**NOTICE OF APPLICATION
FOR WATER**
Notice is hereby given that K. Paul Gunderson, R.F.D., Hamer, Idaho, has on March 4, 1968 applied for permit to divert 4.0 cubic feet per second of water from a subterranean source under application No. 31-7008. Water will be diverted by well and electric pump within the NE 1/4 SE 1/4, sec. 27, Twp. 7 N, R. 35 E, B.M., Jefferson County, and is to be used from March 1 to December 31 for irrigation and from January 1 to February 28 for livestock water in the SE 1/4, sec. 27, T. 7 N, R. 35 E, B.M.
Any protest against this application must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.
R. KEITH HIGGINSON

and use 160 acres in pasture.

Dear Mr. Gunderson:

Recently, personnel from this office visited the well under your Permit No. 31-7008. This examination was to finalize the water permit and collect data required for the licensing of the well.

The examination indicated that the system was being operated as you stated in your proof of beneficial use except for the fact that a measuring device approved by this Department has not been installed at the point of diversion. Because of this non-compliance where the measuring device is concerned, the priority date that you have established for this ground-water source may be in jeopardy.

This office will hold the field report until August 10, 1975. At that time we will be obliged to submit our findings to the State Office. Hopefully, before that time you will contact this office and indicate that the measuring device has been purchased and/or installed. We would then be willing to do a re-exam to submit to the State Office.

Compliance with the conditions of your permit is the only way a license can be issued pursuant to the Idaho Code for your water right development and the land included under the above referenced permit.

If you have any questions concerning this matter, please do not hesitate to contact me.

Very truly yours,

BILL RHOADS
Sr. Water Resource Agent

Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 31-7008 Priority March 10, 1968 Amount 1.08 cfs

THIS IS TO CERTIFY, that K. PAUL GUNDERSON
of Hamer, Idaho, has complied with the terms and conditions of Permit
No. 31-7008 issued pursuant to Application for Permit dated March 10, 1968,
and has submitted proof to the Department of Water Resources on June 7, 1973,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 1.08 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>November 1</u> at <u>1.08</u> cfs and <u>458.4</u> acre feet		
	from _____ at _____ cfs and _____		
	from _____ at _____ cfs and _____		

(both dates inclusive)

Subject, however, to the condition that no more than 1.08 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
458.4 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 27, Twp. 7N,
Rge. 35E, B.M. in the County of Jefferson

Description and location of place of use:

Twp.	Range	Sec.	NEW				NW¼				SW¼				SE¼				Totals	
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼		
7N	35E	27															40	39	39	158

Total number of acres irrigated 158

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 27 day of
February, 19 81.

Director

MICROFILMED

BEFORE THE DEPARTMENT OF WATER ADMINISTRATION

OF THE

STATE OF IDAHO

IN THE MATTER OF Permit No. 31-7008)
in the name of K. PAUL GUNDERSON)
_____)

ORDER OF REINSTATEMENT

WHEREAS, on March 4, 1968, K. Paul Gunderson filed with the Department of Water Administration (formerly the Department of Reclamation) an application for permit to appropriate 3.2 cfs of water from a ground water source within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, of Sec. 27 Twp. 7N, Rge. 35E, B.M., Jefferson County, to be used for irrigation and livestock purposes; and,

WHEREAS, on June 13, 1968, the Department approved said application and issued Permit No. 31-7008 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before June 1, 1973; and,

WHEREAS, on March 30, 1973, the Department notified the permit holder by certified mail that proof of beneficial use was due and instructed the permit holder as to the steps to be taken to make said proof; and,

WHEREAS, on June 5, 1973, the Department notified the permit holder that Permit No. 31-7008 had lapsed for failure to submit proof of beneficial use of water; and,

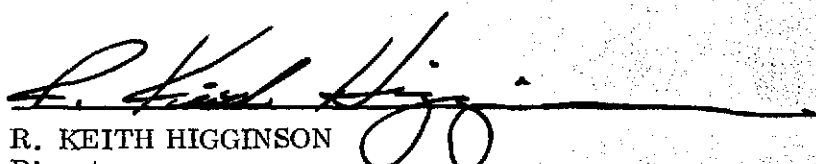

WHEREAS, on June 7, 1973, the Department received the required proof of beneficial use of water; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing as to why said permit should be reinstated;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 31-7008 be REINSTATED and the priority advanced to March 10, 1968.

Dated this 12 day of June, 1973.

Dear Mr. Gunderson,

RE: License No. 31-7008

Enclosed is a copy of the Water Right License issued on the above referenced Permit.

Please be advised that one of the conditions of your permit was that a measuring device be installed as part of your diversion works. That requirement has been waived with issuance of the enclosed license. However, in the event that water supply shortages become a problem installation of measuring devices may be required.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

Dear Mr. Gunderson,

A representative of this Department has made an examination of the works covered by your Permit No. 31-7008, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 1.08 cfs Source: groundwater

The maximum quantity diverted shall not exceed 458.4 acre feet per year.

Point(s) of diversion: NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 27, Twp. 7N, Rge. 35E, B.M.

Beneficial use: Irrigation of 158 acres within the SE $\frac{1}{4}$, Sec. 27, Twp. 7N,
Rge. 35E.

Priority date established: March 10, 1968

Conditions (if any):

Your permit was approved for the irrigation season of March 1 to Dec. 31, however, our office recognized April 1 to Nov. 1 as the irrigation season in your area.

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

RE: Permit No. 31-7008

Mr. K. Paul Gunderson
RFD
Hamer, Idaho 83425

Dear Mr. Gunderson:

Recently, personnel from this office visited the well under your Permit No. 31-7008. This examination was to finalize the water permit and collect data required for the licensing of the well.

The examination indicated that the system was being operated as you stated in your proof of beneficial use except for the fact that a measuring device approved by this Department has not been installed at the point of diversion. Because of this non-compliance where the measuring device is concerned, the priority date that you have established for this ground-water source may be in jeopardy.

This office will hold the field report until August 10, 1975. At that time we will be obliged to submit our findings to the State Office. Hopefully, before that time you will contact this office and indicate that the measuring device has been purchased and/or installed. We would then be willing to do a re-exam to submit to the State Office.

Compliance with the conditions of your permit is the only way a license can be issued pursuant to the Idaho Code for your water right development and the land included under the above referenced permit.

If you have any questions concerning this matter, please do not hesitate to contact me.

Very truly yours,

BILL RHOADS
Sr. Water Resource Agent

Re: Permit No. 31-7008

K. Paul Gunderson
R.F.D.
Hamer, Idaho 83425

Dear Mr. Gunderson:

One of the conditions of approval of your water Permit No. 31-7008 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

R. KEITH HIGGINSON
Director

Re: Application No. 31-7008
Letter May 9, 1968

Mr. Donald W. McEldowney
Department of Reclamation
Statehouse - Annex 2
Boise, Idaho 83707

Dear Mr. McEldowney:

At this time it is not known the amount of water required to water the 160 acres that is being put under irrigation. The texture of the soil varies from a plain sand to a sandy loam. Most of the acreage is a loamy sand texture.

The other irrigated fields in the area use in excess of the one inch per acre guide line. The only way that this ground can watered satisfactorily within the set guide line is by improved irrigation practices.

A 50 horsepower pump will be installed currently. More horsepower is planned to be added in two years. A 16 inch hole has been drilled and cased. The water level is six feet down with a twelve foot lift expected. The location of the well is the NE¹ of the SE¹ of sec. 27, twp. 7N., R. 35, E.B.M. not where originally requested on the application.

Your concern and consideration is appreciated.

Sincerely yours,

K. Paul Gunderson

Re: Application No. 31-7008

K. Paul Gunderson
R. F. D.
Hamer, Idaho 83425

Dear Mr. Gunderson:

The Department of Reclamation requires some additional information before taking final action on your application for permit. The quantity of water you have requested to appropriate under Item 5a of the application is excessive as outlined under the Idaho Statutes. The maximum rate of diversion that the Department of Reclamation normally considers to irrigate 160 acres would be 3.2 cubic feet per second or 1/50 of a cubic foot per second per irrigated acre.

If you require additional water due to soil conditions or methods of operation, would you please advise the department by return mail as to the capacity of your system and the method you use to irrigate, or if in the case of additional water required because of your soils, please supply a soils report or the equivalent to verify your need for the additional water.

Your prompt attention to this matter is appreciated.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid. (Do not sign letter)

Signature of claimant

Very truly yours,

Donald W. McEldowney
Water Rights Clerk

Dear Mr. Gunderson:

We are in receipt of your application for permit to appropriate the public waters of the State of Idaho. However, before we can continue processing your application we will require some additional information.

Under Item 6 a of the application, you are required to supply a description of the diverting works from which and with which you intend to divert and convey the 4.0 cubic feet per second of the waters of an underground source.

Please submit the information promptly so that we may continue processing your application.

Very truly yours,

Donald W. McElowney
Appropriation Examiner
