Dear Mr. Ferbauer:

Re: Permit No. 31-2435

Thank you for your letter of March 1, 1974.

I was surprised by the tone of your letter, and would like to make two things clear.

When the first examination was made and notice of March 1, 1973 was sent to us that the water license would be issued I was under the impression that we were irrigating 560 acres and I talked it over with Mr. Murdis Cornelison who apparently also thought so, then wrote on March 7 not a "protest" but asked for the additional 40 acres to which I thought we would be entitled.

On March 15, 1973 the Boise Office notified us that because of my letter a re-examination would be scheduled.

On Feb. 22, 1974 the Boise Office again notified us that the license would be issued within 10 days if we concurred with the findings, hence my letters to the Boise Office and to you of February 25. I was not questioning your acreage calculation. Again I was merely wanting to know the results of the re-examination, since neither you nor Mr. Keith Cornelison had notified me that the re-examination was made nor of the findings, and I do feel we were entitled to know before the license issuance.

Since you explained the results of your re-examination in your letter of March 1, 1974 no review will be necessary as you suggested.

Very truly yours,

Gayle L. Lucas

Mrs. Joyce Imeson Lucas
P. O. Box 476
Jackson, Wyoming 83001

Dear Mrs. Lucas:

This is in answer to your letter of February 25, 1974, regarding the above referenced permit. As you may recall, this permit was originally examined for licensing in August, 1972.

On August 2, 1973, I re-examined the system due to your protest. On the second attempt, I reviewed my calculations and findings with Mr. Keith Cornelison, your farm manager. Mr. Cornelison agreed to both the findings regarding acreage and rate of diversion. Also, he agreed to contact you to ask you to lift your protest on this permit.

Since you question my acreage calculation, I am enclosing a copy of my calculations relative to acreage for your reference. The Department can only license those acres actually irrigated by the system. In the case of the system covered by this permit, it consisted of 4 circular pivot sprinkler systems and the acreage was calculated by using a pivot arm length of 1,345 feet, which allows a liberal allowance on the coverage of each pivot.

After reviewing my calculations several times and once in the presence of your own farm manager, I can find no justification for increasing the irrigated acreages above 520 acres.

I will be glad to review these findings with you at the Idaho Falls Office any time during office hours within the 10 day pretest period, prior to the issuance of the license on this permit.

Very truly yours,

JOHN R. FERBRAUER
Water Resource Technician

PERMIT NO. 31-2435

ACREAGE CALCULATIONS

Calculation of the area covered by the pivot in acres
is accomplished by the following equation:

$$\frac{\pi \cdot (r^2)}{43560}$$

Where:

r = pivot length in feet

43560 = square feet in one acre

$\pi \cdot (r^2)$ = area of a circle

Substituting:

$$\frac{(3.14) (1345') (1345')}{43560 \text{ sq. ft. per acre}} = 130 \text{ acres per pivot}$$

130 acres per pivot x 4 pivots = 520 acres

Re: Permit No. 33555/31-2435
J. G. Ineson Estate

Dear Mr. Fleenor:

We have received and thank you for your letter of Feb. 22 regarding the above permit.

We received such a letter from you dated March 1, 1973 and had some correspondence with you concerning it after that date. In your letter of March 15, 1973 you suggested contacting your Eastern District Office in Idaho Falls, which we did. The gentlemen we were visiting with there, after looking over our records, told us it looked like we would be entitled to between 20 and 40 more acres under the water right. He was going to investigate further and also contact the man who designed and installed the water system for us. I do not remember his name, but it was in March of 1973 that we were in the Eastern Idaho Office. I am wondering if the results of his investigation were forwarded to you?

I am sure you would like to finalize this water right, and we surely would too, as quickly as possible, but certainly want the additional acres included in the license.

Thank you.

Sincerely yours,

Joyce L. Lucas

Box 476
Jackson, Wyoming 83001

Dear Mrs. Lucas:

A representative of this Department has made a re-examination of the works covered by your Permit No. 33555/31-2435 and has found the following:

Quantity of water diverted: 10.34 cfs

Amount of water that can be recognized as beneficially used under
Idaho law: 10.0 cfs

The maximum quantity diverted shall not exceed 1,820 acre feet per year.

Beneficial use: For irrigation of 520 acres within the E $\frac{1}{2}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$,
Sec. 23; W $\frac{1}{2}$ NW $\frac{1}{4}$, W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 24; Twp. 8 N, Rge. 36 E

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 23, Twp. 8 N, Rge. 36 E, B.M.

Priority date established: April 6, 1967

If you do not concur with these findings, please advise us within 10 days; otherwise,
a license will be issued as set forth in this letter.

Sincerely,

Thank you for your letter of March 1 regarding our permit.

I notice you show irrigation of 520 acres instead of 560 acres. The irrigation system installed on the place covers 560 acres, and at this time we ask that the permit be increased to cover the additional 40 acres.

Your consideration will be appreciated and thank you.

Reference is made to the correspondence we have had on the above mentioned permit, and in particular your letter of March 4, 1970 and my answer of March 7, 1970.

At long last we have been able to start estate proceedings, and I am enclosing a certified copy of Letters Testamentary. As yet we are not far enough along to start ancillary proceedings in Idaho, but will do that in the near future.

Since we have had no notification, I presume that the field examination has not been made, and we shall await that and your further instructions.

Dear Mrs. Lucas:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for permit 31-2435.

Before a license can be issued a field examination must be made by a representative from this department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than yourself should be contacted, please advise.

Very truly yours,

Dear Mrs. Lucas:

We are in receipt of your letter, of February 12, 1970, a copy of the deed, and affidavit of beneficial use submitted in behalf of the above referenced permit. In as much as, you are able to submit beneficial use information at this time there will be no need for an extension of time. The extension of time provisions are for the submitting of the beneficial use affidavits, which you have already forwarded to the department. Since you are not the permit holder and the permit holder is apparently deceased, we will use the evidence of the deed as your authority to execute the beneficial use affidavit. However, there is not sufficient evidence in the deed to arrest control of the permit in question, which remains personal property of the J. G. Imeson estate.

We will, at this time, schedule a field examination of the lands and irrigation system for Permit 31-2435. This examination, to be conducted by this department, will be scheduled for the 1970 or 1971 irrigation season. Following the examination, the department will notify the estate of J. G. Imeson, or whoever the estate appoints as an administrator, as to further requirements under the permit. The additional requirements would for the most part be concerned with notifying the permit holder as to the findings of the examination and allowing a protest period of the findings. Following the protest period, a license could be issued and at that time a water right would be vested in the property.

Dear Mr. Higginson:

Re: Permit No. G-33555/31-2435, J. G. Imeson

I received a letter from Mr. McElowney, Appropriation Examiner, yesterday, enclosing forms on which to submit an Application for Extension of Time. I am not filling it out to return until such time as I hear from you on what else there is for us to do.

At this time I am enclosing Proof of Application of Water to Beneficial Use, which I have signed as one of the property owners. To verify this, I am also enclosing a photostatic copy of the deed given us when my father, J. G. Imeson, my sister, Rose A. Kepford and I purchased the property upon which these wells were drilled and which they irrigate.

Will you please tell me what else there is to do, and if it amounts to very much and will be time consuming I shall return the Application for Extension of Time as quickly as possible. I do appreciate your patience and help, my father had been taking care of this and all of a sudden it was left to me to carry on. I am sure you would like to be able to close the case by April 19, 1970, and so would I if it is possible.

Sincerely yours,

Dear Mr. Higginson:

Re: Permit No. 31-2435

Thank you very much for your letter of February 6, I do appreciate your help.

At this point we do not know whether we will probate the estate in Idaho or Wyoming, which our attorney is now investigating. Hence we haven't started probate proceedings, but under my father's will I am to be appointed executor. We do not care to assign our interest in the above permit to anyone else, at least at this time.

In my letter of February 3 I asked if we may have an extension of time beyond April 19, 1970 in case we needed it. Do you grant that extension, or will you please advise me where to apply. Hopefully, we may not need it, but, of course, these affairs have slowed immensely with my father's passing. I do plan to go to Idaho tomorrow to get started on the Proof of Application of Water to Beneficial Use blank completed.

We will keep things moving as fast as we can, but it is possible we will need extended time.

Thank you for your cooperation.

Sincerely,

Mrs. Rod Lucas

Re: Permit No. G-33555/31-2435

Thank you for your letter of January 30, 1970 to my father, J. G. Imeson of Jackson, Wyoming.

I had written Mr. McKelowney, Appropriation Examiner, on January 27 that my father was killed in a car accident on January 10, and at that time sent Affidavit of Publication to him.

At this time I do wish to apply for an extension of time as I do not know yet what else is involved in making proof of beneficial use, which my father was in the process of doing.

Before I can submit the Proof of Application of Water to Beneficial Use to you I will have to get a good deal of information from the man who is running the place and also the people who installed the water system. I am sending for that information now, and hopefully can have it completed by April 19, but I would feel more secure if I may have an extension of time.

Any information that you can send me with regard to what we must do will be greatly appreciated.

We are sorry to learn of the death of J. G. Imeson, holder of the above referenced permit. We appreciate your forwarding the affidavit of publication. In order for anyone other than the permit holder to file proof of beneficial use, it will be necessary for the administrator of the estate to either execute the proof document himself or assign the permit to someone else, which would allow the assignee to submit the proof.

We are enclosing an assignment form and a set of instructions for filing proof. If we can be of further assistance, please advise us.

Dear Mr. Imeson:

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of beneficial use is not required until April 19, 1970; however, many newspapers do not keep copies of these advertisements in their files. We, therefore, recommend that you obtain this affidavit from the Rigby Star, Rigby, Idaho, and submit it to the Department as soon as possible. This insures that when you are ready to submit proof of beneficial use there will be no unnecessary delay or added expense.

Re: Permit No. G-33555 (New No. 31-2435)

J. G. Imeson
Box 632
Jackson, Wyoming

Dear Mr. Imeson:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit. ~~and are now submitting proof of beneficial use.~~ Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.
