Gentlemen:

In the Notice of Publication on the above numbered permit for the U. S. Fish and Wildlife Service, published in your newspaper for the first time October 27, 1960, we find the following error.

In Paragraph 5, line 5, the description should read T 7 N., R. 36 E. instead of T 7, R. 36 E. as shown.

Would you please send us a tear sheet or another copy after this correction has been made.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26067. The proofs are to be made at 10:30 o'clock A.M., on the 21st day of November, 1960, ~~1959~~, before O. K. Jones, Rigby, Idaho, Notary Public.

As of this date we have mailed the Notice to the Rigby Star, Rigby, Idaho with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Dear Sir:

The State Statutes do not provide that an extension of time over five years from the date of approval of a permit to prove completion of works can be given in cases where more work was necessary to do the work than originally contemplated.

You can make proof of completion of works which may be completed and later make proof of beneficial use of the water. The date of priority on the license issued would be advanced the length of time the proof was made after the due date. The completion of works involved in this case would be wells, pumps and main canals and/or pipe to irrigate the land and does not include the leveling of the land.

In case your works are completed for over 6.4 cubic feet per second of water, a notice must be published for four successive issues of a paper published in the county where the works are situated and any beneficial use of the water can be included. A lesser amount of works can be on other forms and no notice need be published provided you do not prove beneficial use of any of the water.

Kindly advise of type of proof you can make at this time and proper forms will be sent to you.

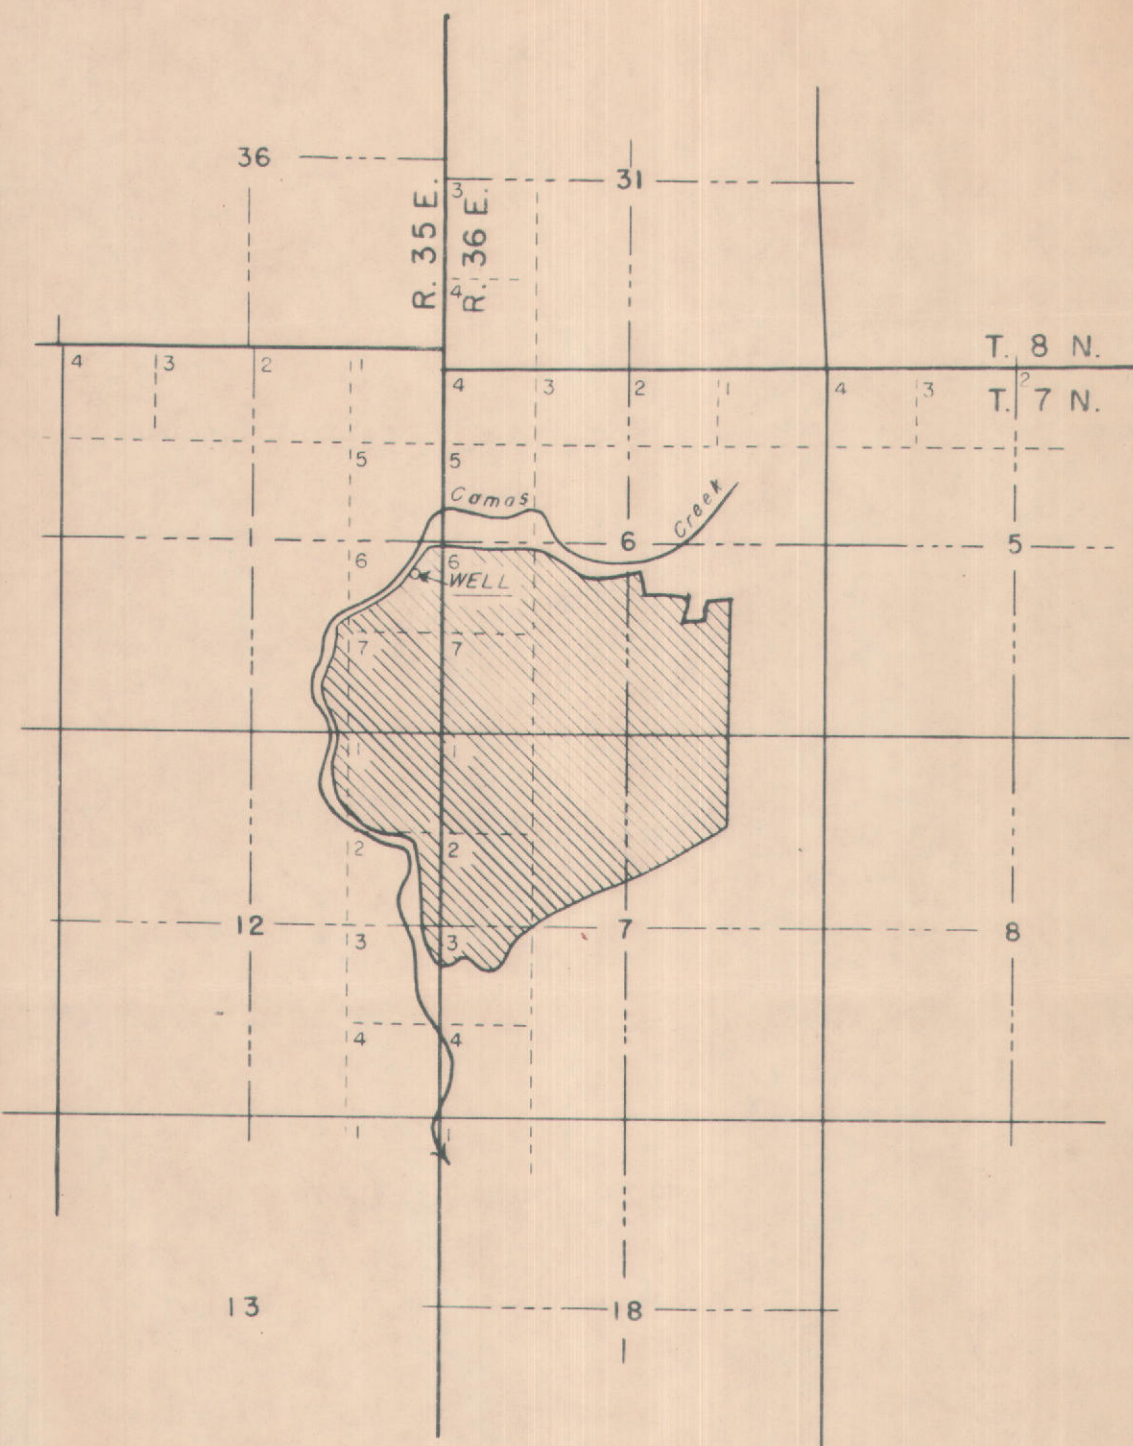

Very truly yours,

Dear Mr. Twist:

We would like to know the date on which you plan to start irrigation.

Due to the heavy work load of permits to be examined this year, this information would help to schedule and direct our attention to areas in which early irrigation has started.

Total 507.9 acres, more or less. Part cultivated and part natural meadow. Ditches constructed, concrete diversion structures completed and approx. 25 acres leveled.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. R.P. Cope Well Drilling Co., 927 Poulson Ave., Idaho Falls, Idaho
(Contract No. 14-19-001-367)

G26067

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Water For Irrigation

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 10.1 c.f.s. for Irrigation

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Started pumping on June 16, 1960 and continued pumping when required during rest of season. Covered lands described in answer 6 above. Pump Discharges 11.5 c.f.s.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Right No. 143 under Federal District Court Decree dated Nov. 191930, Water District No. 66 covers part of this land as well as other land within the refuge. Only partial irrigation from this right has been possible for several years due to low discharge of Camas Creek. Total rights for 58.1c.f.s. are claimed under the Decree.

Gentlemen:

In the Notice of Publication on the above mentioned permit for the U. S. Fish and Wildlife Service, published in your newspaper for the first time October 27, 1960, we find the following error.

In Paragraph 5, line 5, the description should read T 7 N., R. 36 E. instead of T 7, R. 36 E. as shown.

Would you please send us a tear sheet or another copy after this correction has been made.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26067. The proofs are to be made at 10:30 o'clock A.M., on the 21st day of November, 1960, ~~xxxx~~, before O. K. Jones, Rigby, Idaho, Notary Public.

As of this date we have mailed the Notice to the Rigby Star, Rigby, Idaho with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Dear Sir:

The State Statutes do not provide that an extension of time over five years from the date of approval of a permit to prove completion of works can be given in cases where more work was necessary to do the work than originally contemplated.

You can make proof of completion of works which may be completed and later make proof of beneficial use of the water. The date of priority on the license issued would be advanced the length of time the proof was made after the due date. The completion of works involved in this case would be wells, pumps and main canals and/or pipe to irrigate the land and does not include the leveling of the land.

In case your works are completed for over 6.4 cubic feet per second of water, a notice must be published for four successive issues of a paper published in the county where the works are situated and any beneficial use of the water can be included. A lesser amount of works can be on other forms and no notice need be published provided you do not prove beneficial use of any of the water.

Kindly advise of type of proof you can make at this time and proper forms will be sent to you.

Very truly yours,

GEO. N. CARTER

Dear Sir:

Reference is made to your letter of September 1, 1960 advising that the date for filing Proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-26067 is not later than November 22, 1960.

We have found it necessary to do more work than was originally contemplated in connection with getting the land in shape and the construction of irrigation works. For that reason we request an extension of time of one year in which to complete the works and apply the water to beneficial use under Permit No. G-26067.

Sincerely yours,

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 26067 are due not later than November 22, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,
