Dear Mrs. Anderson:

On April 1, 1969, the Idaho Falls District Manager issued an "Initial Decision" approving your desert land petition I-2605.

According to your plan of development, water for irrigation is to be obtained from an existing well. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Engineer. Attached is an extra copy of this letter. The copy should be submitted to the State Department of Reclamation at the time you apply for a permit. Unless they have knowledge that the land of the desert land application has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office.

We would appreciate receiving a copy of the permit as soon as possible.

Sincerely yours,

Curtis R. Taylor

Dear Mrs. Fleenor:

Pursuant to your letter of May 26, 1972, please find application for final proof on the above entitled permits.

I am sorry for the delay. I hope that my delay will not prejudice the Anderson's in making final proof. The delay was occasioned through misunderstanding at this office.

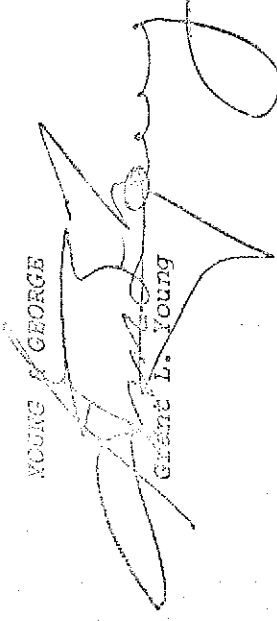

We received notice that permit #G33575 had lapsed. Will this letter by sufficient showing to reinstate the permit? If not, I would appreciate your advising me.

I am also enclosing an application for a new permit to cover adjacent land irrigated by the parties. It is the intention to make final proof as soon as the permit is granted.

I will appreciate hearing from you.
