42-203D, WHICH READS AS FOLLOWS:

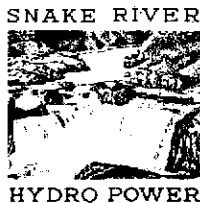

42-203D. REVIEW OF PERMITS - OPPORTUNITY FOR HEARING. - (1)THE DEPARTMENT SHALL REVIEW ALL PERMITS ISSUED PRIOR TO THE EFFECTIVE DATE [JULY 1, 1985] OF THIS SECTION, EXCEPT TO THE EXTENT A PERMIT HAS BEEN PUT TO BENEFICIAL USE PRIOR TO JULY 1, 1985, TO DETERMINE WHETHER THEY COMPLY WITH THE PROVISIONS OF CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PROPOSED USE DOES NOT SATISFY THE CRITERIA OF CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL EITHER CANCEL THE PERMIT OR IMPOSE THE CONDITIONS REQUIRED TO BRING THE PERMIT INTO COMPLIANCE WITH CHAPTER 2, TITLE 42, IDAHO CODE. IF THE DEPARTMENT FINDS THAT THE PERMIT SATISFIES THE CRITERIA ESTABLISHED IN CHAPTER 2, TITLE 42, IDAHO CODE, THEN THE DEPARTMENT SHALL ENTER AN ORDER CONTINUING THE PERMIT. (2)THE DEPARTMENT SHALL PROVIDE AN OPPORTUNITY FOR HEARING IN ACCORDANCE WITH SECTION 42-1701A, IDAHO CODE, AND SECTIONS 67-5209 THROUGH 67-5215, IDAHO CODE, FOR EACH HOLDER OF A PERMIT THAT IS PROPOSED EITHER TO BE CANCELLED OR MADE SUBJECT TO NEW CONDITIONS.

YOU MAY OBTAIN PROOF OF BENEFICIAL USE FORMS FROM THE DEPARTMENT. IF YOU HAVE ANY QUESTIONS, PLEASE LET US KNOW.

SINCERELY,

L. GLEN SAXTON  
CHIEF, OPERATIONS BUREAU

Department of Water Resources

Re: Interim Approvals for Seasonal Exchanges

Dear Ken:

This will acknowledge Idaho Power Company's entitlement to call certain waters provided through storage leases as the basis for the Idaho Department of Water Resources's (IDWR) approval of the development of certain wells. The following is a list of the amounts of water that the Idaho Power Company is presently aware of that it can call from the rental pool pursuant to those interim IDWR approvals:

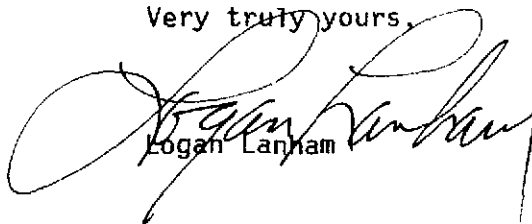

| <u>Name</u>          | <u>IDWR No</u>     | <u>Acre-feet of Water</u> |
|----------------------|--------------------|---------------------------|
| Dennis L Marlow      | 27-7402            | 120                       |
| LaVerelle Stecklein  | 27-7399            | 240                       |
| Dwight Horsch        | 35-8082            | 120                       |
| LDS Church           | 27-7381            | 190                       |
| Samuel J Huffman     | 27-7405            | 190                       |
| Quality Farms, Inc   | <del>31-7415</del> | 190                       |
| Quality Farms, Inc   | 31-7416            | 280                       |
| N D Collaer, Trustee | 27-7361            | 56                        |
| Alan Weaver          | 31-7430            | 264                       |
| Alan Weaver          | 31-7431            | 264                       |
| Alan Weaver          | 31-7432            | 264                       |
| Alan Weaver          | 31-7433            | 264                       |
| Total                |                    | 2,386                     |

It is our understanding that Idaho Power Company is entitled to call this water from the pool in a similar fashion to the leased water which it calls from the pool, and at the same time as that leased water is called. This understanding is the same as set out in Mr Tom Nelson's letter to me of June 27, 1985, which you are shown as receiving a copy of.

MICROFILMED

We would like to be kept informed of these interim approvals for seasonal exchanges as they arise.

Very truly yours,

  
Logan Lanham

Re: Interim Approvals for Seasonal Exchanges

Dear Mr. Nelson:

In response to your letter dated June 27, 1985 to Logan E. Lanham, the Department has issued the following interim approvals:

| <u>Water Right No.</u> | <u>Name</u>               | <u>Rate</u> | <u>Vol.</u> |
|------------------------|---------------------------|-------------|-------------|
| 27-7361                | N. D. Collaer             | 0.56 cfs    | 56 AF       |
| -7381                  | LDS Church                | 0.3         | 30          |
| -7399                  | LaVerelle Stecklein       | 2.4         | 240         |
| -7402                  | Dennis and Mary Jo Marlow | 1.2         | 120         |
| -7405                  | Samual J. Huffman         | 0.12        | 12          |
| 31-7378                | Martin Family Trust       | 4.54        | 454         |
| -7415                  | Quality Farms, Inc.       | 1.9         | 190         |
| -7416                  | Quality Farms, Inc.       | 2.8         | 280         |
| -7430                  | Alan Weaver               | 2.64        | 264         |
| -7431                  | Alan Weaver               | 2.64        | 264         |
| -7432                  | Alan Weaver               | 2.64        | 264         |
| -7433                  | Alan Weaver               | 2.64        | 264         |
| 35-8082                | Dwight W. Horsch          | 1.2         | 120         |
| -8572                  | Dwight W. Horsch          | 0.4         | 40          |

Please note that the volume of water associated with Water Right No. 27-7381 should be 30 AF rather than 190, and the volume for Water Right No. 27-7405 should be 12.0 rather than 190. The volumes calculated were in error and are being corrected by Order.

RECORDED

Thomas G. Nelson  
July 9, 1985  
Page 2

As additional interim approvals are granted, the Department will forward copies to you as in the past.

Sincerely,

A. KENNETH DUNN

Mr. Logan E. Lanham  
Idaho Power Company  
P. O. Box 70  
Boise, Idaho 83707

Re: Interim Approvals for  
Seasonal Exchanges

Dear Logan:

You and I have previously discussed the program going on mostly around Blackfoot whereby IDWR is approving seasonal storage leases as a basis for approving development of wells. With the irrigation season fairly well along, perhaps the last of those has now been seen for this year, although I received one yesterday. In any event, I want to give you a list of the amounts of water that the Company is entitled to call from the rental pool pursuant to those interim approvals:

|                           |             |               |                |
|---------------------------|-------------|---------------|----------------|
| Dennis L. Marlow          | No. 27-7402 | 120 acre feet |                |
| LaVerelle Stecklein       | No. 27-7399 | 240 acre feet |                |
| Dwight Horsch             | No. 35-8082 | 120 acre feet |                |
| LDS Church                | No. 27-7381 | 190 acre feet | ← 30 AF        |
| Samuel J. Huffman         | No. 27-7405 | 190 acre feet | ← Should be 12 |
| Quality Farms, Inc.       | No. 31-7415 | 190 acre feet |                |
| " "                       | No. 31-7416 | 280 acre feet |                |
| N. D. Collaer,<br>Trustee | No. 27-7361 | 56 acre feet  |                |

By the terms of my understanding with Mr. Dunn, the Company is entitled to call this water from the pool in a similar fashion to the leased water which it calls from the pool, and at the same time as that leased water is called. The reason for the last condition is the inability to measure extremely small amounts of water past Milner Dam.

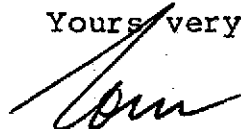

MICROFILMED

Mr. Logan E. Lanham  
June 27, 1985

RE: Permit Nos. 31-7415 & 31-7416

Quality Farms Inc.  
Rt. 3, Box 433-8  
Rexburg, ID 83440

Gentlemen:

Enclosed are the approved interim permits to allow use of groundwater provided that you comply with the conditions of approval listed on the permits.

These permits will be reprocessed under provisions of 42-203C, Idaho Code, to determine if the trust waters made available under 42-203B and the Snake River Water Rights Agreement can be allocated to the proposed use. Reprocessing will occur after rules and regulations have been adopted to guide processing of applications under the criteria of 42-203C and will be in accordance with those adopted rules and regulations.

By issuing the interim approvals, the Department is not committing to issuance of permits for the trust water, and the investments you make pursuant to these interim approvals will not influence the future decision as the permits are reprocessed. You assume all the risk that you will be successful in obtaining permits for the reallocated water and thereby eliminate the need to provide replacement storage water. You are also assuming all risk relative to the availability of storage water from the rental pool in future years to allow use of water under the interim approvals to continue.

Sincerely,

JIM JOHNSON  
Water Distribution Supervisor
