January 4, 1965

Ralph W. Thomas, Deputy
State Reclamation Engineer
Boise, Idaho

Dear Mr. Thomas:

The following is a sketch map of the approximate location of the four existing wells (in blue) and the four proposed wells in red.

NE $\frac{1}{4}$ of SW $\frac{1}{4}$ Sec 26 Twp
8 N Rge 33 E. B.M.

The first relocated well has been drilled but it will be a few months before a pump can be installed and put into operation.

Thanks for your prompt answer to my letter of Nov. 16, and the granting of permission for relocating the wells under license No. G 23947.

Very truly yours,

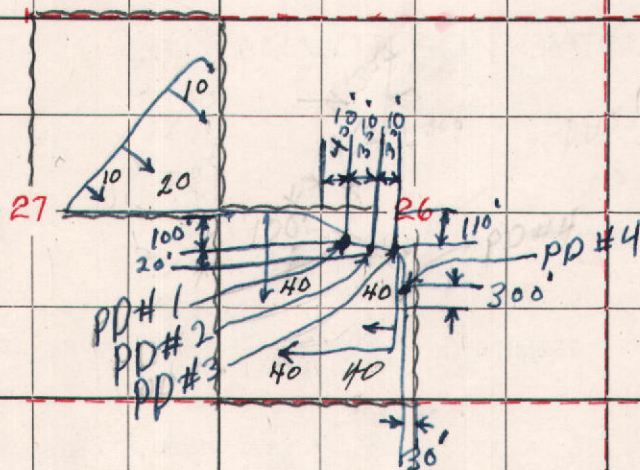

Ray B. Potter

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Ray B. Potter
10712 So Normandie Ave.
Los Angeles, 44, California

Application No. G-31729
Permit No. G- 23947
District No.

1. Name of Applicant: RAY B. POTTER
Postoffice address: Los Angeles County Los Angeles State: California
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 6.4 or Idaho
Miners' inches 320 or gallons per minute. 2380
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: One or more wells located within the SW $\frac{1}{4}$ Section 26, and the NE $\frac{1}{4}$ Section 27, Twp. 8 N., Range 33 E., B.M.
4. Location of point of diversion or well is in the $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section Section 26, and NE $\frac{1}{4}$ Section 27 (27) Twp. 8 N., Rge. 33 E., B.M., County of Jefferson
5. Water is to be used for: Irrigation and domestic purposes
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Drilled wells, cased- Dug and cased if more successful/
8. Estimated cost of works: \$5,000 to \$12,000
9. (a) Is reservoir to be used?
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is Five (5) years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Applicant intends to develop the necessary water for the proper irrigation of the two quarters in whatever scheme of wells would be the most successful

Remarks:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Los Angeles 44, Calif.
90044

Dear Mr. Potter:

We received your letter of November 16, in regard to relocation of the wells under your license No. G-23947.

It is permissible to change the location of the wells within the same 40-acre subdivision; provided that the change will not adversely affect any existing wells and no additional water will be diverted.

Your old wells should be filled with loose rock to a point above the aquifer, topped with at least two feet of gravel to prevent fine material clogging the aquifer.

Kindly send this office a sketch map showing location of the old wells and also the proposed wells.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

RECEIVED

NOV 19 1964

Department of Reclamation

Los Angeles, Calif.
November 16, 1964

Ralph W. Thomas
State Reclamation Engineer
Boise, Idaho

Dear Mr. Thomas:

This letter is in reference to the wells covered by license #23947. I should like to change the locations of these wells slightly in order to remove some useless ditches and to level and farm the quarter in which they are located more efficiently. They will still be located in the same 40 acres but a little closer together and in a straight line.

I should like to re-locate one well at a time, so that the pipe from the discontinued well may be used in the relocated well. Is there any additional procedure involved in pursuing this program?

If I am able to complete the relocation of one well for the coming season, I shall be eligible for help under the soil conservation program.

Very truly yours,

Ray B. Potter

Re: License No. G-23947
Application for Permit

Ray B. Potter
10712 So. Normandie Avenue
Los Angeles 44, California

Dear Mr. Potter:

Enclosed is your check for \$5.50.

Your application for permit will be approved in the near future for 3.2 c.f.s., however the amount will be reduced to 2.4 c.f.s. if the water under License No. G-23947 is not removed from the NE $\frac{1}{4}$, Sec. 27, T. 8 N., R. 33 E.

The Attorney General's office stated that you should complete Form 20 sent to you, as I suggested in former letters. My suggestion that possibly an assignment or relinquishment of that 0.8 c.f.s. would be ample was vetoed.

On Form 20, first page, under change in place of use show 3.2 c.f.s to SW $\frac{1}{4}$, Sec. 26, T. 8 N., R. 33 E. and 0.8 c.f.s. returned to underground source.

We will prepare the legal notice and send to the Rigby paper for publication at your expense.

Send this office the Affidavit of Publication and \$1.00 fee promptly after the last publication.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

RT:ew

Enc. check

23947

RECEIVED

FEB 26 1964

Department of Reclamation

To be restricted to a stream of less than 3.2 c.f.s. will make the farming very difficult. In fact using large streams for shorter periods is the custom in this area because of the shorter growing season.

Any help you can give me in carrying out the necessary legal steps to clear up my present situation will be deeply appreciated.

Very sincerely,

Ray B. Potter
Ray B. Potter

FEB 26 1964

10700 S. Normandie Ave.
Los Angeles 47, Calif.
February 20, 1964

Ralph W. Thomas, Deputy
State Reclamation Engineer
Boise, Idaho

Dear Mr. Thomas:

In order to assure myself and any future owners of SW $\frac{1}{4}$ Sec 26 and the NE $\frac{1}{4}$ Sec 27, Township 8 North, Range 33 East, B.M. of a legal water right to 3.2 c.f.s. of water for each separate quarter I wish to:-

- (1) relinquish my right to .8 c.f.s. of water to which I am entitled under license #G-23947 from SW $\frac{1}{4}$ Section 26 for lands :-

T.W.R	Range	Section	Forty Acre tract	Number of acres Described in permit	No Acres actually irrigated
8 N.	33 E	27	NE $\frac{1}{4}$ NE $\frac{1}{4}$	40	10
			SW $\frac{1}{4}$ NE $\frac{1}{4}$	40	10
			SE $\frac{1}{4}$ NE $\frac{1}{4}$	40	20

- (2) To file the enclosed application for permit to appropriate 3.2 c.f.s. to be obtained from wells on NE $\frac{1}{4}$ Section 27 and to be used on the same NE $\frac{1}{4}$ Section 27.

If the preceding is contrary to legal procedure then I wish the following:-

- (1) To transfer .8 c.f.s. of water from wells in NE $\frac{1}{4}$ Section 26 under license G-23947 for lands

T.W.P.	Range	Section	Forty acre tract	Number of acres described in permit	No acres actually irrigated
8 N.	33 E.	27	NE $\frac{1}{4}$ NE $\frac{1}{4}$	40	10
			SW $\frac{1}{4}$ NE $\frac{1}{4}$	40	10
			SE $\frac{1}{4}$ NE $\frac{1}{4}$	40	20

to wells in SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 27 for same land to be used in conjunction with new filing so as to be able to use a stream of 3.2 c.f.s. on section 27.

Re: License No. G-23947 - Transfer

Application for Permit

Ray B. Potter
10712 S. Normandie Ave.
Los Angeles 44, California

Dear Mr. Potter:

You may be thoroughly confused and so am I confused.

My letter of October 23, 1963, enclosed Form 20 to be used to transfer your water right under License No. G-23947 to only the SW $\frac{1}{4}$, Sec. 26, T. 8 N., R. 33 E. Also, it shows information concerning your application for permit.

Since that letter, I have sent you four or five letters in regard to your water rights which seem to me to be clear.

You may complete the enclosed application for permit. Follow instructions. Show number of wells, if more than one well is in a 40-acre subdivision.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

Re: License No. G-23947
Permit No. G-27553

Ray B. Potter
10712 S. Normandie Ave.
Los Angeles 44, Calif.

Dear Mr. Potter:

Returned herewith is your application for permit with attached check for \$5.75 filing fee. Also enclosed is Form 20, application for transfer of water right and form to relinquish.

Water License No. G-23947 shows 4.0 cubic feet per second for irrigation of 160 acres in SW $\frac{1}{4}$, Sec. 26 and 40 acres in NE $\frac{1}{4}$, Sec. 27, T. 8 N., R. 33 E. from four wells in NE $\frac{1}{4}$ SW $\frac{1}{4}$, said Sec. 26. The report shows that 5.4 cubic feet per second was being diverted from the four wells.

Your application under 4 has been changed to agree with your maps. This application can be approved subject to receipt of completed Form 20, transferring 3.2 c.f.s. to SW $\frac{1}{4}$, Sec. 26 and 0.8 c.f.s. returned to stream and also relinquishment of Permit No. G-27553 which you evidently want to drop. The transfer of water right involves publication in two issues of the county paper, plus a \$1.00 fee.

Ground water is becoming critical in many areas and restrictions are necessary.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

Re: Permit No. G-23947

Mr. Ray B. Potter
10712 S. Normandie Avenue
Los Angeles, California

Dear Mr. Potter:

We herewith return your check #29 for \$28.00, remitted for the Certificate of Completion of Works and License and Certificate of Water Right to be issued under Permit No. G-23947, said check including seven dollars for filing fee for Application for Permit.

The filing fee is to be remitted with the Application for Permit, which to date, has not been received in this department. And, our letter of August 1, 1958, advising you of the fees for the final certificates was in error as to the amount of total fees. The fee for the License and Certificate of Water Right should have been quoted as being fourteen dollars instead of sixteen dollars since there are only seven subdivisions, within 40-acre subdivisions, irrigated instead of eight, thus making the total fees amounting to \$19.00—five dollars for the Certificate of Completion of Works and fourteen dollars for License.

You may send one check to cover these costs, providing the Application for Permit accompanies the filing fee, otherwise, please send separate checks.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-23947

Mr. Ray B. Potter
10712 S. Normandie Avenue
Los Angeles, California

Dear Mr. Potter:

Our field engineer's report on his inspection of the completion of works and application of water to beneficial use under the terms of Permit No. G-23947 shows the wells are capable of conveying 200 miners' inches (h. c. f. s.) of water for irrigation of 200 acres.

Upon receipt of the statutory fees, totaling \$21.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (sixteen dollars—fee based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of March 23, 1953, to the use of h. second feet of subterranean water, with the points of diversion (4 wells) in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 26, for irrigation of 200 acres in the SW $\frac{1}{4}$ Section 26 and NE $\frac{1}{4}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$ Section 27, Township 8 North, Range 33 East, B.M.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit # G-23947

Mr. Ray B. Potter
% Joseph A. Neilson,
Montevieu, Idaho

Dear Mr. Neilson:

Statutes requires a field inspection in connection with the proofs on Permit # G-23947 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Friday

June 13, 1958.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Mr. Neilson:

This acknowledges the depositions of Holder and two Witnesses,
and the affidavit of publication in The Rigby Star in proof
of completion of works and beneficial use under Permit No.
G-23947, Ray B. Potter.

Before a permit can be licensed, the law requires that a field
examination be made by an engineer from this department. At this
time we cannot say just when this will be made but our field
engineer will contact you prior to the time he is to make the
inspection so that you can arrange to accompany him.

Very truly yours,

MARK R. KILP

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 9 a.m. on the First day of April, 1958, at Rigby, County of Jefferson, State of Idaho, before T. Harold Lee 102 N. Clark, proof will be submitted of the completion of works for the diversion of 4.01 cubic feet per second of underground waters from the well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-23947 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person holding said permit are Ray B. Potter, 10712 S. Normandie Ave., Los Angeles 44, Calif.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 4.01 cubic feet per second.

3. The use to which said water has been applied is irrigation & domestic purposes, and the amount applied to beneficial use is 4.01 cubic feet per second.

4. The point of diversion of said water is NE 1/4 of SW 1/4 Sec. 26 T. 8 N., R. 33, E.B.M.

5. The place where said water is used is SW 1/4 Sec. 26 and NE 1/4 Sec. 27 T 8 N., R. 33 E.B.M.

6. The date of priority which said user is prepared to establish is March 23, 1953.

MARK R. KULP,
State Reclamation Engineer.

Permit No. G-23947

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. RAY B. POTTER, 10712 S. NORMANDIE AVE., LOS ANGELES, 44, CALIFORNIA,
FARMER-SCHOOL TEACHER. POST OFFICE ADDRESS SAME AS ABOVE.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. ---

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-23947 --- ^{April 2} MARCH 23, 1953 --- MARCH 23 1953

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. 4 wells in N.E. $\frac{1}{4}$ of the SW $\frac{1}{4}$ Sec 26 T. 8 N. R. 33 E.B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. 4 drilled and cased wells, each 60 feet deep; 20 inch casing; 16 ft.
to water and each able to deliver 55 inches of water. Water was measured
by the driller and pump installer both. Water is conducted by ditches
within the quarter and to adjoining quarter.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic purposes. SW $\frac{1}{4}$ sec 26 and NE $\frac{1}{4}$ Sec. 27 T. 8
N. R. 33 E.B. M. The full 160 acres of SW $\frac{1}{4}$ sec 26 and 40 acres of NE $\frac{1}{4}$ of sec.
27 have actually been irrigated with said water. Improvements consist of
installing electricity, drilling wells, pump casing, pumps, clearing land
constructing ditches etc. No buildings have been constructed as yet.

23947

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Domestic use is the only other use contemplated and so far no buildings have been erected.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 200 INCHES.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. --

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. First well was constructed in 1953. Development of land and additional wells has continued. At present five wells have been constructed and 200 acres are under irrigation.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. The only other water developed and used was a well for domestic purposes when it was homesteaded.

RAY B. POTTER

NOTARY PUBLIC IN AND FOR THE STATE OF IDAHO, RESIDING AT RIGBY, IDAHO

23947

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G-23947

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. WILFORD WARING, 59, MONTEVIEW, FARMER, MONTEVIEW, IDAHO

Ques. 2. Are you acquainted with Ray B. Potter, the holder of Permit No. G-23947? How long have you known him and where does he reside?

Ans. Yes, 15 years. He is presently residing at 10712 S. Normandie Ave. Los Angeles 44, California

Ques. 3. Have you read or heard read said Permit No. G-23947, and are you familiar with its provisions and conditions?

Ans. Yes, and I am familiar with its conditions and provisions

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Underground water from 4 driven wells; point of Diversion, NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 26, T. 8 North, Range 33, EBM. The works consist of 4 drive wells, cased, each well 60 feet deep. The casing is 20 inch. The water is within 16 feet of the surface and is pumped by 4 pumps, 2 Byron - Jackson and 2 Demmings, both turbine, with electric installations, into a lateral ditch. The water is conveyed by ditches from the point of diversion to the lands upon which it is used.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. In my opinion, the works will safely conduct in excess of 4 second feet of waters. I personally have seen at least 220 inches of water so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pumps deliver 55 inches each. On the pumps may pump as much as 70 inches. I was personally present at the time they were tested and measured by the representative of Reed Hardware of Idaho Falls, Idaho

#23947

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for irrigation, on the whole of the Southwest Quarter (SW $\frac{1}{4}$) of Sec. 26, Township 8 North, Range 38, EBM, and on 40 acres of the NE $\frac{1}{4}$ of Section 27, T. 8 N. Range 38, EBM, and I have seen 200 acres of the afore-described land actually irrigated. The land is cultivated. The land has been ditched, diked, the sage brush has been removed, and it has been improved from desert to good cultivated, irrigated land.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is pretty much sandy, loam, although some is fairly heavy soil. In my opinion the land requires a minimum of one (1) inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. none

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been personally present as a neighbor, and throughout the whole of the development have actually witnessed this application of the water to beneficial use.

(Signed) Wilford Varing

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Rigby,
County of Jefferson, State of Idaho, on this 1st day of April,
A. D. 1958

Permit No. G-23947

Proof of Application of Water to Beneficial Use

Deposition of Witness ^{and Completion of Works}

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. JESS T. TRACY, 63, MONTEVIEW, FARMER, MONTEVIEW, IDAHO

Ques. 2. Are you acquainted with RAY B. POTTER, the holder of Permit No. G-23947? How long have you known him and where does he reside?

Ans. YES. 15 YEARS. HE PRESENTLY RESIDES AT 10712 S. NORMANDIE AVE. LOS ANGELES, 44, CALIFORNIA.

Ques. 3. Have you read or heard read said Permit No. G-23947, and are you familiar with its provisions and conditions?

Ans. YES, AND I AM FAMILIAR WITH ITS PROVISIONS AND CONDITIONS.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. UNDERGROUND WATER FROM 4 DRIVEN WELLS; POINT OF DIVERSION, NE $\frac{1}{4}$ OF THE SW $\frac{1}{4}$ OF SECTION 26, T 8 N. RANGE 33 E. B. M. THE WORKS CONSIST OF 4 DRIVE WELLS, CASED, EACH WELL 60 FEET DEEP. THE CASING IS 20 INCH. THE WATER IS WITHIN 16 FEET OF THE SURFACE AND IS PUMPED BY 4 PUMPS, 2 BYRON-JACKSON AND 2 DEMMINGS, BOTH TURBINE, WITH ELECTRIC INSTALLATIONS, INTO A LATERAL DITCH. THE WATER IS CONVEYED BY DITCHES FROM THE POINT OF DIVERSION TO THE LANDS UPON WHICH IT IS USED.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. IN MY OPINION THE WORKS WILL SAFELY CONDUCT IN EXCESS OF 4 SECOND FEET OF WATERS. I PERSONALLY HAVE SEEN AT LEAST 220 INCHES OF WATER SO CONVEYED.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I HAVE SEEN THE PUMPS DELIVER 55 INCHES EACH. ONE OF THE PUMPS MAY PUMP AS MUCH AS 70 INCHES. I WAS PERSONALLY PRESENT AT THE TIME THEY WERE TESTED AND MEASURED BY THE REPRESENTATIVE OF REED HARDWARE OF IDAHO FALLS, IDAHO.

4 23947

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. ~~THIS WATER IS USED FOR IRRIGATION. THIS WATER IS USED ON THE WHOLE OF THE SOUTHWEST QUARTER (SW $\frac{1}{4}$) OF SECTION 26, T 8 N. RANGE 38 E. B. M., AND ON 40 ACRES OF THE NORTHEAST QUARTER (NE $\frac{1}{4}$) OF SECTION 27, T 8 N. RANGE 38 E. B. M., AND I HAVE SEEN 200 ACRES OF THE AFORE-DESCRIBED LAND ACTUALLY IRRIGATED. THE LAND IS CULTIVATED. THE LAND HAS BEEN DITCHED, DIKED, THE SAGE BRUSH HAS BEEN REMOVED, AND IT HAS BEEN IMPROVED FROM DESERT TO GOOD CULTIVATED, IRRIGATED LAND.~~

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. ~~--~~

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. ~~THE LAND IS PRETTY MUCH SANDY LOAM, ALTHOUGH SOME IS FAIRLY HEAVY SOIL. IN MY OPINION THE LAND REQUIRES A MINIMUM OF ONE (1) INCH PER ACRE.~~

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. ~~NONE.~~

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. ~~I HAVE BEEN PERSONALLY PRESENT AS A NEIGHBOR, AND THROUGHOUT THE WHOLE OF THE DEVELOPMENT HAVE ACTUALLY WITNESSED THIS APPLICATION OF THE WATER TO BENEFICIAL USE, AND HELPED PUT THE LAND UNDER CULTIVATION AS AN EMPLOYEE WORKING FOR WAGES.~~

(Signed) Jesse I. Tracy

Mr. Ray B. Potter
10712 S. Normandie Ave.
Los Angeles 44, Calif.

Dear Mr. Potter:

This acknowledges receipt of the Notice of proofs of completion of works and application of water to beneficial use under Permit No. G-23947, to be made at Rigby, Idaho, at 9:00 A.M. on the first day April, before Mr. T. Harold Lee, Notary Public.

As of this date, we have mailed the Notice to the Rigby Star with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and to then mail the affidavit of publication and statement of costs to you.

In completing the enclosed depositions, it is very important that they be executed by you and two disinterested witnesses, who are familiar with the terms and the work done thereunder, at the time, date, place and before the Notary as advertised in the publication Notice, as well as all other necessary information called for. The signatures and the Notary's seal are essential.

When returning the depositions to this office, please be sure to include the affidavit of publication.

Very truly yours,

RE: Permit No. G-23947
Ray B. Potter

First public 27, 1958
Date: February 20, 1958

Rigby Star
Rigby, Idaho

Gentlemen:

Enclosed you will find notice for publication once a week for four consecutive weeks prior to April 1st, 1958 the date set for proof; the expense of the publication is to be paid by the applicant, Ray B. Potter, 10712 S. Normandie Ave., of Los Angeles 44, Calif., to whom you should furnish proof of publication on or prior to the date set for proof.

Please acknowledge receipt of this notice, and furnish this office with a copy of the first publication.

Very truly yours,

MARK E. KULP

State Reclamation Engineer

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

RECEIVED
FEB 19 1958
Department of Reclamation

(Date) February 15, 1958

10712 S. Normandie Ave.
Address

Los Angeles 44, Calif.
City State

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the Rigby Star of Rigby, Idaho published in the county in which the works are situated.

Jefferson Co. ✓

By

Ray B. Toller

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

23947

Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

RE: Permit No. G-23947

Date February 3, 1958

Mr. Ray B. Potter
10712 So. Normandie Ave.
Los Angeles 44, Calif.

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-23947 are due not later than April 3, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper with the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. G-23947

Mr. Ray B. Potter
10712 S. Normandie Ave
Los Angeles, Calif.

Dear Mr. Potter:

We have your letter of December 6th, stating that you are anxious to make proof of Completion of Works and Application of water to Beneficial Use on Permit No. G-23947 on due date.

However, it is not necessary for you to make your proofs at this time if you think at all possible to complete all your works under this Permit by the final proof date of April 2, 1958. We suggest you refer to our letter of September 25th.

Enclosed Forms 36 & 11, and , instructions in completing them.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RECEIVED
DEC 9 1957

Dear Mr. Thompson:

Department of Reclamation

In your letter of September 25th, regarding completion of well permit # G-23947 you suggested making proofs at the final date which is April 2, 1958.

I am very anxious to carry these proofs out properly so am writing for exact instructions.

Your help in this matter will be deeply appreciated.

Very truly yours,

Ray B. Potter

Re: Permit No. G-23947

Mr. Ray B. Potter
10712 So. Normandie Ave.,
Los Angeles, 44, California

Dear Mr. Potter:

We have your letter of September 24th, and note with interest the development you have made under the above numbered permit.

If you will refer to the permit itself, you will observe that the final date for making proofs of completion of works and beneficial use is April 2, 1958. This is the five year maximum allowed by statute.

We suggest that at that time you make proofs on the wells you have completed, pumps, etc. installed, and the water beneficially applied for irrigation.

You may then file a new application for an additional amount from other wells, which will allow you additional time for completion. This later application, however, would have to carry a later priority date, or the date of the later filing, instead of the March 23, 1953, priority that can be established under Permit No. G-23947.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mr. Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

RECEIVED
SEP 25 1957
Department of Reclamation

Dear Mr. Kulp:

On April 14, 1953 I was granted Permit No. G-23947 for the development of irrigation and domestic wells on the SW $\frac{1}{4}$ Sec. 26 and NE $\frac{1}{4}$ Sec. 27, Twp. 8 N, R 33 E.B.M.

To date I have had five wells drilled. Three of these are equipped with pumps and are presently furnishing approximately 180 inches of water for 200 acres of land now under cultivation.

I have had the other two wells tested and they produced about 110 inches of water. I have purchased pumps for them, but it does not seem feasible to install the pumps before spring.

Will you kindly send me instructions for the procedure in proving up on the water developed, so that I may comply with all requirements before the expiration date on my present permit?

Is there a possibility of obtaining an extension of time on the present permit so as to permit me to install the remaining two pumps and also to complete one more well in order to have the full 320 inches of water before making final proof?

Thanking you for whatever advice you can extend me concerning the wisest procedure in this matter, I am

Very truly yours,

Ray B. Potter

AIR MAIL

Mrs. Ray B. Potter
10712 South Normandie Avenue
Los Angeles 44, California

Dear Mrs. Potter:

We enclose Permit No. G-23947 and direct attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose departmental receipt No. 25722 for the \$6.50 filing fee.

We are sorry for the delay in sending this, which was due to pressure of work and being short in office help.

Under separate cover, we are sending you a copy of the present underground water code as amended.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mr. Mark R. Kulp, State
Reclamation Engineer,
Boise, Idaho.

Dear Mr. Kulp:

On March 21, 1953 my
husband sent a money order for
\$6.50 to your office along with an
application for a permit to drill wells
on his land near Montevideo, Idaho.

The application form was the
one you had sent us with the advice
that it would be wise to file it before
the new law goes into effect in May.
We greatly appreciate that courtesy
and are wondering when we may
expect to receive the permit, as we
are formulating plans now for going
to Idaho this spring to begin the work
on the wells.

Los Angeles 44, California

Dear Mr. Potter:

Senate Bill 141 was passed by both houses of the Legislature and was signed by the Governor on March 13, 1953, and will go into effect 60 days after signature.

There is no restriction on appropriating subterranean water until a critical area has been declared, and any permit issued before the effective date will not be affected.

We do not have any extra copies of the bill, but expect to have some mimeographed as soon as we know the Chapter number assigned to this act. We will send you one as soon as they are available.

We enclose a form of application for permit if you wish to file before the law goes into effect.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Department of Reclamation

Dear Mr. Kulp:

I have been informed that within sixty days there will be a new law which will prevent people in the Montevideo area, near Idaho Falls, from drilling wells to aid in the development of their land.

Is it possible for me to have a copy of this law and any information related to it? If it has not been passed already, when do you expect it to be enacted?

I have a prospective lessee for my land this year, and shall therefore appreciate a prompt reply. Please find Air-Mail postage enclosed.

Very truly yours,
Ray B. Potter

**NOTICE OF PROOF OF COMPLETION
OF WORKS and APPLICATION OF
WATER TO BENEFICIAL USE**

Notice is hereby given that at 9 a.m. on the First day of April, 1953, at Rigby, County of Jefferson, State of Idaho, before T. Harold Lee 102 N. Clark, proof will be submitted of the completion of works for the diversion of 4.01 cubic feet per second of underground waters from the well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-23947 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person holding said permit are Ray E. Potter, 10712 S. Normandie Ave., Los Angeles 44, Calif.
2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 4.01 cubic feet per second.
3. The use to which said water has been applied is irrigation & domestic purposes, and the amount applied to beneficial use is 4.01 cubic feet per second.
4. The point of diversion of said water is NE $\frac{1}{4}$ of SW $\frac{1}{4}$ Sec. 26 T. 8 N., R. 33, E.B.M.
5. The place where said water is used is SW $\frac{1}{4}$ Sec. 26 and NE $\frac{1}{4}$ Sec. 27 T. 8 N., R. 33 E.B.M.
6. The date of priority which said user is SW $\frac{1}{4}$ Sec. 26 and NE $\frac{1}{4}$ Sec. 27 T. 8 N., R. 33 E.B.M.

MARK R. KULP,
State Reclamation Engineer.
