We acknowledge receipt of the proof of beneficial use card
submitted for the above referenced permit.

Before a license can be issued, a field examination must be
made by a representative of this department. We cannot tell
just when this examination will be made, but our examiner
will try to contact you at the time he makes the examination
so that you may show him the system.

If you have any questions regarding the field examination,
please contact our eastern regional office.

Very truly yours,

Dear Mr. Place:

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, Permit No. 31-7098 has lapsed since you have not notified us that you have completed the project by the date required on your permit. You were provided forms for that purpose in our notice to you dated November 30, 1978.

Your permit cannot be reinstated unless you submit the proof of beneficial use affidavit, enclosed, or show other reasonable cause why the permit should be reinstated within 60 days from the date of this lapse notice.

Dear Mr. Place:

One of the conditions of approval of your water Permit No. 31-7098 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition should be less restrictive and provide more flexibility to you in the development of your water right system. The specifications related to the size and location of the access port will be available upon request from the Department, as soon as the Department's measuring equipment is obtained.

If you have questions regarding this matter, please contact this office or our regional offices.

Sincerely,

L. Glen Saxton

Dear Mr. Place:

Enclosed are copies of your approved Application for Permit Nos. 31-7098 and 31-7099. We direct your attention to the conditions of approval as listed on the fourth page of each permit.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon each permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Sincerely,

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."
