Re: Permit No. G-27385

Mr. Charles Paul Cope,
P. O. Box 1196,
Idaho Falls, Idaho.

Dear Mr. Cope:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27385. The proofs are to be made at 10:00 o'clock A.M., on the 1st day of May, 1963, before Marjorie H. Dall, Airport Road, Idaho Falls, Idaho, Notary Public.

As of this date we have mailed the Notice to the Rigby Star Rigby, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

POINT OF DIVERSION

Permit No. G-27385

Comes now Charles Paul Cope and represents to the State Reclamation Engineer of the State of Idaho:

That he is (~~am~~) the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-27385.

That the point of diversion is described in said Permit as being located:

NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 7., Twp. 6N., Rge. 34 E.B.M.

That he now requests that the point of diversion be changed to ^{include} a point located: SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 6., Twp. 6 N., Rge. 34 E.B.M.

That the reason for desiring to make such change is as follows:

The one well did not produce a sufficient amount of water

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Charles Paul Cope
P. O. Box 1134
Idaho Falls, Idaho

Dear Mr. Cope:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 27385 are due not later than **May 22, 1963**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Dear Sir:

We are in receipt of your letter of May 6, 1958 concerning our application for permit to appropriate the Subterranean Waters of the State of Idaho from a well located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 7, Township 6 No., Range 34 EBM.

It is correct that the SW $\frac{1}{4}$ of Section 7 is Carey Act Land and will require one certified copy and one uncertified copy of this permit to be sent to the Bureau of Land Management as evidence of a water right. We are therefore enclosing a fee of \$2.00 for these copies.

We desire the 9.6 Cubic Feet per second in place of the 9 cubic feet per second which we stated. We are therefore enclosing the filing fee of \$7.25 to compensate for the 9.6 cubic feet per second.

On Question (13) on our questionnaire we did not answer the question--but the answer should read "none!"

We are enclosing a check for \$9.25 to cover the above items, and we would like to take this opportunity to thank you for your courtesies ~~extended~~. The forwarding of the copies to the Land Management is also greatly appreciated.

Trusting this is all the information you need for completing the processing of this application, we remain,

Very Truly Yours,

Re: Application for Permit

Mr. Charles Paul Cope
P. O. Box 1134
Idaho Falls, Idaho

Dear Mr. Cope:

We wish to acknowledge receipt of your Application for Permit to Appropriation the Subterranean Waters of the State of Idaho from a well located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 7, Township 6 North, Range 34 East B. M.

You state under Remarks, in the application, that the SW $\frac{1}{4}$ of Section 6, Township 6 North, Range 34 East, is owned by Marjorie and Lionel Ball, of 1561 Beverly Road, Idaho Falls, Idaho. We also note under remarks that the SW $\frac{1}{4}$ of Section 7 is Carey Act Land and will require one certified copy and one uncertified copy of this permit to be sent to the Bureau of Land Management as evidence of a water right.

We note in the application that under 'Quantity of Water', you state 9 cubic feet per second and you state 480 miners inches which would be the equivalent of 9.6 cubic feet per second and we are wondering if you wish to file on the full inch to the acre or just for 9 cubic feet per second.

Providing you wish to file for one inch per acre on 480 acres, you could file on 480 inches or 9.6 cubic feet per second, which would bring the filing fee to \$7.25 and if copies are sent to the land office to take care of the Desert Land Entry, it would require a fee of \$2.00 in addition, for one certified copy and one un-certified copy of the permit after said application becomes a permit.

You also did not answer Question (13) - the question being - 'existing water rights or valid permits appurtenant to the lands filed on under this application' - Providing your land has or has not any existing water right, please so inform us.

27385

Mr. Charles Paul Cope

-2-

May 6, 1958

We are returning your check to the amount of \$7.00, which is the correct filing fee for 9 cubic feet per second, however, if you wish to file on 9.6 cubic feet per second, the filing fee will be \$7.25, plus \$2.00 for furnishing copies of the permit to the Bureau of Land Management, making a total of \$9.25.

Please give us the additional fee and return as soon as possible so that we may process your application.
