Gentlemen:

One of the conditions of approval of your water Permit No. 31-7011 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

We are in receipt of the application to appropriate the public waters of the State of Idaho in behalf of the City of Dubois. The application has been received and we are continuing the processing of the application. However, prior to final action on the application by the department we will need some justification as to the quantity of water requested in the application. This justification could be in the form of a resume of the system as being installed in reference to capacities and etc. The justification should also contain information concerning the cities existing rights, their present and future requirements of a municipal water supply.

Your assistance in obtaining this information is appreciated.

Very truly yours,

Ronald W. McEldowney
