WATER RIGHT LICENSE

License of Water Right No. 31-7109 Priority August 14, 1968 Amount 6.26 cfs

THIS IS TO CERTIFY, that William Roundy
of Montevideo, ID, has complied with the terms and conditions of Permit
No. 31-7109 issued pursuant to Application for Permit dated August 14, 1968,
and has submitted proof to the Department of Water Resources on September 9, 1970,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 6.55 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>April 1</u> to <u>October 31</u> at <u>6.26</u> cfs and	<u>939.0</u> acre feet	
	from _____ to _____ at _____ cfs and		
	from _____ to _____ at _____ cfs and		

(both dates inclusive)

Subject, however, to the condition that no more than 6.26 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
939.0 acre feet per year, said waters to be diverted within the NWSW Section 32, Twp 8N,
Rge 33E in the County of Jefferson

Description and location of place of use:

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Dear Mr. Reundy:

We have received your personal check in the amount of \$50.00 and your application for permit. Before we can process your application, we will need some additional information.

Item 6a of the application requests a description of the proposed diverting works. Inasmuch as you are appropriating ground water, we would assume that this would be a well, pump, meter, pipe, and possibly sprinklers ^{and} surface irrigation. Please supply the description of the diverting works you are going to be using so that we may proceed with your application. *correct*

Also, under Item 8c of the application, you are requested to identify any other water rights for the same property. Please advise us in this matter.

Thank you for your assistance.

Very truly yours,

SYSTEM DESCRIPTION

Water is diverted from a 22" diam well by a General Electric "Tri-clad" induction motor m/n - 5K6280XH75A, s/n - FIT620117, 250 H.P. 3 phase, and by a Layne & Bowler "Katiline" pump Gpm - 2700, 245 ft. 1770 RPM. m/n - 16KHXL s/n - D23386. There is also a booster system powered by a 200 H.P. 3 ph. U.S. Motors "Hollowshaft" pump motor s/n - J1420919 with a Johnston Vertical pump s/n - PE114063. m/n - 1403. Acreage is irrigated by 10-1/4" me wheel lines and 4-1/4" me handline sprinklers.

REMARKS: Approximately 7 acres are not irrigable due to interference by a County gravel road and a large storage quonset hut. System shown and described by Lynn Wood

Dear Mr. Roundy:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field exam, please contact our Eastern District Office at 1515 Lincoln Road, Idaho Falls, Idaho.

Sincerely,

Dear Mr. Roundy:

One of the conditions of approval of your water Permit No. 34-7012 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Rowndy:

We are in receipt of the evidence that you have submitted as proof of your measuring device. However, we note in reviewing the original application, that your method of application of the water to a beneficial use is both by sprinkler and gravity irrigation systems. The rectangular weir that you state you have installed, would suffice as a measuring device for your gravity system. However, you will need to install an enclosed measuring device in the pipe for your sprinkler irrigation system, if, in fact, you are using a sprinkler irrigation system.

If we may be of any further assistance in this matter, please advise.

Very truly yours,

Dorian Clay

DC:cm

Dear Mr. Clay;

The water that I sprinkle with
passes through one of the two weirs
(as per diagram) into a holding pond
& from there to the pressure pump. Do I
still need a device in the pressure line
with this kind of arrangement? Please
advise.

Respectfully

William H. Roruby

Dear Mr. Roundy:

We are in receipt of your affidavit submitted as proof of beneficial use for permit 34-7012. However, in reviewing that affidavit, it appears that you have failed to install the measuring device as required by the conditions of approval of your permit and by Section 42-701 of the Idaho Code.

We cannot accept your proof and issue a license unless you have installed a measuring device of a type approved by the Department. We will hold your affidavit until you can supply us with information as to the type of measuring device installed. You should be aware that failure to install the device and supply information as to the type of device installed may result in the loss of your permit.

We are enclosing a list of the types of devices approved by the Department of Water Administration. If you have any questions regarding this matter, please contact us at once.

Dear Donald;

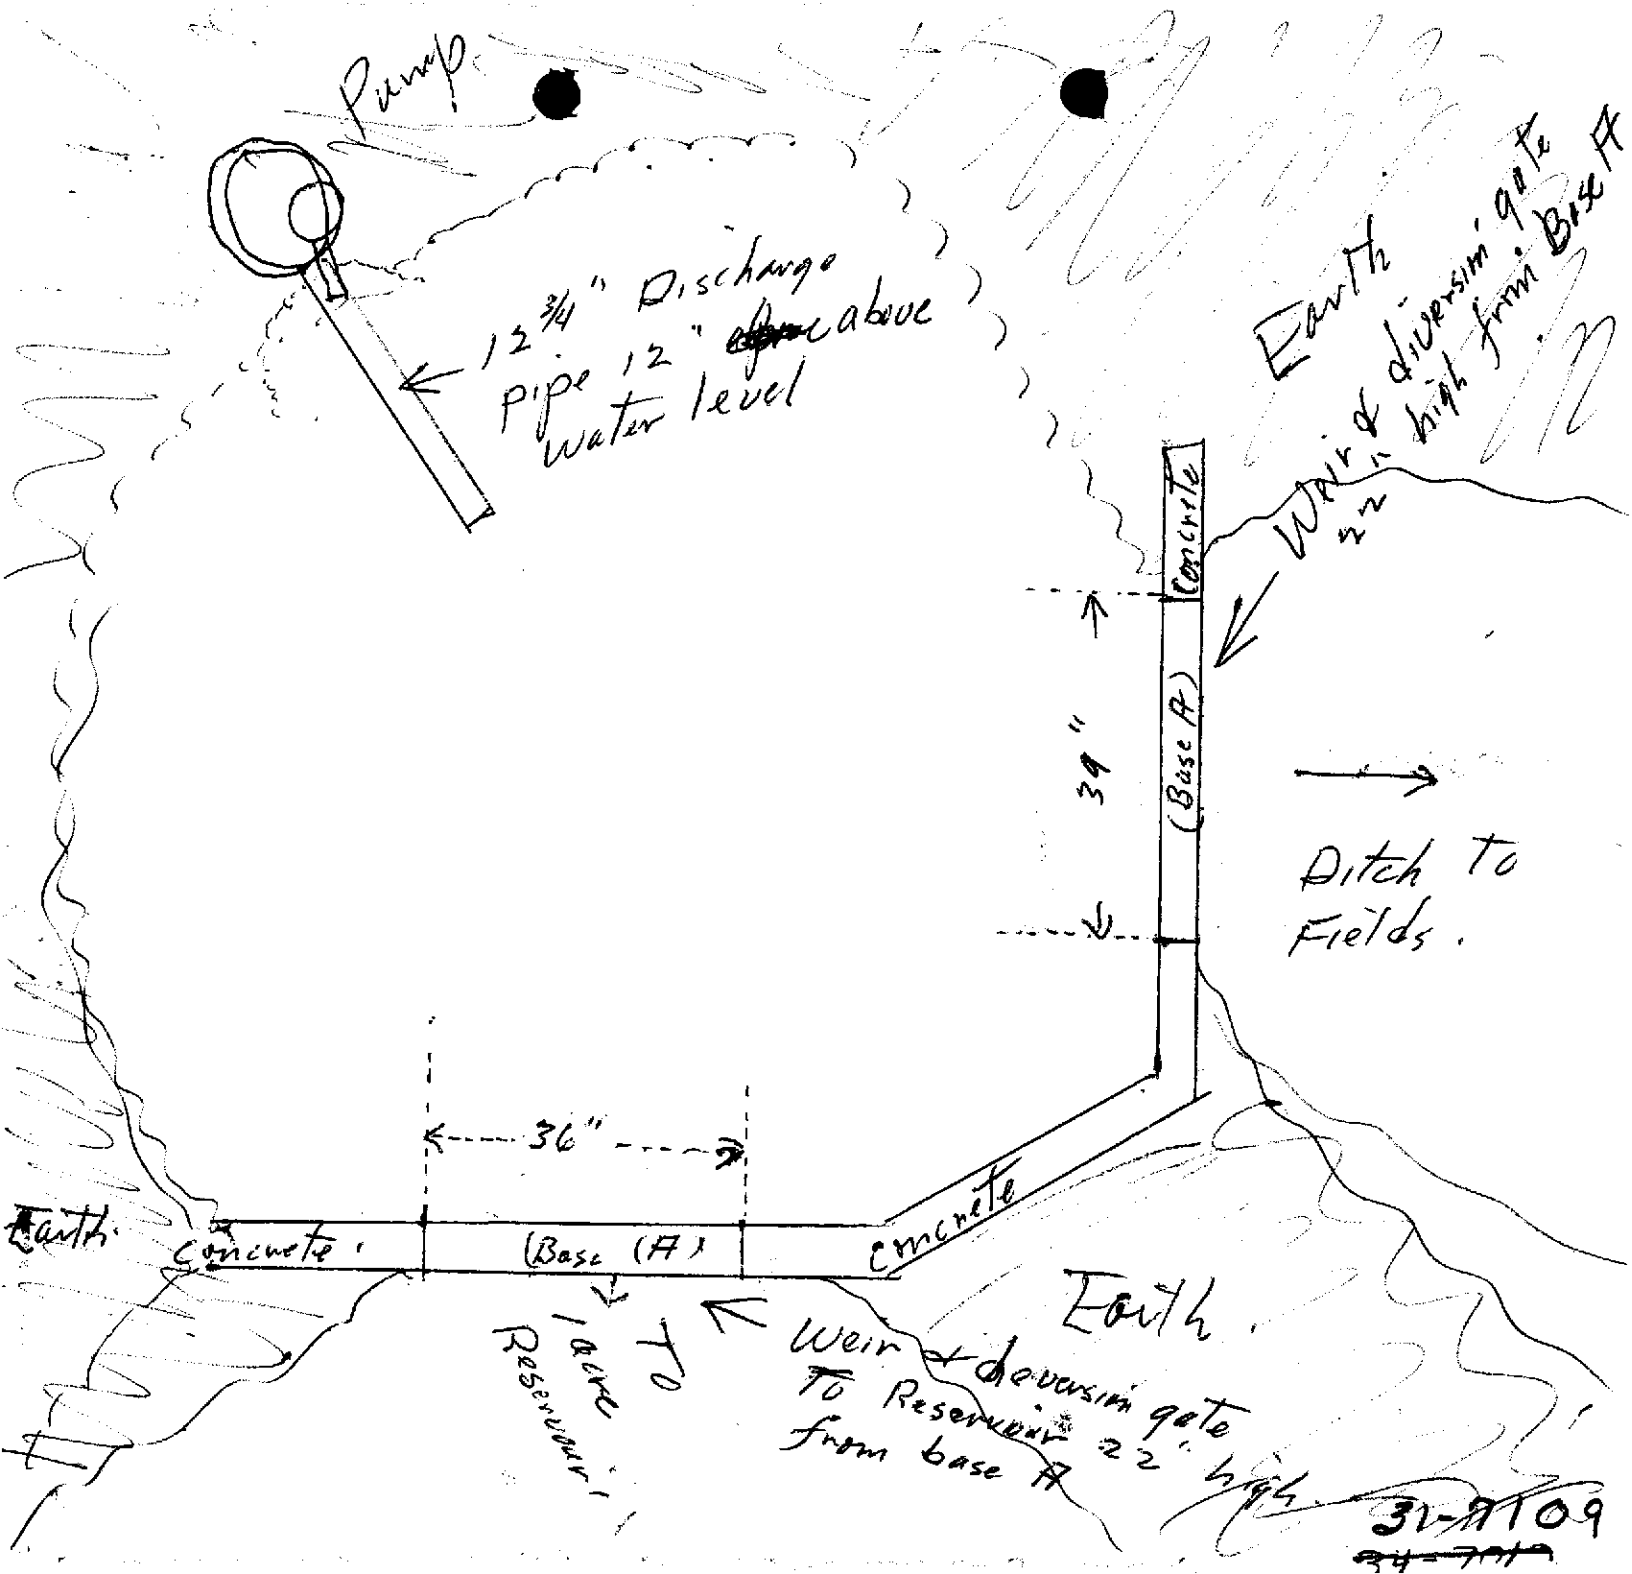

Sorry I slipped up on this. I suppose I should have hired a lawyer to help, but I'm too poor.

I hope this is sufficient - if not please let me know. The water level leaving the weir is below the base of the weir so there is no back pressure. Will this confirm or do I have to purchase something more costly? Please advise.

Sincerely,

Bill Roundy

Dear Wateruser:

The Department of Water Administration approves the use of any standard device for which information is readily available. The type selected will depend upon the particular conditions at your diversion point. Any of the following standard types may be used:

Weirs

- ~~a. Rectangular~~
- ~~b. Cipolletti~~
- c. V-Notch

Orifices

Flumes

- a. Parshall flume
- b. Trapezoidal flume

Commercial Types

- a. Displacement or propeller meter
- b. Cox flow meter or Collins flow meter
- c. Venturi meter
- d. Deflection meter
- e. Meter gates

Regardless of the type used the device must be properly installed to insure standard conditions. Other types may be approved upon written application to the Department stating the description of the device and how you intend to use it. If the device that you install is not a standard type, you should obtain an extra copy of the rating table for this office.

Dear Mrs. Jones:

It seems that a bit of confusion exists regarding the publication of application for permit 34-7012 in the name of William Roundy. After reviewing the file, I find that there were two errors in the notice published. One which was made in the notice which was sent to you, and one which was evidently made in the printing process. Our people did not catch the error in the name until you pointed it out in your letter. Until that time, we had only noticed the error in the legal descriptions. It seems that we were both talking about separate errors.

We are enclosing a correction notice which we would appreciate having published at our expense for two weekly issues. We have suggested dates for publication, allowing time for you to send a galley proof to us before publication.

After sending us the galley proof, please proceed with the publication on the dates we have suggested, assuming that the notice is correct. If we have any corrections, we will notify you prior to the first publication. If you are unable to publish on the dates we have suggested, please contact us as soon as possible.

Please submit an affidavit of publication and a certified bill to us for the correction notice.

We appreciate your cooperation in this matter and if you have any questions, please contact us.

Very truly yours,

Dear Mr. Roudy:

We are returning your personal check in the amount of \$45.00 and your application to appropriate the public waters of the State of Idaho as we have not received a reply to our June 18, 1968 correspondence. We are not able to hold your application in its present form.

Please contact us if we may be of assistance in the future.

Very truly yours,

Dear Mr. Reundy:

We have received your personal check in the amount of \$50.00 and your application for permit. Before we can process your application, we will need some additional information.

Item 6a of the application requests a description of the proposed diverting works. Inasmuch as you are appropriating ground water, we would assume that this would be a well, pump, meter, pipe, and possibly sprinklers or surface irrigation. Please supply the description of the diverting works you are going to be using so that we may proceed with your application.

Also, under Item 8c of the application, you are requested to identify any other water rights for the same property. Please advise us in this matter.

Thank you for your assistance.

Very truly yours,
