RE: Water Permit Measuring Device

31-7171

Mr. Grant Saurey
Rt. #2
Rexburg, Idaho 83440

Dear Mr. Saurey:

Personnel from this office have attempted to complete the field examination necessary to finalize the water permit and collect data required for the licensing of your well.

A measuring device of a type approved by this Department has not been installed at the point of diversion, and because of this non-compliance the priority date that you have established for this ground water source may be in jeopardy.

This office will hold the field report until June 30, 1977. If at that time we have not received notification that the measuring device has been purchased and/or installed, we will forward our findings to the State Office for final action. If the measuring device has been installed, please contact me to set up an appointment to do a re-exam.

Compliance with the conditions on your permit is the only way a license can be issued pursuant to the Idaho Code for your water right development and the land included under your permit.

If you have any questions, please feel free to contact me.

Very truly yours,

Anthony R. Kozlowski
