Dear Mr. Savage:

Enclosed please find an Amendment form and Assignment of Permit form. The Amendment form is to be used to amend the place of beneficial use and the point of diversion of the water listed in Permit No. G-29915/31-2389.

The Assignment form is to be used if you wish to have the license issued in your name, provided Mr. House will assign the permit to you. Mr. and Mrs. House will need to sign the assignment before a notary.

If Mr. House will not assign the permit to you, then he will have to complete the application for amendment, amending both the point of diversion and place of beneficial use as you show on the photo map. The new point of diversion would be within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 26, Twp. 7N, Rge. 36E; the place of beneficial use will be the SW $\frac{1}{4}$ of Sec. 26, same township and range.

If Mr. House assigns the permit to you, then you can submit the amendment form in your name.

If we can be of further help, please do not hesitate to write or call our office.

Dear Mr. House:

A field examiner from our Department has made an attempt to inspect your irrigation system described under Permit No. 31-2389 and has been unsuccessful for the last two (2) years. There seems to be some confusion concerning the location of your well and the land that is being irrigated. The land and well in question appear to belong to a Mr. Bruce Shirley.

Enclosed, please find an aerial photo of the land described in your permit. We would appreciate it if you would indicate on the photo exactly where the well is located and also which lands are being irrigated and return the photo.

We would appreciate your assistance in this matter.

Very truly yours,

Fred Eisenbarth

Dear Mr. House:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 0-29915. The proofs are to be made ~~at 10:00 o'clock~~, on the 26th day of July, 19 66, before Wilmer R. George Rigby, Idaho Notary Public.

As of this date, we have mailed the Notice to the Rigby Star, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Department of Reclamation

Dear Mr. House:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-29915 are due not later than July 11, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-29915 are due not later than **July 11, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Re: Permit No. G-29915

Mr. Ed House,
Box 224,
Turkey, Texas.

Dear Mr. House:

We enclose Permit No. G-29915 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-6168 which was issued covering payment in the amount of \$5.50 for the filing fee of the above mentioned permit.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

Very truly yours,

GEO. N. CARTER

Application for Permit

Mr. Ed House
Turkey, Texas

Dear Mr. House:

Returned herewith is your application for permit with attached check for \$5.00, which you submitted to this office, for additional information and proper fee.

The maps show Section 26 below Section 35 so the north direction would be as shown in pencil. If that is correct the circle, evidently the well location would be in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 35 whereas on the application it is shown - SW $\frac{1}{4}$ Sec. 35.

The application under 12 is subdivided into the 4 quarters of the section and each 160 acre subdivision is subdivided into 40-acre subdivisions. Under Sec. 26 you show an X under SW $\frac{1}{4}$ NE $\frac{1}{4}$ and Sec. 35 SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ NW $\frac{1}{4}$. The maps show you probably own the SE $\frac{1}{4}$ Sec. 26; N $\frac{1}{2}$ Sec. 35 T. 7 N., R. 36 E. and this permit is to provide water for S $\frac{1}{2}$ NE $\frac{1}{4}$, W $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 35.

On page one of the application you claim 180 miners inches and under 13 on page 2 you show 28 shares in Hamer Canal Company and 8 $\frac{1}{2}$? as supplemental water.

The maximum amount of water which can be claimed is one miners inch per acre without full justification for additional.

Very truly yours,

GEO. N. CARTER
