RECORDED

APR 08 1992

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT
NO. 31-7318 IN THE NAME OF
REESE SANDERS

ORDER

This matter having come before the Idaho Department of Water Resources
(Department) the Department finds as follows:

FINDINGS OF FACT

1. On August 28, 1979, the Director of the Department of Water Resources issued Permit No. 31-7318 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before August 1, 1984.

2. On May 31, 1984 the Department sent a proof due notice to the permit holder.

3. On August 24, 1984 the Department sent a lapse notice to the permit holder since neither proof of beneficial use nor a request for extension of time had been received from the permit holder.

4. On September 9, 1987 Proof of Beneficial Use was received by the Department from the permit holder.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

RECEIVED

OCT 11 1988

6. The permit holder submitted affidavits from neighbors confirming use of water and the date the well was drilled, along with an aerial photo of the land covered by the permit giving evidence that water was beneficially used. Signed correspondence from Jefferson County ASCS agent, Raye Chapman, confirmed that the aerial photo showed evidence of irrigation of 46 acres prior to August 1, 1984.

7. The permit holder has stated that several visits were made with members of the Water Resource Board and the permit holder thought everything was in order, therefore, the matter of submitting proof in a timely manner was overlooked.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use. Supporting evidence was submitted which establishes that water was in fact beneficially used on 46 acres prior to the beneficial use proof due date.

2. The permit holder has shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 31-7318 is reinstated for use on 46 acres of land..

IT IS FURTHER ORDERED that the date of priority of this permit is advanced to September 9, 1987.

Dated this 15th day of September, 1988.

RE: Acres to be Licensed

Although this permit was reinstated in September, 1988 for only 46 acres, the license will reflect a total of 76 acres. The reinstatement was based upon ASCS verification of irrigation located only within the place of use description listed in the permit. This can be verified by the correspondence from the ASCS office dated April 13, 1988 - they originally gave a figure of 78.3 acres, but retracted their statement by saying "this was in error according to your description".

Our request for verification of irrigated acreage by ASCS only took into consideration the place of use description of the permit. However, the place of use had changed to include acres in the SENE and NESE of the same section. Therefore, with the receipt of an amendment, the license can be issued for the entire 76 acres.

1. Measured Method:

$$Q_{cfs} = \left[C (id)^2 \sqrt{\Delta \text{ monometer reading}} \right] K / 448.8 = \left[(3.87) (8.25)^2 \sqrt{10.5} \right] (1) / 448.8$$

2. Alternate Method for Checking Purposes:

$$Q_{Theor} = \frac{hp (8.814 \text{ eff.})}{\text{lift} + (psi \times 2.308)} = \frac{(40 \times 8.814) (0.8)}{15 + (39 \times 2.308)} = 2.686 \text{ cfs}$$

Analysis: Overlap

A review of aerial photos, licenses, and claims indicate the following:

31-4002; 31-4026 (Groundwater) no overlap
31-2399 (Groundwater) License incorrectly identifies
NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 15, T7N, R36E as a P/u
examiners report indicates NE $\frac{1}{4}$ Sec 15
T7N, R36E

31-2206; 31-0063 / T1584 list 20 acres in
NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 15, T7N, R36E. From the current
aerial photo those acres under this permit
and these water rights could be within
the same 40 acre tract and NOT overlap.
Since these rights are from a different
P/O recommend condition

Re: Permit to Appropriate Water No. 31-7318

Dear Mr. Sanders:

I have received correspondence from Kaye Chapman, CED, Jefferson County ASCS office, a copy of which is enclosed, stating that the acreage irrigated in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 15, T7N, R36E, B.M. prior to August 1, 1984 was limited to 45.9 acres.

We will issue an order in approximately 30 days reinstating your permit. The order will limit the number of acres that can be licensed to 46 acres, unless you feel that additional facts must be clarified.

In response to your recent telephone call to our office we have checked our slides for 1984.

When defining cropland acres according to your description we find that 45.9 acres was irrigated prior to August, 1984.

In an earlier letter we stated there was 78.3 acres. This was in error according to your description.

If you have questions, please contact us. Thank you.

Re: Permit to Appropriate Water No. 31-7318

Dear Mr. Sanders:

The state office of the Department of Water Resources received documentation supporting your request for reinstatement of Permit No. 31-7318.

Idaho Code § 42-218a states that if reinstatement of a permit is sought after sixty (60) days after notice of lapsing, "the director shall require sufficient evidence to be submitted by the permit holder to clearly establish the extent of beneficial use made during the time authorized by the permit . . ." The statute also requires a showing of reasonable cause for filing a late proof of beneficial use.

You have stated an acceptable cause for filing a late proof of beneficial use. You have also provided documentation that development took place during the permit period. The extent of beneficial use has not been clearly established, however. You submitted an aerial photograph of the vicinity of the place of use. Nevertheless, the outlined property encompasses a much larger area than the area proposed to be irrigated under the permit. Furthermore, the information indicates that circular systems were installed. There is no evidence in the file as to how much of the 80 acres proposed in the original permit was irrigated during the development period.

The original letter sent to you by Jim Johnson seeking more information requested that the aerial photograph be dated by an ASCS agent, and that the agent also write a statement to verify that irrigation had taken place prior to August 1, 1984. The purpose of the inquiry was to establish the number of acres that were irrigated prior to August 1, 1984.

I visited with members of the Water Board several times regarding this particular well. I simply moved the site of old well. about 200 yards north. It was my understanding it would be alright. I paid all the fees necessary at that time.

I can prove the existence of old well and I am certain you gave permission. It was shortly after the abandonment of the Hamer Canal Co.

RE: Lapsed Permit No. 31-7318

Reese Sanders
Box 236
Hamer, ID 83425

Dear Mr. Sanders:

We have received the proof of beneficial use statement along with some documentation for reinstatement of the above referenced lapsed permit. However, before we can proceed any further in this process, additional information is required.

First, Section 42-218a requires reasonable cause for the submittal of late proof. Therefore, we will need to have a statement from you explaining why the proof was not submitted in a timely manner when due on August 1, 1984.

Because the nature of use of the permit is that of irrigation for some 80 acres, you should submit a copy of an aerial photo of the lands involved. The photo can usually be obtained from your local ASCS office and should be dated by one of the agents of the office so that we will be able to determine when the photo was taken. If the agent can also write a statement to verify that irrigation has taken place, and was taking place prior to August 1, 1984, this would also be helpful.

Please submit the above requested information within 30 days so that we can proceed with the reinstatement process for this right.

Sincerely,

JIM JOHNSON

Dear Mr. Sanders,

Re: Permit No. 31-7318

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Please note the special condition requiring you to install an access port or other device to provide for the installation of measuring equipment by the Department. Enclosed are specifications for the installation of the access port, as well as a list of measuring device options.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. 8-1906-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Reils Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.
