Application for Amendment

POINT OF DIVERSION

Permit No. G-28646

Comes now Paul D. Walker, Jr. and
represent to the State Reclamation Engineer of the State of Idaho:

That he is (are) the owner and holder of Permit to Appropriate the Public
Waters of the State of Idaho, No. G-28646.

That the point of diversion is described in said Permit as being located:

SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 15, T8N-R33E, B.M.

That he now requests that the point of diversion be changed to a point
located: NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 10, T8N-R33E, B.M.

That the reason for desiring to make such change is as follows:

I originally planned to get water to irrigate these lands from an existing well
but then decided to drill on the lands to be irrigated as the lands on which the
original well is located has been sold to another party.

That no one will be injured by such change, and that such change will be made
at Permit Holder's own risk.

Signed at Boise, Idaho, this 16th day of August 19 65

RE: Permit No. G-28646

Paul D. Walker, Jr.th
Montevideo, Idaho

Dear Mr. Walker:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-28646 shows the well(s) is ~~xxxx~~ capable of conveying 86.5 miner's inches, or 1.73 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 13.00, we will issue the Certificate of Completion of Works for 1.73 c.f.s. and the License and Certificate of Water Right for 1.73 c.f.s. confirming the right, with priority of July 26, 1960, to the use of subterranean water with the point of diversion in NE1/4 SW1/4, for irrigation of 160 acres in SW1/4, Sec. 10, T. 8 N, R. 33 E, B.M.

Very truly yours,

M. Russell Bosch

Waters of the State of Idaho, No. G-28646.

That the point of diversion is described in said Permit as being located:

SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 15, T8N-R33E, B.M.

That he now requests that the point of diversion be changed to a point
located: NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 10, T8N-R33E, B.M.

That the reason for desiring to make such change is as follows:

I originally planned to get water to irrigate these lands from an existing well
but then decided to drill on the lands to be irrigated as the lands on which the
original well is located has been sold to another party.

That no one will be injured by such change, and that such change will be made
at Permit holder's own risk.

Signed at Boise, Idaho, this 16th day of August 19 65

Dear Mr. McDowell:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28646 are due not later than **May 4, 1965**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

CARL E. TAPPAN
