Dear Mr. Neville:

Enclosed please find your check No. 92-80 in the amount of \$65.00 and your original application. It is necessary to return your application for clarification of the following items:

Item 3a, the point of diversion must be listed in a 40-acre subdivision. Please indicate what quarter section of the NE $\frac{1}{4}$ the well and pump will be located in. From the plat of Item 11, it appears the well and pump will be offset from the center of the NE $\frac{1}{4}$. This is the location that should be indicated..(Example: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 24, T. 7N, R. 36E.)

Item 3b, this should be left blank unless the irrigation water will leave the sprinkler system and enter a surface water drainage.

Item 4, the maximum amount of water that can be appropriated under the Idaho Code for 140 acres is 2.80 c.f.s. unless adequate justification can be supplied for the excessive amount by soils experts.

Item 8b, the amount of acres to be irrigated in each 40-acre subdivision should be shown and the total amount reflected.

We have taken the liberty of retyping your application. Please review this application and if it meets with your approval, complete the items as indicated, sign your name exactly as it appears in Item 1, then return to this office with the statutory filing fee of \$45.00.

If you have any questions concerning this matter, please feel free to contact me.

Very truly yours,

BILL RHOADS
Sr. Water Resource Agent
