Re: Permit No. B1-7110

Heber Barzee
Terreton,
Idaho 83450

Dear Mr. Barzee:

Your March 13, 1975, letter concerning the development of your well to replace your shares of Holly Water Users Association water has been received.

The earliest possible priority for the water diverted from the well under your Permit No. 31-7110 is February 13, 1974, since this is the date the application was filed. The 30 shares of Holly water may continue to be used on your land, but the priority of those shares can not be transferred to your well.

An extension of time may be granted if you have proceeded diligently with your project. The proof of beneficial use is not due until April 1, 1976. You will be notified 60 days before that date that proof is due, which should allow you sufficient time to request an extension of time if it is needed.

If you have any further questions, please let us know.

Sincerely,

BOBBY D. FLEENOR

Dear Mr. Higginson,

I have been informed if I replace water of an earlier filing by well water, that the prior filing may extend to the water being filed on.

I will be replacing 30 shares of Holly Water by well water (permit # 317110) this spring if all goes well with the power company.

Could you send me the necessary information on this matter?

Also, is it possible to get an extension on the application if problems arise with power company and a hookup can not be made this spring?

Thank you.

Sincerely,

Heber Barzee
