Dear Mr. Johnson:

We are in receipt of your letter of February 1, 1969 and your personal check in the amount of \$5.00 along with your application for permit.

In researching the records of the Department, we cannot find where a correction was made at any time on our records, changing the range of the place of use of the waters under this permit to Range 34 E., B.M. We have a photo copy of the document which was mailed to you and it does not indicate any changes. There would have been no authority for anyone in the department to make such a change.

In order for your water right to be of any value, we propose that the amendment which you have signed and returned to us be processed. We shall process the amendment under your permit.

Thank you for your assistance in this matter.

Dear Mr. McEldowney:

In answer to your letter of January 27, 1969, the correct range is 34 East. On the original Application for Permit we had the range correct for point of diversion, No. 1 on P. 1, and it is correct on the map, Form No. O. But on page 2 No. 12 (land to be irrigated) we mistakenly typed in "35E"; however, on the copy you returned to us it had been corrected in ink to 34E. On all of the papers we returned to you last week we had the range as 34E which is correct. Therefore, we feel that everything is in order, that the mistake is yours not ours, and that an amendment along with the extra fee is unnecessary. Nevertheless, we are completing the application and enclosing a \$5.00 check in the event you still feel it is necessary.

The Department notes that on the affidavit you submitted as proof of beneficial use of the waters indicated under the above referenced permit that the Range does not correspond with the Department's records. The Department finds that its records indicate the range to be 35 E and not 34 E, as you have indicated. If this is so, you will need to file an amendment with the Department changing your permit.

We have enclosed an amendment form, partially filled out to be used by you in this matter. Please submit this item along with a \$5 (five dollar) fee to the Department.

Re: Permit No. G-33502

Dear Mr. Johnson:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.
