226-9th Ave., No.

Dear Mr. Ahlm:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit. Enclosed is an Order which advances the priority date for this permit to March 20, 1969.

We have caused the legal notice for this permit to be published in the Rigby Star on April 18, and April 25, 1974. You will be required to submit an affidavit of publication to this office. The affidavit may be obtained from the above mentioned newspaper upon payment of the publication fee. We have asked the newspaper to bill you direct.

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof of beneficial use of water. The enclosed Order modifies your permit to comply with these rules and regulations.

If you have any questions concerning these matters, please contact us.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

Dear Mr. Ahlm:

A check of our records and those of Idaho Land and Appraisal Service failed to produce the completion of works and application of water to beneficial use proofs that were due on or before February 17, 1964.

Therefore, to avoid cancellation of your permit you must complete the enclosed proof of beneficial use form, and return it along with the advertising authorization also enclosed, before April 20, 1974.

If we can be of any assistance in this matter, please let us know.

Dear Mr. McDowell :

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 27766 are due not later than **Feb. 17, 1964**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tipton

Gentlemen:

We received the proof on the above numbered permit, in the name of Ted Ahlm, this morning and find the following errors.

Paragraph 5, Line 2 should read S₁NE₁, SE₁, S₁SW₁, instead of SE₁NE₁ and SW₁SW₁, as shown.

This will have to be run for four times correctly, and if the first publication is March 5, you will not have to change the date for making proof.

Please send us proof as soon as possible on this change.

Thank you.
