WATER RIGHT LICENSE

License of Water Right No. 31-7127 Priority July 25, 1974 Amount 6.24 cfs

THIS IS TO CERTIFY, that Beaver Creek Ranch
of Salt Lake City, Utah, has complied with the terms and conditions of Permit
No. 31-7127 issued pursuant to Application for Permit dated July 25, 1974,
and has submitted proof to the Department of Water Resources on August 11, 1976,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 6.90 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>April 1</u> to <u>November 1</u>	at <u>6.24</u> cfs and	<u>960.0</u> acre feet
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 6.24 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
960.0 acre feet per year, said waters to be diverted within the NW¹/₄SE¹/₄, Section 21, Twp.

A telephone message was left on my phone today by Todd Hansen, Regional Manager of Lend Lease Agri Business in answer to my letter of April 11, 2001 requesting a Security Interest filing fee of \$2,675.00 for 107 miscellaneous Blaine Larsen water rights.

Mr. Hansen stated that Lend Lease Agri Business has decided **NOT** to pay the fee. They understand that there will be no database update, but that copies of their December 8, 2000 correspondence will be placed in each file.

Jeff Peppersack has requested that a copy of this memo be placed in each file along with the Lend Lease correspondence.

RE: Security Interest for 107 miscellaneous Blaine Larsen water rights

Dear Mr. Hansen:

The Department of Water Resources acknowledges receipt of your Notice of Security Interest. Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

☒ Filing Fee of \$25 per water right (107 water rights involved)

☒ Expiration date of Security Interest

Effective July 1, 2000, the legislature enacted House Bill No. 545 requiring a filing fee for a change in water right ownership or filing notice of Security Interest in a water right. The fee is \$25 per water right. We have determined that the filing fee for your notice will be \$2,675.00.

Because the Department cannot process the change without proper fees, we will hold any action on your notice pending receipt of the necessary fees. If we do not receive the necessary fees and other information within 30 days we will place your notice in the appropriate water right files without further processing.

Please note that water right owners are required to report any change in water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage (<http://www.idwr.state.id.us>) on the Internet to obtain the proper forms and instructions.

Please feel free to contact the Department if you have any questions.

Dear Brian:

Re: License No. 31-7202 and 31-7127 (Beaver Creek Ranch)

I have received and reviewed your letter of January 27, 1984 relative to the above-referenced files.

A review of the respective files shows the following:

31-7202

- Permit issued for 10.72 cfs for irrigation of 536 acres in parts of Sec. 9 and 16, Twp. 9N, Rge. 36E including SW1/4, Sec. 16.
- Exam conducted on August 23, 1981 finding 415 acres irrigated in Sec. 9 and 16. Examiner accompanied by Will Anderson.
- Notice letter sent to permit holder on July 5, 1983 describing examiner's findings and requesting response if permit holder did not agree with findings.
- License issued on July 25, 1983 for diversion of 6.18 cfs for irrigation of 415 acres in parts of Sec. 9 and 16.

31-7127

- Permit issued for 6.24 cfs for irrigation of 320 acres in Sec. 21, Twp. 9N, Rge. 36E.
- Exam conducted on July 19, 1979 finding 347 acres irrigated in Sec. 21, T9N, Rge. 36E. Examiner accompanied by an employee of Beaver Creek Ranch.

MICROFILMED

February 8, 1984

- Notice letter sent to permit holder on July 23, 1982.
- License issued on August 31, 1982 for the diversion of 6.24 cfs for irrigation of 320 acres in Sec. 21, Twp. 9N, Rge. 36E.

Your question essentially was whether the department would issue an amended license to include more land than shown on the first license issued. While not common, the department has in a few instances issued amended licenses where the land owner could show the department had made an error in examination or license issuance. This might be difficult to show in this particular case, since the owner or the owner's agent attended both examinations and did not object to the department's findings. The matter of an amendment to a point of diversion could also present some unique problems since a license has been issued.

I hope this letter will provide enough information for the problem you are experiencing. If I can provide more information, please contact me.

Department of Water Resources

Dear Norm,

Thank you for the chance to visit and the information received January 23rd regarding the Idaho Power Court Case.

I have attached some information regarding the Beaver Creek problem. The important item that needs to be stressed is the Federal Land Bank of Spokane is presently negotiating with the principals of the Beaver Creek Ranch regarding a possible settlement to some loan servicing actions. Therefore, the Bank would appreciate the Water Resources Department's best estimate on recovering a lost water right, without immediate corrective action. A final action regarding this should transpire "hopefully" in the next two months. The bottom line is that we would like to know the chances of recovering the water right without the principals of Beaver Creek's involvement in order to insure that we know the final outcome before the negotiations are settled.

Cliff Beesley from our Idaho Falls office has visited with Keith Wilson with the Idaho Falls Water Resource office, and also with Jim Johnson at Boise. They felt the water right could be recovered if the Beaver Creek management would initiate the action, but as a bank we may end up doing that ourselves.

The water right problem does not greatly affect the land covered by our existing mortgage, but does affect the land that may be acquired from the Beaver Creek Ranch which is purchased on contract from the State of Idaho. As shown on the attached map, the land colored in yellow in Section 16-9N-36E is not presently covered by a valid water right. There was a permit for this land (Permit #31-7202), but the point of diversion (well) located near Pivot #28 was not included in the permit. Thus, when the State Department of Water Resources did the field exam, the point of diversion for this land was not on the permit, and thus turned back the 121 acres of water right. There is 195 acres out of the 226 acres in Pivot #29 irrigated without a water right. The remaining 41 acres irrigated is from License #31-7127.

This matter is very sensitive, and I would appreciate it if you would keep that in mind.

Again, Norm, thanks to you and all the staff at the Water Resources Department for all the help that you have given to me and the Federal Land Bank. We will be looking forward to hearing from you regarding this.

Gentlemen:

A representative of this Department made an examination of the works covered by your Permit No. 31-7127 and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 6.24 cfs Source: groundwater

The maximum quantity diverted shall not exceed 960.0 acre feet
per year.

Point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 21, Twp. 9N, Rge. 36E, Clark County

Beneficial use: Irrigation of 320 acres within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, SE $\frac{1}{4}$, 1/2SE $\frac{1}{4}$,
Sec. 21, Twp. 9N, Rge. 36E

Priority date established: July 25, 1974

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

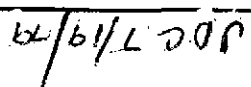

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.

Gentlemen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permits.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this exam will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field exam, please contact our Regional Office in Idaho Falls.

Also enclosed is a copy of the approved application for amendments for these two permits.

Gentlemen:

We have received well drillers reports indicating that a well was drilled for you in the SW1/4SW1/4, and in the NW1/4SE1/4, Sec. 21, T. 9N, R. 36E, B.M., Clark County.

A review of our records indicates that you have not filed an application for a permit to appropriate the public water of the State of Idaho. Since March 25, 1963, an application has been required prior to construction of a well and a valid permit must be obtained before ground water may be diverted. The only exception to this requirement is a well drilled for stock-watering or single family household use and water used for all other purposes, including irrigation of one-half acre of land in connection with the household use where the total use does not exceed 13,000 gallons of water per day.

If you have already filed an application, which we over-looked in the review of our records, please advise us of the number of the application or the name under which the application was filed. However, if you have not yet filed the required application, you should do so as soon as possible. You may obtain the forms upon request from this office.

If you have any questions, please contact this office.
