NOTICE OF APPROVED APPLICATION FOR WATER

Notice is hereby given that Ray B. Potter, 10712 S. Normandie Ave., Los Angeles 44, California has received an approved permit No. G-31739 to divert 3.2 cubic feet per second of water from a ground water source. The priority to be established under this permit is February 26, 1964. Water will be diverted by well, pump, and ditches within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, (3 wells), SE $\frac{1}{4}$ NE $\frac{1}{4}$, (4 wells), Sec. 27, T. 8 N., R. 33 E., B.M., Jefferson County and is to be used for irrigation and domestic and stockwatering purposes in the NE $\frac{1}{4}$, Sec. 27, T. 8 N., R. 33 E., B.M.

Any protests against the intent of the permit must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

R. KEITH HIGGINSON
State Reclamation Engineer
Published in the Rigby Star, Rigby, Idaho on March 13 and March 20, 1969.

LICENSE OF WATER RIGHT

License of Water Right No. 31739/31-2411 Priority Feb. 26, 1964 Amount 3.13 cfs

THIS IS TO CERTIFY, that RAY B. POTTER
of Los Angeles, California, has complied with the terms and conditions of Permit
No. 31739/31-2411 issued pursuant to Application for Permit dated February 26, 1964,
and has submitted proof to the Department of Water Administration on January 20, 1969,
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 3.13 cfs, and that the water has in fact been applied to a
beneficial use; a right to the use of water from a ground water source
tributary of _____, is hereby confirmed in the following amounts:

Amount 3.13 cfs for Irrigation from April 1 to Nov. 1 (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Subject, however, to the condition that no more than 3.13 cfs of water be diverted at
any one time, said waters to be diverted within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ (4 points), Sec. 27 and
NE $\frac{1}{4}$ NE $\frac{1}{4}$ (3 points), Sec. 27, Twp. 8 N, Rge. 33 E, B.M.

in the county of Jefferson; and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 413 acre feet per year or _____
3.0 acre feet per acre.

MY COMMISSION EXPIRES JULY 15, 1969

NOTICE OF APPROVED APPLICATION FOR WATER

Notice is hereby given that Ray B. Jones, 10712 S. Normandie Ave., Los Angeles 44 California has received an approved permit No. C-31739 to divert 3.2 cubic feet per second of water from a ground water source. The priority to be established under this permit is February 26, 1964. Water will be diverted by well, pump, and ditches within the NE 1/4 NE 1/4, (3 wells), SE 1/4 NE 1/4, (4 wells), Sec. 27, T. 8 N., R. 33 E., B.M., Jefferson County and is to be used for irrigation and domestic and stockwatering purposes in the NE 1/4, Sec. 27, T. 8 N., R. 33 E., B.M.

Any protests against the intent of the permit must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

R. KEITH HIGGINSON

State Reclamation Engineer
Published in the Rigby Star, Rigby, Idaho on March 13 and March 20, 1969.

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

Department of Reclamation

a) Name of Permit Holder Ray B. Potterb) Post Office Address 10712 S. Normandie Ave. Los Angeles, California 900442. Permit Number G-317393. Date of Priority that you are prepared to establish February 26, 19644. a) Source from which water was appropriated Subterraneanb) Location of the point of diversion: NE 1/4 & SE 1/4 of NE 1/4, Section 27Township 8N., Range 33E, Boise Meridian, Other points of diversion:

5. a) The amount of water and use to which the water has been applied:

amount 3.2 C.F.S. for irrigation and domestic uses from April 1 to Dec. 1 incl. intermittently
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)b) Total amount appropriated 4 c.f.s. at maximum flow, cfs and/or acre feet per annumc) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: Made from Utah Power and Light Co. electrical measurements and pump specifications from Byron Jackson Pump Co. Figured by myself Graduate in Physics and Mathematics University of California.

5. If the means of diversion and conveyance are owned by someone other than the Permit Holder:

a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use:

The rate of flow of the wells was tested by the Hopkins Brothers, drilling contractors and by Mel Brown pump Co of Idaho Falls, Idaho,. They measured the wells so the proper sized pumps could be installed. All wells tested 40 to 50 inches of water except one which tested 15 inches. 10 H.P. 6 inch turbine pumps were installed designed to pump under a maximum of 50 inches. I estimate the combined flow to be near 2000 gallons per minute or 4.c.f.s.

b) Describe the agreement to purchase and use of which you take water from the wells:

7. a) Briefly describe the works for diverting and conveying the water to the place of use, (If from a subterranean source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch)

6 inch turbine pumps 10 h.p. each
16 and 20 in casings
wells, pumps, ditches. wells 60 feet in depth.

b) Describe the type and size of measuring device which you have installed at your point of diversion:

Electrical measurements and pump specifications used

c) Give well drillers name and address and date the well was completed

Hopkins Brothers Glenn L. Hopkins Thornton, IdahoGlenn L Hopkins JR. 475 Contor Ave Idaho Falls, IdahoLast well was completed in February or March 1964

When all seven pumps that are now installed are pumping water, some of the pumps rob water from some of the other wells, making it difficult to estimate the total amount of water appropriated. It is also true that the wells pump different amounts of water at different times of the season. According to the best estimate from electrical measurements and pump specifications I have been able to get very close to 4 c.f.s. under maximum conditions.

31739

8. If for other than irrigation, describe the beneficial use to which you have applied the water and the place of use _____

9. Irrigation uses: Describe the lands irrigated by giving the acreages irrigated within each 40 acre subdivision: _____

TWP.	RANGE	SEC.	NE1/4				NW1/4				SW1/4				SE1/4				TOTALS
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	
8 N	33 E	27	33.3																33.3
				37.6															37.6
					33.9														33.9
						32.8													32.8

Total number of acres irrigated 137.6

10. Remarks: The above acreages irrigated within each 40 acre subdivision were computed from the map of the NE1/4 of Section 27 included from the Department of Agriculture.

The above information is a true statement of the extent to which the above numbered permit has been developed.

1-17-69 (Date) Ray B. Potter (Signature)

State of California ss. County of Los Angeles

Re: Permit No. 31-2411

Mr. Bobby D. Fleenor
Department of Water Admin.
Statehouse - Annex 2
Boise, ID 83707

Dear Mr. Fleenor:

This is in response to the letter giving me ten days to object to the findings of the examiner on Permit No. 31-2411.

I do not disagree with the quantity of water found to be diverted or the number of acres found to be irrigated, but I believe that the rate of water for which the license is issued should be the full 3.13 c.f.s. because of the irrigation system and type of soil that I have which require more than the .02 c.f.s. per acre that Idaho law normally allows.

Attached is a letter from Clair H. Leavitt of the Soil Conservation Service at Rigby, Idaho, substantiating this contention.

I respectfully request that the license be issued for the full 3.13 c.f.s.

Sincerely yours,

RAY B. POTTER

Dear Mr. Young,

Mr. Ray B. Potter of Monterview, Idaho contacted me concerning having his water license increased to the maximum legal limit for his farm. He pumps out of a series of wells to obtain irrigation water for his 320 acre farm.

I recommend that Mr. Potter's water license be increased to the maximum legal limit because of the short growing season in the area, the excessive drying conditions due to the wind and also due to the sandy condition of a part of the soil. The soil on about one half of the farm is mapped as Lidy sandy loam. Layers of loam may occur below 18 or 20 inches. It is 36 to 60 inches to sand and gravel. Fields are all nearly level. Water holding capacity ranges from 1.5 to 2.25 inches per foot of soil. Permeability is moderate (from 0.8 to 2.0 inches per hour).

The remainder of the farm is mapped as Montevue Silty Clay loam. The water holding capacity of this soil is between 2.0 and 2.5 inches of water per foot of soil. The soil permeability is slow to moderately slow.

Length of runs vary from a few hundred feet on some fields to a maximum length of about 1320 feet on 27 acres of the farm. Border method of irrigation is used on all fields. The entire farm is in alfalfa hay at this time. The peak consumptive use month on alfalfa for this area is July. According to the Soil Cons. Service "Irrigation Guide", 6.51 inches of water is the net requirement for alfalfa. Many farms get less than 50% efficiency on irrigation water.

In the event of power failure, pump trouble, etc. that may cause the loss of water flow for a few days, Mr. Potter would be in need of a larger flow for fewer days in order to irrigate his crop.

Mr. Ray B. Potter
10712 S. Normandie Ave.
Los Angeles, California 90044

Dear Mr. Potter:

A representative of this Department has made an examination of the works covered by your Permit No. 31739/31-2411 and has found the following:

Quantity of water diverted: 3.13 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 2.76 cfs

The maximum quantity diverted shall not exceed 413 acre feet per season.

Beneficial use: Irrigation of 137.6 acres within the NE $\frac{1}{4}$, Sec. 27,
Twp. 8 N, Rge. 33 E, B. M.

Point of diversion: SE $\frac{1}{4}$ NE $\frac{1}{4}$ (4 points) & NE $\frac{1}{4}$ NE $\frac{1}{4}$ (3 points), Sec. 27, Twp.
8 N, Rge. 33 E, B. M.

The priority date established is: Feb. 26, 1964

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

Dear Mr. Potter:

We are in receipt of your letter of August 15, 1969.

Please be advised that the Department of Reclamation has in the vicinity of 600 to 700 examinations to be completed. We schedule our working force to be in different areas of the State in order to accomplish certain missions. It may be as long as an additional year or two years before the examination can be made. If at all possible, we will complete it in the 1969 season.

If you have any questions on the matter, please contact us.

Very truly yours,

Dear Mr Mc Eldowney:

In your letter of February 28 1969 regarding Permit No D-31739 you said that following completion of two publications of the legal notice in the Rigby Star a license could be issued following a field examination by a representative from your department.

According to the Office of the Rigby Star you were notified of the publication of the two legal notices immediately following the said publications.

I have been in Montevideo since the 3rd, but so far no field representative has called to make an examination of the completion of works.

If it is possible to give me any information concerning the proposed time of examination I will appreciate it very much.

Also if there are any further requirements for the issuance of the license please notify me of them.

Dear Mr. McEldowney:

In answer to your letter of April 16, 1969, acknowledging receipt of affidavit of publication in connection with permit No G-31739 and asking to be advised concerning someone else to contact in case I am not available at the time of the field examination.

In case of my absence, the following people are acquainted with my irrigation project and probably available for information:

Mr. and Mrs. Homer Wells and Mr. and Mrs. Henry Landgren, who live directly across the road from the wells.

Mr. Stanley Housholder, who lives one mile south of the wells.

Mr. Herres Johnston, who lives one mile east and a quarter mile north of the wells.

Very truly yours,

Ray B. Potter

FEB 13 1969

Donald W. McEldowney
Appropriation Examiner
Boise, Idaho

Dear Mr. McEldowney:

Department of Reclamation

In answer to your letter of January 30, 1969 concerning permit No. - G 31739.

To the best of my knowledge the locations of the wells - 4 in SE 1/4, Sec 27 and 3 in the NE 1/4, Sec 27 T. 8N., R 33 E.B.M. 2 are correct.

Thank you for withholding publication of the notice to the Bigby Star and saving me the extra expense of readvertising.

From the affidavit filed as proof of application of water to beneficial use, I failed to keep a record of the exact number of irrigable acres in each 40 acres as computed from the aerial photograph obtained from the Agricultural Stabilization and Conservation Office.

If you will record from the affidavit the exact number of acres for each 40 acres on the accompanying amendment I will appreciate it very much.

The total number of irrigable acres according to the aerial map is 137.6 and I have it so recorded on the accompanying amendment.

You mentioned that the examiner will try to contact me at the time he makes the examination. In case I am absent, I am giving the names of following people who are thoroughly acquainted with the system and can probably be contacted at his convenience:-

Mr. and Mrs. Homer Wells and Mr and Mrs. Henry Landgren, who live directly across the road from the wells,

Mr Stanley Housholder, who lives one mile south of the wells;

Mr. Herres Johnston, who lives one mile east and a half mile north of the wells.

Please pardon the delay in answering, as I have been ill.

Very truly yours,

Ray B. Potter
10712 S. Normandie Avenue
Los Angeles 44, California

Dear Mr. Potter:

Thank you for your letter of January 20, 1969.

If the Department is correct, you have drilled 4 wells in the SE~~1~~/~~4~~NE~~1~~/~~4~~, Sec. 27; three wells in the NE~~1~~/~~4~~NE~~1~~/~~4~~, Sec. 27; and have abandoned drilling a well in SW~~1~~/~~4~~NE~~1~~/~~4~~, Sec. 27, T. 8 N., R. 33 E., B. M.

If the Department's assumption is correct, it will be necessary for you to file an application for amendment allowing you to divert water from the relocated points of diversion. We have enclosed a form, which is partially filled out, for your convenience in requesting this change.

We shall withhold publishing this notice until we hear from you as to what you wish to be done, thus saving you the extra expense of readvertising.

We acknowledge receipt of the affidavit submitted as proof of the application of the water to beneficial use. Before a license can be issued a field examination must be made by a representative from this Department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than yourself should be contacted, please advise this Department.

January 17, 1969

RECEIVED

JAN 20 1969

Mr. Keith Higginson
State Reclamation Engineer
Boise, Idaho

Dear Mr. Higginson:

Department of Reclamation

In reply to your letter of January 2, 1969, concerning permit No. G-31739: In filing for completion of works I would like to request a change in the statement of the number of wells in the SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 27 from 2 to 4 and 2 redcrosses added to the 2 now in the SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 27 in the permit. No well was drilled in the SW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 27 as requested in the permit. A test well showed no shallow water at that location.

Of the 4 wells drilled in the SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 27, the first 2 produced so little water that it became necessary to drill the 3rd and 4th.

When all seven pumps that are now installed are pumping water, some of the pumps rob water from some of the other wells, making it difficult to estimate the total amount of water appropriated. It is also true that the wells pump different amounts of water at different times of the season.

So far the maximum electrical demand for all seven pumps pumping water from a depth of 50 to 60 feet was 42 H.P. This also includes considerable line loss to the pumps. From the best figuring I can come up with, I am able to get 4 c.f.s.

I have written the drilling contractors, Mr. Glenn Hopkins Sr of Thornton, Idaho, and Mr. Glenn L. Hopkins JR of Idaho Falls, Idaho, to forward you the logs of the 7 wells, the date each was finished, the rate of flow of each, the method of measuring the rate of flow of each, and by whom the measurements were made.

I have penciled in the number 4 on the number of wells in the SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 27 on the notice to be sent the Rigby Star and hope you will see fit to OK it and to make the two additional red crosses in the SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 27 of the permit.

I have included a map of the NE $\frac{1}{4}$ of Section 27 from the Department of Agriculture as requested and filled out the Proof of Application to the best of my ability.

You mentioned that I may request an extension of time, provided the delay is for reasonable cause, as indicated in Section 42-204, ICA. May I please have a copy of this particular section or be advised as to what constitutes reasonable cause?

I hope everything is in order and that I can prove up without having to file an extension of time.

Very truly yours,

31739 Ray B. Potter

Re: Permit No. G-31739

**Ray B. Potter
10712 S. Normandie Avenue
Los Angeles 44, California**

Dear Mr. Potter:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

BEFORE THE STATE RECLAMATION ENGINEER

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. G-31739)
in the name of Ray B. Potter, 10712 S.)
Normandie Avenue, Los Angeles 44, California)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. G-31739 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.

Dated this 10th day of January, 1969.

R. KEITH HIGGINSON
State Reclamation Engineer

Re: Permit No. G-31739

Ray B. Potter
10712 S. Normandie Ave.
Los Angeles 44, California

Dear Mr. Potter:

One of the conditions of the approval of your permit
G-31739 was that proof of application of the water to
beneficial use be submitted to this office on or before _____
March 3, 19 69.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

State Reclamation Engineer

Re: Permit No. G-31739

Mr. Ray B. Potter,
10712 S. Normandie Ave.,
Los Angeles 44, California.

Dear Mr. Potter:

We enclose Permit No. G-31739 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-8568 which was issued covering payment in the amount of \$ 5.75 for the filing fee of the above mentioned permit.

Very truly yours,

CARL E. TAPPAN
