Mr. Richard W. Adams,
P. O. Box 2001,
Idaho Falls, Idaho.

Dear Mr. Adams:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-28258. The proofs are to be made at 4:00 o'clock P.M., on the 20th day of January, 1965, before Aften LaMont, 1020 North Yellowstone, Idaho Falls, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Rigby Star, Rigby, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before ^{the} Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN

P.S. You will note that we have changed the date for making proof from January 9th to January 20th, as January 9th does not allow sufficient time for four publications of this notice. If this date is not satisfactory to you or the Notary, please notify us immediately of a convenient date. Since no amendment was necessary to change the point of diversion, your check for \$100 is returned herewith.

Re: Permit No. G- 28258

Richard N. Adams
Box 2001
Idaho Falls, Idaho

Dear Mr. Adams:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28258 are due not later than Feb. 23, 1965

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

CARL E. TAPPAN

Dear Sir:

Allowed 2-23-60

On August 24, 1961 the Bureau of Land Management, State of Idaho approved a Assignment of Desert Entry from LeGrande Wadsworth # 011055 to myself Richard N. Adams. He assured me that the underground water had been filed on and that it was alright to go ahead and drill a well. Which I have done. I was unable to prove up on this land: N $\frac{1}{2}$, sec. 20 T. 8N, R. 33 E. B.M. Idaho, by the required time of February 23, 1964 and I was granted a one year extension. I am wondering now if I should have also got an extension on the water filing.

Would you please check this out for me and tell me what the present condition is of this filing is as far as the water is concerned. I sure would appreciate it very much. I plan on making my final proof on the land in the next couple of months. I thank you for your help.

Sincerely,

Richard N. Adams

Richard N. Adams

Dear Mr. Adams:

We acknowledge receipt of your letter of inquiry dated April 28, 1964.

The first thing to be done is to have an assignment recorded in this office. Enclosed is a form for this purpose. Please fill it in and have Mr. Wadsworth and his wife (if married) sign it and send it in to this department, for recording.

Proof of completion of works and beneficial use are due on subject permit November 20, 1964, however, since the desert land entry was not allowed until February 23, 1960, we can grant an extension for 5 years from that date. The extension of time is enclosed which moves the due date for making proofs to February 23, 1965.

To prove beneficial use means you will have to actually apply the water to the land described in the permit. If this cannot be done by the due date you can make proof of completion of works. This will keep the permit from being cancelled. You can also make proof of beneficial use on a portion of the land that has been irrigated, then make supplemental proof of beneficial use at a later date. If beneficial use proof is late, however, your priority date will be moved up the same length of time the proofs are late.

If you have already used the water beneficially you may make your proofs at any time from now to February 23, 1965.

28258

without loss of priority date.

Please advise us if any further information or instructions are needed.
