ATTENTION: Mr. John L. Bloem

Dear Mr. Bloem:

As we were listing the land irrigated on the License under Permit No. G-26647, M. M. Owsley, Harer, Idaho, we find that an error of the land list in the permit had escaped us. The land in the S¹/₄ and Lot 3 of Section 6, Township 6 North, Range 35 East, E. . is not listed. Whether this error was made in recording the permit or whether it was an error in the land listed in the original permit, we cannot tell, but in either event, to correct the record, it is necessary that the permit be amended.

Enclosed is an application for amendment for signature which is to be returned. Upon receipt, this will then put the permit in order for issuance of the Certificate of Completion of Works and the License.

This is to advise you that you are correct in that Lot 6 is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 5, Township 6 North, Range 35 East, B.M. and that it is listed in the original permit, therefore, an amendment is not necessary. Thank you for checking this matter closely and calling the error to our attention.

MR. MARK R. KULP
State Reclamation Engineer
Boise, Idaho

Attention: Edna P. Rutledge, Chief Clerk

Dear Mr. Kulp:

Thank you for your letter of September 24th regarding the above numbered permit.

According to Metsker's Map of Jefferson County (which we used in preparing our description) Lot 6 of Section 5, Twp. 6 N.R. 35, E.B.M. would have normally been the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of this section, but was assigned a Lot number because it borders on Mud Lake (the map shows 36.60 acres in the Lot).

18 acres of the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 5 are shown as lands to be irrigated in the above numbered permit, so we do not think it will be necessary to file the application for amendment.

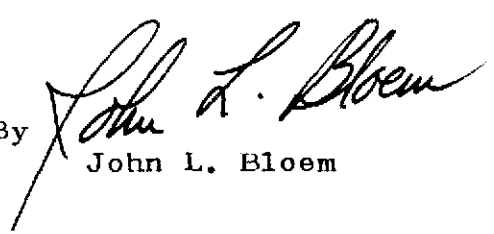

If you find I am incorrect, please let me know.

Very truly yours,

ATTENTION: Mr. John L. Bloom

Dear Mr. Bloom:

Our field engineer's report on the proof of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-26647, M. M. Owsley, Hamer, Idaho, shows that an inspection was made under Permit No. G-24690, M. M. Owsley, and that his well was capable of conveying 672.5 miner's inches of water (13.45 c.f.s. -- 12.0 of which was licensed under Permit No. G-24690, leaving 1.45 c.f.s. to be licensed under Permit No. G-26647) for irrigation of 1220 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and Lot 6 of Section 5; SE $\frac{1}{4}$ SE $\frac{1}{4}$ and Lot 3 of Section 6; all of Section 7, Township 6 North, Range 35 East, B.M. and the E $\frac{1}{2}$, E $\frac{1}{2}$ W $\frac{1}{2}$ of Section 12, Township 6 North, Range 34 East, B.M.

The record of Permit No. G-26647 does not list the land in Lot 6 of Section 5, therefore, we have enclosed an application for amendment for signature.

Upon receipt of the amendment, mentioned above, and the statutory fee of \$5.00, we will issue to Mr. Owsley the Certificate of Completion of Works (five dollars) and the License and Certificate of Water Right (no fee) confirming the right with priority of November 29, 1956, to his use of 1.45 second feet of subterranean water with the point of diversion in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 25, Township 7 North, Range 35 East, B.M., for irrigation of 1220 acres, listed above.
