RECORDED

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
Section 42-225a, Idaho Code

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that Orville R. Vadnais
(name of claimant)
of Kilgore Rt., Dubois, ID 83423, claims a right to the diversion and beneficial use of
(mailing address)
the public water of the State of Idaho

The extent and nature of said claim is as follows:

(1) Describe source of water: (name of stream, lake, spring, etc., or ground water) multiple
unnamed springs, tributary to, Spring Creek

(2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Amount <u>0.10</u>	Use <u>stockwater</u>	Period of Use: From <u>Jan. 1</u> To <u>Dec. 31</u>
Amount _____	Use _____	Period of Use: From _____ To _____
Amount _____	Use _____	Period of Use: From _____ To _____

AFFIDAVIT

Ted Vadnais, being first duly sworn,
deposes and says: In answer to affidavit filed by Orville Vadnais,
October 17, 1977. Our concern is Orville has stated he has or intends
to divert water from the main spring into man-made ditches and in order to do
so the natural flow will have to be dammed off and routed in different
directions. This spring you probably know, runs through Section 17 and on into
my property, Section 20 for a quarter mile, then into Spring Creek.
I have sheep and cattle that water in this spring through the summer and I
have used it just as long as Orville. I was wondering if he can divert at the
head of the spring what will stop him from diverting downstream and catch it
all while he is at it. All I am asking is to leave the stream as it has been
for the last 1,000 years so Orville's cattle can drink, my cattle can drink
and the neighbor's below can drink.

I, Orville R. Vadnais being first duly sworn,
deposes and says: I am filing this affidavit in order to clarify the
record concerning the exception filed by Ted Vadnais. It is true that
Vadnais Brothers have used this water for stockwater for many years as
indicated in the exception, and I contend I am one of the Vadnais Brothers
referred to in the exception as having used this water. There is an existing
man-made ditch on my property which diverts water from the main spring area
to the east for stockwatering purposes. The water then flows back to the
west and ultimately onto the property owned by Ted Vadnais. We have never
dammed the channel to divert all of the water but rather have constructed
ditches to transport it to areas where it could be used by our livestock.

Dear Mr. Vadnais:

The Department of Water Resources has completed the processing of your claim to a water right and no further action is authorized under Sections 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your claim. If you have any questions or if we can be of further assistance, please feel free to call upon us.

RE: Field Exam on Claim No. 31-4021
DATE: November 1, 1977

Don Shenton, Watermaster of Water District 31, called Friday, October 28, 1977, and wanted me to meet him at Kilgore at 2:00 p.m. to accompany him and Ted Vadnais on an inspection of the unnamed springs as described in Orville Vadnais' claim to a water right No. 31-4021.

The springs that Ted is concerned about are located within the E $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 17, T. 12N, R. 39E, which arise on Orville Vadnais' property and flow southwesterly across the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 17 and enters Ted Vadnais' property within the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 20, and flows westerly into Spring Creek within the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 20, all in T. 12N, R. 39E. There is a ditch at the spring located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 17, shown as #1 that runs to the east toward a pond within the SE corner of the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 17. The water is diverted by placing a canvas dam in the channel. In good water years there would be plenty of water because the pond flows back to the spring channel.

At the time of inspection Spring #2 was dry and Spring #1 was flowing approximately 20 inches, more or less.

Ted's concern is that there should be no dams or ditches constructed in the channel below Spring #1, that would prevent water from flowing through his property into Spring Creek as it has always flown in the past.

Dear Sir:

In answer to affidavit filed by
Orville Nadraio Oct 17, 1977.

Our concern is Orville has

and routed in different direction.

This spring you probably know

All I am asking is to leave the

I will be away for a few days but would
be glad to come and talk to you next week sometime.
I am
Sincerely, Del Nadraio

I think one of the sources
of misunderstanding is the fact
that when one diverts water
from a stream into ditches is
it for irrigation or for stock water
If it is for irrigation it
could come under the jurisdiction
of the water master and also
jeopardize rights below.

I see no reason why
Ovick has to take water out
of the main channel for stock
water when he has water all
around him within reach
of $\frac{1}{4}$ to $\frac{1}{2}$ mile at any point
I also see no reason why
a man has to have a right or
permit to water stock when the
stream runs through his
