Re: Permit No. G-24318

Mr. Horres Johnston
Montevieu, Idaho

Dear Mr. Johnston:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24318, to be made at 1:00 P.M. on the 26th of August, 1958, before Garnet Lewis, Notary Public, at Montevieu, Idaho.

As of this date we have mailed the Notice to the Rigby Star, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the place, on the date and at the time and before the Notary as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies are signed, the Notary's seal has been placed on each, and that all depositions (Holder and two Witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

You will note that we have advanced the proof date to August 26, 1958, to allow four weeks publication, however, this does not deprive you of any priority time. The priority date of July 20, 1953 is still unchanged.

Dear Sir:

In reply to your letter of July 14, 1958, I am enclosing the forms which you sent to be filled out for completion of my proof for water right under permit number D-24318.

I wish to reiterate the fact that I sent in these completed forms once before, on or about May 28, 1958, in time for four weeks publication before the required date for proof.

I have filled out these papers in such a way that proof can still be made before July 28, the date originally set for proof. However, if you feel that four weeks publication (of which I have been deprived because of some misplacement of my first set of papers)

is necessary, will you please re-date
these papers to suit the requirements
and notify me of said change?

Thanking you for your

RE: Permit No. G-24318

Date May 1, 1958

Morris Johnston
Montevideo, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-24318 are due not later than July 28, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made on no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
