Second Notice

Dear Ms. Laird:

On July 27, 1998, correspondence was mailed to you regarding the above mentioned permit. We are still awaiting a response from you so that we may issue your license. In case the correspondence has been misplaced, I will repeat the questions for which I need answers.

The original application for permit listed stock watering of 1,000 cattle and 2,000 sheep from a well. The Snake River Basin Adjudication claim filed on this permit shows only stock watering of 1,000 sheep. What was the number and type of stock using water at the time the proof of beneficial use statement was filed in 1982? What is the current water use occurring? Do you have an idea of the gallons per minute the well produces when it's being diverted for stock watering?

Please respond by mail ~~or~~ by phone (327-5452) by November 20. If I do not hear from you by that date, the license will be issued as claimed for 1,000 sheep and a total rate of diversion of 0.06 cfs. Your prompt attention will be appreciated.

Sincerely,

Dear Ms. Laird:

We are in the process of reviewing the above referenced permit for licensing. I need a little bit of information from you before continuing that review process.
