Dear Mr. Anderson:

One of the conditions of approval of your water Permit No. ~~G-33575/31-2436~~ (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 19, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33575 (New No. 31-2436)

Mr. Vaughn Anderson
Route 1
Shelley, Idaho 83274

Dear Mr. Anderson:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney

Dear Mr. Anderson:

It has been brought to our attention that on or about
March, 1967, you had a well drilled. The
well is reported to be located at a point in the SW 1/4
SE 1/4, sec. 10, T. 5 N, R. 35 E., B.M. for
irrigation use.

A search of our records has failed to find your
application or approved permit. Under existing Idaho
Statutes, Sections 42-226, 42-229, and 42-230 of the
Idaho Code, you are required to file and obtain an
approved permit before you divert waters from a sub-
terranean source, with the exception of domestic wells
which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the
department as to your permit number. However, if you have
not yet filled out an application for permit, please use
the instructions and the blank application form which
we have enclosed.

We will be very happy to assist you with any questions
you might have.

Very truly yours,

Dear Mr. Bosch:

Vaughn C. Anderson of Route 1, Shelley, Idaho has filed a desert land application, serial No. Idaho 017202. On August 25, 1966 we notified Mr. Anderson that the land in his application was classified as suitable for entry provided he prove the existence of a supply of water by the drilling of a well. We also informed him that he must obtain a State water appropriation permit from your office before he began drilling operations. An extra copy of the letter was sent to Mr. Anderson so that he could send it to your office with his application for a permit.

Mr. Anderson applied for a State water permit on August 11, 1966 which was prior to our letter. Apparently he did not subsequently send the copy of our letter to you. Your receipt for his application is No. G-10720, application for permit No. G-41282.

Mr. Anderson subsequently successfully drilled a well and his desert land application is now ready for the issuance of a Notice of Allowance upon issuance of his State water permit.

If Mr. Anderson has met all of the requirements of your office, will you please take appropriate action to have his permit issued. We would appreciate receiving a copy of his approved permit.

Sincerely yours,
