RE: Security Interest for 107 miscellaneous Blaine Larsen water rights

Dear Mr. Hansen:

The Department of Water Resources acknowledges receipt of your Notice of Security Interest. Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

☒ Filing Fee of \$25 per water right (107 water rights involved)

☒ Expiration date of Security Interest

Effective July 1, 2000, the legislature enacted House Bill No. 545 requiring a filing fee for a change in water right ownership or filing notice of Security Interest in a water right. The fee is \$25 per water right. We have determined that the filing fee for your notice will be \$2,675.00.

Because the Department cannot process the change without proper fees, we will hold any action on your notice pending receipt of the necessary fees. If we do not receive the necessary fees and other information within 30 days we will place your notice in the appropriate water right files without further processing.

Please note that water right owners are required to report any change in water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage (<http://www.idwr.state.id.us>) on the Internet to obtain the proper forms and instructions.

Please feel free to contact the Department if you have any questions.

Sincerely,

Kari Lynn Townsend

RE: Application for Permit No. 31-7058 and 31-7056

Blaine L. Larsen
Box 32
Terreton, ID 83450

Dear Mr. Larsen:

Personnel from this office have attempted to complete the field examinations necessary to finalize the water permits and collect data required for the licensing of your wells.

Measuring devices of a type approved by this Department have not been installed at the points of diversion, and because of this non-compliance the priority date that you have established for these ground-water sources may be in jeopardy.

This office will hold the field reports until September 1, 1977. If at that time we have not received notification that the measuring devices have been purchased and/or installed, we will forward our findings to the State Office for final action. If the measuring devices have been installed please contact me to set up an appointment to do a re-exam.

Compliance with the conditions on your permits is the only way a license can be issued pursuant to the Idaho Code for your water right developments and the land included under the above referenced permits.

If you have any questions concerning this matter, please contact me.

Very truly yours,

Anthony R. Kozlowski

Dear Mr. Larsen:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Idaho Falls.

Blaine & Connie Larsen
Box 32

Dear Mr. & Mrs. Larsen:

One of the conditions of approval of your water Permit No. 31-7056, 31-7057 ³¹⁻⁷⁰⁵⁸ (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re Application Nos. 31-7056, 31-7057, 31-7058 & Amendment No. 31-7022(A)

Mr. Blaine L. Larsen
P.O. Box 32
Tarryton, ID 83450

Dear Blaine:

Upon reviewing the applications and the amendment that you filed with us yesterday, I find that I should have asked you for copies of the agreements between you and the B.L.M., showing that you have legal access to the land covered by the permits and amendment. Since Mr. Milliken discussed this with us, I am confident that there are no problems, and we will continue processing your applications. The Boise office, however, will not be able to approve either the amendment or the applications until they receive copies of your approved Desert Entries and the approved amendment to Desert Entry No. I-529 showing that you have legal access to the NW 1/4 of Section 3.

I would appreciate your quick response in supplying this office with the copies, which we will forward to Boise.

If you have any questions, please do not hesitate to contact this office.

Very truly yours,
