Re: Permits Nos. G-25545-G-25546-G-25547
G-25550 and G-25551

Cowley Canal Co.
Attn: Mrs. Merrill Jemmett, Sec.
Terreton, Idaho

Dear Mrs. Jemmett:

Enclosed are Certificates of Completion of Works and
Licenses and Certificates of Water Right issued on the above numbered
permits.

We also enclose departmental receipt No. G-5145, in
the amount of \$25.00 covering fees.

Very truly yours,

GEO. W. CARTER

RE: Permit Nos. G-25545, G-25546, G-25547,
G-25550, G-25551

Jack Gerard, Vice President
Owsley Canal Company
Terreton, Idaho

Dear Mr. Gerard:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permits No. G-25545, G-25546, G-25547, G-25550, G-25551 shows that the wells are capable of conveying 4,000 miner's inches (80 c.f.s.) of water for irrigation of 17,240 acres.

Upon receipt of the Statutory fees, totaling \$25.00, we will issue the Certificates of Completion of Works (fee \$5.00 for each Certificate) and the License and Certificate of Water Right on each, confirming the rights with priority of September 3, 1954, to the use of 80 second feet of subterranean water with the points of diversion in The SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 18, SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 18, NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 19, SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 19, SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 19, Township 7 North, Range 35 East for irrigation of 17,240 acres of land under the Owsley Canals in Sec. 32, 33 T. 7 N., R. 34 E; Sec. 3, 4, 5, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 34, 35, T. 6 N., R. 34 E; Sec. 8, 17, 18, 19, 20, 29, 30 T. 6 N., R. 35 E.

Very truly yours,

GEO. H. CARTER
State Reclamation Engineer
By

C-25550 - C-25551
Cusley Canal Company

Jack Gerard, Vice President
Cusley Canal Company, Inc.
Perrinton, Idaho

Dear Sir:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the High Star, all submitted in proof of Completion of Works and Beneficial Use on Permits Nos. C-25545- C-25546, C-25547, C-25550 and C-25551.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the ground.

It was necessary to make four photo-copies of the Affidavit of Publication for four of the permits, as only one Affidavit was mailed to us. Please mail us \$2.00 to cover the cost of these photo-copies as soon as possible.

Very truly yours,

CHAS. E. CARTER

**NOTICE OF PROOF OF COMPLETION
OF WORKS and APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 9:00 a.m., on the 28th day of March, 1960, at Dubois, County of Clark, State of Idaho, before H. R. Harn, Notary Public, at Dubois, Idaho, proof will be submitted of the completion of work for the diversion of 100 cubic feet per second of underground water from wells, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit Nos. G-25545, G-25546, G-25547, G-25550, and G-25551, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of corporation holding said permits is Owsley Canal Company, a corporation, Terreton, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 100 cubic feet per

second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 100 cubic feet per second.

4. The points of diversion of said water are: SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18; SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19, and the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 19; and the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19; all in Twp. 7 N., Rge. 35 E.B.M.

5. The place where said water is used is S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 32; S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 33; Twp. 7 N., Rge. 34 E. B. M.; NW $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 3; all of Secs. 4 & 5; E $\frac{1}{2}$, Sec. 7; all of Secs. 8, 9 & 10; S $\frac{1}{2}$, Sec. 11; SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 12; all of Sec. 13; NE $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 14; NW $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 15; all of Sections 16, 17, 20, 21, 22, 23, 24, 25, 26, 27, 28, and 29; N $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 34; all of Sec. 35; all in Twp. 6 N., Rge. 34 E.B.M.; W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 8; W $\frac{1}{2}$, Sec. 17; all of Secs. 18 & 19; NE $\frac{1}{4}$ W $\frac{1}{2}$, Sec. 20; W $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 29; N $\frac{1}{2}$, Sec. 30; all in Twp. 6 N., Rge. 35 E.B.M., all in Jefferson County, Idaho.

6. The date of priority which said user is prepared to establish is September 3, 1954.

GEORGE N. CARTER,
State Reclamation Engineer.

Enc. amendment

18378
February 25, 1960

Re: Water Rights in the name of
Owaley Canal Company

g-25551

Mr. H. R. Harn,
Box 7,
Baboia, Idaho.

Dear Mr. Harn:

Upon your request of February 23rd for the Owaley Canal Company, we find, as taken from our records, the following list of decreed water rights and permit rights. In the case of Ernest Sauve, Plaintiff, vs. W. H. Abbott, et al, Defendants, dated November 1, 1930, by Charles C. Cavanah, U. S. District Judge, the following rights were decreed to the Owaley Canal Company out of Mad Lake:

Priority of March 9, 1911, for 1.6 c.f.s.
" " April 15, 1912, for 80.8 c.f.s.
" " December 2, 1916, for 72.6 c.f.s.
" " May 1, 1921, for 25.0 c.f.s.
" " August 11, 1924, for 75 c.f.s.

Total of 255.0 c.f.s.

In the above stated decree, we find from our abstract of decreed rights, the following water rights out of Mad Lake decreed to the following persons and now in the name of the Owaley Canal Company:

November 3, 1910 - 1.6 cfs decreed to Carl Nordstrom
November 14, 1912 - 2.68 cfs decreed to Clara Welchman
July 21, 1913 - 4.0 cfs decreed to James A. Melton
September 6, 1913 - 2.5 cfs decreed to H. A. & Mary L. England
October 18, 1913 - 3.0 cfs decreed to Henry Jemmett
December 15, 1913 - 1.6 cfs decreed to Mary A. Jemmett
June 1, 1915 - 1.0 cfs decreed to George E. Monroe
June 24, 1916 - 2.44 cfs decreed to William H. Miller
December 3, 1916 - 1.0 cfs decreed to George E. Monroe
August 28, 1926 - 6.4 cfs decreed to Ernest Sauve

In the case of the Owaley Canal Company, a corporation, Plaintiff, vs. Ernest Sauve, et al, Defendants, dated October 14, 1940, by C. J. Taylor, District Judge, the plaintiff was awarded an amount not exceeding in the aggregate the equivalent of 200 cubic feet per second flowing continuously

g25551

during the irrigation season from May 1st to November 1st of each year, from all or any of the wells constructed, or to be constructed, under permits Nos. 17611, 17612, 17640 and 18378.

A water license was issued by the Department of Reclamation on Permit No. 17262 for 40 cubic feet of water with priority of January 25, 1930. No mention was made in the last above entitled case of water license No. 17262 in the name of Owsley Canal Company, with priority of January 25, 1930, for 40 cubic feet from North Lake and subterranean sources. The point of diversion from North Lake is in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$, Section 23, Township 7 North, Range 34 East, and evidently three artesian wells were drilled along the canal to Mud Lake; - no information as to the capacity of the wells.

We have checked our records in this office thoroughly and to the best of our belief, this is a complete list of all valid water rights in the name of the Owsley Canal Company. This list does not include the water being applied for under Permit No. G-25544, G-25546, G-25547, G-25548, G-25549, G-25550 and G-25551; also G-25545.

There will be no charge for this information. Copy of this letter is being furnished you in triplicate.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-
25144 - 25145 - 25146
25147 - 25148 - 25149
25150 - 25151

Date: June 2, 1960

Mrs. Merrill Jarnett, Secretary
Canby Canal Company
Teton, Idaho

Dear Ms. Jarnett:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-~~25144-25149~~ are due not later than March 22, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Twp. 6 North, Range 34 East, B.M.

Certificate of Completion of Works issued April 20, 1950
For 10 cubic feet per second
From wells located on the Section lines between
Sections 10 and 15, Sections 9 and 16, Sections 8 and 17,
Twp. 6 North, Range 34 East, B.M.
Proof of beneficial use due: April 12, 1950. Not made.

PERMIT NO. 21301:

Amount: 20 cubic feet per second
Source: Underground water
Date of filing: September 20, 1949

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 27,
Twp. 7 North, Range 34 East, B.M.

One-fifth of work to be completed: June 10, 1952

Construction work to be completed: December 10, 1954

Proof of beneficial use due: December 10, 1958

PERMIT NO. 21302:

Amount: 20 cubic feet per second
Source: Underground water
Date of filing: September 20, 1949

Point of diversion: NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 26
Twp. 7 North, Range 34 East, B.M.

One-fifth of work to be completed: June 10, 1952
Construction work to be completed: December 10, 1954
Proof of beneficial use due: December 10, 1958

825551

PERMIT NO. 21303:

Amount: 20 cubic feet per second
Source: Underground water
Date of filing: September 20, 1949

Point of diversion: SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 23
Twp. 7 North, Range 34 East, B.M.

One-fifth of work to be completed: June 10, 1952
Construction work to be completed: December 10, 1954
Proof of beneficial use due: December 10, 1958

PERMIT NO. 21890:

Amount: 20 cubic feet per second
Source: Underground water

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 31.
2. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
3. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
5. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
6. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
7. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
8. Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works from all authorized points of diversion that is acceptable to the watermaster and will provide suitable control of the diversions.
- *** 9. The total instantaneous diversion of water from all points of diversion under Transfer 5335 shall not exceed 503.21 cfs during the irrigation season.
10. Approval of Transfer 5335 does not grant any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
- ** 11. Rights 31-00327, 31-00328, 31-00329 and 31-00330 when combined shall not exceed a total diversion rate of 200.00 cfs during the irrigation season, and may be diverted at their full authorized rate of diversion into Mud Lake for storage purposes during the non-irrigation season.
- * 12. Right 31-02289 is limited to irrigation of 160.0 acres in the place of use described above in a single irrigation season.
- * 13. Right 31-02290 is limited to irrigation of 240.0 acres in the place of use described above in a single irrigation season.
- * 14. Right 31-02297 is limited to irrigation of 340.0 acres in the place of use described above in a single irrigation season.

State of Idaho
License and Certificate of Water Right

Water License No. G-25551

Amount 16.0 c.f.s.

Water District No. _____

Priority Sept. 3, 1954

THIS IS TO CERTIFY that OWSLEY CANAL COMPANY
of Terreton, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated September 3, 19 54; that Permit No. G-25551
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
16.0 second feet, was issued thereunder on August 29, 19 60, showing that said works
were completed on the 28 day of March, 19 60; and that on the 28
day of March, 19 60,

OWSLEY CANAL COMPANY

of Terreton, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean flow, for the purpose of irrigation
, under Use Permit No. G-25551 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume

11 of Licenses at page 6953, on the 29 day of August, 19 60;

The right hereby confirmed dates from September 3, 19 54;

The Point of Diversion is located

in the SE 1/4 NW 1/4, Sec. 19, Tp. 7 N, R. 35 E., B. M. County Jefferson

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 16.0 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
For irrigation of 17,240 acres under the Owsley Canals in Sec. 32, 33, T. 7 N., R. 34 E.; Sec. 3, 4, 5, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 34, 35, T. 6 N., R. 34 E.; Sec. 8, 17, 18, 19, 20, 29, 30, T. 6 N., R. 35 E., B. M.					
Not over 5 acre feet per annum per acre of irrigated land of all water rights shall be diverted. Not over 1 miner's inch of subterranean water per acre of irrigated land shall be diverted at any one time for all uses.					

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

29 day of August, 19 60.

s/ GEO. N. CARTER

State Reclamation Engineer.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 32996
Permit No. G- 25551
District No.

1. Name of Applicant: OWSLEY CANAL COMPANY
Postoffice address: c/o Edwin Snow, P.O. Box 515, Boise, ~~County~~ State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 20 ~~or Idaho~~
~~Miners' inches~~ ~~or gallons per minute~~
 - (b) ~~Annual withdrawal in acre feet per annum~~
3. Source of water supply: Underground water
4. Location of point of diversion or well is in the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 19
Twp. 7 N., Rge. 35 E., B.M., County of Jefferson
5. Water is to be used for: irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Drilled well or wells and short connecting ditch to existing canals
8. Estimated cost of works: \$ 3,000.00
9. (a) Is reservoir to be used? See remarks
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is five years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation: May 15, 1914, Idaho
(b) Amount of capital stock: \$ 16,710.00 (c) Amount paid in: \$ 16,710.00
(d) Names and addresses of directors: Adrian L. Orme, Wm. H. Shuldberg, L. H. Shuldberg, Jack Gerard, Farrell Black; addresses of all directors is Terreton, Idaho.
 - II. The financial resources of the applicant are (a) Cash onhand: \$
(b) Treasury stock: None (c) Bonds ^{or notes} to be issued: if necessary
(d) Other resources: Assessments levied annually as needed for operation and development
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: See Remarks "B"
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

Applicant.

By

Agent.

Returned to applicant for correction: Oct. 8, 1954

Corrected application received: Nov. 22, 1954

The number of this permit is G-25551

Recorded in Book 90 Page 25551 Approved Mar. 28, 1955

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions: *

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before May 28, 1955 and to continue diligently and **uninterruptedly** to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before September 28, 1957

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before March 28, 1960

Witness my hand this 28th day of March, 1955

MARK R. KULP

State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYTHE, Governor of the State of Idaho,
and IRA H. MASTERS, Secretary of State of the State of Idaho, have caused this instrument to
be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 28th
day of March, 1955.

Countersigned:

STATE OF IDAHO

at a point in the _____ $\frac{1}{4}$ of the _____ $\frac{1}{4}$ of Section _____, Twp. _____, Rge. _____, B. M.

7. Kind of Works: _____

Remarks:

"B": The right applied for under this application is wholly supplementary to other water rights of earlier priority but the actual combined yield of all of which are insufficient for applicant's reasonable needs.

For the lands comprising applicant's irrigation project it has the following licenses:

Permit No.	Priority Date	Second Feet
4713 (Mud Lake)	(1) 4/15/12	80
	(2) 12/2/16	72.6
17262 (Underground water)	1/25/30	40
17640 (Underground water)	1/8/32	50
18378 (Underground water)	6/26/36	80

Applicant has also the following additional water permits upon which certificate of completion of works has been issued:

Permit No.	Filing Date	Cert. of Compl.	Second Feet
19085 (Underground Water)	5/22/40	10/20/52	87.2
19588 (Seepage and waste water)	11/24/44	4/20/50	10

The Company has very recently relinquished to the State of Idaho all rights under Permits Nos. 21301, 21302 and 21303, each covering 20 second feet of underground water. Investigations subsequent to the filing of application for these permits have disclosed the probable futility of drilling wells at the points of diversion specified. Relinquishment has also just been filed of rights under Permit No. 17612 for 100 second feet of subterranean water. Other water permits of the Company (Nos. 17640 and 18378) for wells in the same immediate vicinity, and which have gone to license, have been disclosed to be more productive.

Applicant has the following additional water permits upon which investigations and development work are still proceeding:

Permit No.	Filed	Second Feet
21896 (Underground water)	11/15/50	20
21891 (Underground water)	9/20/49	20
21892 (Underground water)	11/15/50	20
G-22251 (Underground water)	7/12/51	20

The Owsley Canal Company's irrigation project is a "Carey Act" project, the building of which was completed by the "Construction Company" about the year 1917, and accepted by the State of Idaho and the "Operating Company" in 1918.

It was originally supposed that the initial appropriations of water from Mud Lake would afford an ample water supply. However, as additional land on the project each year has been brought under cultivation, it became apparent that only by constant and vigilant development of new sources of supply, particularly from wells, would the project obtain sufficient water to be reasonably successful.

In a suit brought for the adjudication of the waters of Mud Lake and its tributaries (Ernest Sauve vs. Abbott et al.), the Federal Court for the Eastern District of Idaho, about the year 1930, entered its decree awarding to the Owsley Canal Company an aggregate of 255 second feet of the waters of Mud Lake, with priorities ranging from April 15, 1912, to August 11, 1924. These "rights" in Mud Lake, though doubtless based upon proof of actual use for short periods of time on dates prior to the decree, actually yielded an aggregate amount of water during the irrigation season wholly insufficient to raise crops on the project lands; so, beginning almost immediately after the entry of the decree, search began for new sources of supply; this search and development effort has continued up to the present time as both the surface and the underground sources of water supply have diminished or receded.

The normal irrigation season on the project is from May 1st to October 1st although in the spring of some years unusually dry weather requires irrigation to be begun on April 15th.

The actual number of acres for which water was delivered by the Owsley Canal Company in 1954 was 16,710 acres, that being the number of shares of its capital stock then outstanding.

According to the Water Master's reports, the following are the amounts of water (in acre feet) available for and used by the Owsley Canal Company during the irrigation seasons of each of the last four seasons:

1951	— May 1st to October 1st	- - - - -	-40,678	acre feet
1952	— April 15th to September 30th	- - - - -	-44,340	" "
1953	— May 1st to October 1st	- - - - -	-50,410.4	" "
1954	— April 15th to October 31st	- - - - -	-46,225	" "

In addition to the irrigation needs of the project, there is some small use of water after October 1st for livestock purposes. All the lands of the project are situated some distance from railroad transportation; and the market for alfalfa hay and also pasture is at times considerably improved by livestock being able to get water from the Company ditches.

Since all the water used by the project, whether coming from underground sources or from surface supply, is pumped out of Mud Lake—a natural reservoir—it would seem that the water needs of the project should be determined on a seasonal acre foot basis rather than on the basis of second feet of stream flow; and since, as shown by the table just above, the seasonal use per acre on the project is below even 3 acre feet per acre, the use of water on project is far below the limitation of "5 acre feet of stored water per annum for each acre of land to be so irrigated", as referred to in Section 42-202, Idaho Code. That section provides that a use of more than 5 acre feet per acre requires a determination by the Department of Reclamation that a greater amount is necessary.

Were a sufficient dependable water supply available, the Company could irrigate from its distribution system several thousand acres of land additional to the acreage heretofore irrigated.

BE IT KNOWN That the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

OWSLEY CANAL CO.

Applicant.

By EDWIN SNOW Agent.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, No. G-25551, et al

Comes now OWSLEY CANAL COMPANY, a corporation, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-25551, et al; and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

T. 7 N., R. 34 E., Sec. 32 S $\frac{1}{2}$ SE $\frac{1}{4}$; Sec. 33 S $\frac{1}{2}$ SW $\frac{1}{4}$
T. 6 N., R. 34 E., All of Secs. 4, 5, 8, 9, 10, 13, 16, 17, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 35; Sec. 3 NW $\frac{1}{4}$, S $\frac{1}{2}$,
Sec. 7 E $\frac{1}{2}$; Sec. 11 S $\frac{1}{2}$; Sec. 12 SW $\frac{1}{4}$ SW $\frac{1}{4}$; Sec. 14 NE $\frac{1}{4}$, S $\frac{1}{2}$; Sec. 15 NW $\frac{1}{4}$, S $\frac{1}{2}$; Sec. 34, N $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$,
T. 6 N., R. 35 E., Sec. 8 W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 17 W $\frac{1}{2}$; all of Secs. 18, 19; Sec. 20 NE $\frac{1}{4}$, W $\frac{1}{2}$; Sec. 29, W $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$; Sec. 30 N $\frac{1}{2}$.
making a total of 17,240 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change

Signed at Terreton, Idaho, this 23rd day of February, 1960

s/ OWSLEY CANAL COMPANY, a corporation

By: VURGAL L. JOHNSON, Pres.

Date of receipt at office of Department of Reclamation: February 24, 1960

APPROVAL OF STATE RECLAMATION ENGINEER

I, GEO. N. CARTER, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-25551. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

GEO. N. CARTER
State Reclamation Engineer

Recorded: March 3, 1960

Permit No. G-25551
CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that OWSLEY CANAL COMPANY of Terreton, County of Jefferson, and State of Idaho, the holder of Permit No. G-25551, issued upon Application No. G-32996, bearing date of priority of September 3, 1954, authorizing the diversion of 20 second feet of waters of wells, County of Jefferson, State of Idaho, for irrigation purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 16.0 second feet of the waters of a well from subterranean flow; that the point of diversion of said waters is SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19, T. 7 N., R. 35 E., B. M.; and that the lands proposed to be irrigated by the use of said water are described as follows:

17,240 acres of land under the Owsley Canals in Sec. 32, 33, T. 7 N., R. 34 E.; Sec. 3, 4, 5, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 34, 35, T. 6 N., R. 34 E.; Sec. 8, 17, 18, 19, 20, 29, 30, T. 6 N., R. 35 E., B. M.

Witness my hand this 29th day of August A. D., 1960.

02344/02345/07005

FROM: Pam Skaggs^{PS}/State Office

SUBJECT: Transfer 5335

DATE: February 9, 1999

Transfer 5335 combines the groundwater rights of the Holley Water Users, Jackett Canal Co, and Owsley Canal company. These three companies have combined under the Owsley Canal Company name and will operate a single combined system.

The application identifies 34 points of diversion and a combination of the land lists evidenced under each company's SRBA claims or 24261.3 acres. The decreed rights are vague, while the licensed rights identify specific acres and limits. SRBA review of all these rights through the adjudication process will provide specifics and verify the validity of all of these rights.

Review of these rights found that Right 31-02317 was actually licensed in two parts with separate rates and priority dates. These rights were more accurately entered as Parts A & B on the database and the additional 8.08 cfs added to the total diversion rate under this transfer. Also, a combined limit of 200.00 cfs during the irrigation season was identified under Rights 31-00327/00328/00329 & 00330. Right 31-02259 was listed on the application, however this right was superseded by Right 31-00330. After making these adjustments, the total rate of diversion under these rights is 643.21 cfs limited to 503.21 cfs during the irrigation season and 5,000 af storage.

Season of use and diversion volume were adjusted to current standards where specific acres were identified. Recommended conditions include watermaster control, supplemental groundwater, irrigation overlap, measuring/lockable controlling works, right-of-way, permissible place of use, combined limits and standard transfer conditions.

RE: Permit Nos. G-25545, G-25546, G-25547,
G-25550, G-25551

Jack Gerard, Vice President
Owsley Canal Company
Terreton, Idaho

Dear Mr. Gerard:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permits No. G-25545, G-25546, G-25547, G-25550, G-25551 shows that the wells are capable of conveying 4,000 miner's inches (80 c.f.s.) of water for irrigation of 17,240 acres.

Upon receipt of the Statutory fees, totaling \$25.00, we will issue the Certificates of Completion of Works (fee \$5.00 for each Certificate) and the License and Certificate of Water Right on each, confirming the rights with priority of September 3, 1954, to the use of 80 second feet of subterranean water with the points of diversion in The SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 18, SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 18, NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 19, SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 19, SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 19, Township 7 North, Range 35 East for irrigation of 17,240 acres of land under the Owsley Canals in Sec. 32, 33 T. 7 N., R. 34 E; Sec. 3, 4, 5, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 34, 35, T. 6 N., R. 34 E; Sec. 8, 17, 18, 19, 20, 29, 30 T. 6 N., R. 35 E.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Friend Elmer:

I am late answering your letter of July 22 concerning the wells in section 13-24 TWP 7N. R. 34E.B.M. We are still quite concerned about these wells and would like to have them reinstated.

Mr. Harry Harn and I had decided to come to Boise to discuss this with you and the department before this time, but too many things have occurred to delay us. I do, however, plan to come over as soon as possible.

I believe that it would be more satisfactory to discuss this in person than to attempt to do so in correspondence.

Yours truly,

Jack Gerard

Mrs. Rule:

With reference to your letter of April 5th requesting a fee of \$2.00 for additional photo copies of Affidavit of Publication, I am enclosing my Check No. 133 for this amount.

In the event that the Owsley Canal Company has already sent you this fee, then kindly return my check for cancellation, otherwise send receipt to me for my files.

Re: Permit Nos. G-25545-G-25546-G-25547
G-25550 - G-25551
Owsley Canal Company

Jack Gerard, Vice President
Owsley Canal Company, Inc.
Terreton, Idaho

Dear Sir:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Rigby Star, all submitted in proof of Completion of Works and Beneficial Use on Permits Nos. G-25545- G-25546, G-25547, G-25550 and G-25551.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the ground.

It was necessary to make four photo-copies of the Affidavit of Publication for four of the permits, as only one Affidavit was mailed to us. Please mail us \$2.00 to cover the cost of these photo-copies as soon as possible.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Application for Amendment

POINT OF DIVERSION

Permit No. G-25297

RECEIVED
AUG. 1, 1957
Department of Reclamation

Comes now JOHN EDWARDS
and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-25297.

That the point of diversion is described in said Permit as being located:

SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 17, Township 8 North, Range 34 E., B.M.

That he now requests that the point of diversion be changed to a point located: SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 17, Township 8 North, Range 34 E., B.M.

That the reason for desiring to make such change is as follows:

That a miscalculation was made, and amends are now sought to locate correct
location of well.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Montevieu this 29 day of July, 1957

/s/ John E. Edwards

Date of Receipt at Department of Reclamation: August 1, 1957

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-25297. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

BOISE, IDAHO

RECEIVED
APR 4 1960
Department of Reclamation

Permit No. 9-25551

Proof of Application of Water to Beneficial Use
— and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Jack Gerard, residence - Terreton, Idaho, occupation - farming
and livestock.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf. Owsley Canal Company, Inc., Terreton, Jefferson Co
Ans. Idaho. I am the corporation Vice-President and a member of the Board
of Directors.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-25551, dated ~~Sept. 3, 1954~~ March 28, 1960, and our priority date is Sept. 3, 1954.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean water from wells, with a point of diversion in the
SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19, Township 7 North, Range 35 E.B.M., Idaho

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Deep well pump powered by 75 H.P. Electric Motor, which produces
1,000 inches of water, and is conveyed by a ditch approximately 12 feet
wide at bottom, with banks 4 feet high and sloping approximately 2 feet
to mile. Well approximately 100 feet deep, water lift approximately 10
feet, well casing 24 inch and 20 feet long. Pump flow 1,000 inches has
been estimated by Directors, and pump has capacity of 1,200 inches.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and stock watering. Lands all cultivated, all diked,
with canals and laterals. Lands irrigated are those described in Proof
of Publication.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Ralph P. Cope, 927 Poulsen, Idaho Falls, Idaho

825551 

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. _____

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Edwin Snow, agent, who signed original Application, now deceased.
I am an officer of the corporation.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All the water under this Permit was used for the full irrigation
season of 1958 and 1959 for the raising of crops.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. We have several other Rights, Permits and Licenses used in
connection with this Permit on our 16,000 acre project, which are of
record in the Department of Reclamation.

Permit No. 2-25551

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Dave Jernberg, age 63, residence, 2030 Bremer Drive, Idaho Falls, Idaho. My occupation is livestock and farming.

Ques. 2. Are you acquainted with Owsley Canal Company, Inc., the holder of Permit No. G-25551? How long have you known him and where does he reside?

Ans. Yes, I have been acquainted with the Owsley Canal Company and it's operations since it was first organized in about 1915.

Ques. 3. Have you read or heard read said Permit No. G-25551, and are you familiar with its provisions and conditions?

Ans. I am familiar with the provisions and terms of this Permit.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is from subterranean wells, place of diversion is SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19, Township 7 North, Range 35 E.B.M., Jefferson Co., Idaho. Works consist of deep well with pump and electric motor, and canals and ditches to point of use from point of diversion.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I believe this well will produce approximately 20 second feet of water, and I have seen it conveyed in ditches.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen this pump in operation, and believe it will produce 20 cubic feet per second. My estimate is based on my pumping experience during the past 20 years.

25551

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation for the production of crops. There is over 16,000 acres in the project. Cultivated crops have been produced as a result of this irrigation.

Where?

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of the soil is sandy loam, and not less than 1 inch per acre is required to produce profitable crops.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the project or any land under it.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been familiar with this project since 1915, have witnessed the production of crops and the application of water to beneficial use.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

RECEIVED
APR 4 1960
Department of Reclamation

Permit No. G-25551

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. E. E. Cope, age 55, residence - Montevieu, Idaho, occupation -
livestock and farming.

Ques. 2. Are you acquainted with Owsley Canal Company, Inc., the
holder of Permit No. G-25551? How long have you known him and where does
he reside?

Ans. I have had knowledge of the Owsley Canal Company and it's operations
since about 1923. Their project is located near Terreton, Jefferson Co.,
Idaho.

Ques. 3. Have you read or heard read said Permit No. G-25551, and are you
familiar with its provisions and conditions?

Ans. I am familiar with this Permit and it's terms and provisions.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Water is from wells, point of diversion is SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19, Twp.
7 North, Range 35 E.B.M., Jefferson County, Idaho. Water is produced by
deep well pump with electric motor attached, and there are ditches and
canals from where water is produced to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. Ditch at well will convey 20 second feet of water to main canal,
and I have seen water being so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. It is my estimate, after seeing this pump in operation, that it
will produce 1,000 inches. I have had considerable experience with
irrigation pumps since coming to this area in 1923.

G-25551

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for raising of crops on a large project of approximately 16,000 acres. The land is all under cultivation and crops are produced only as a result of said irrigation.

where?

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land reclaimed is generally level and of a sandy loam nature, requiring at least 1 inch per-acre for proper irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest whatsoever in this project.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have lived in this area since 1923, and know the Owsley Canal project very well, have witnessed the pumps in operation and the production of crops.

(Signed)

E. E. Cope

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Dubois, County of Clark, State of Idaho, on this 28 day of March, A. GEO. N. CARTER

State Reclamation Engineer

February 25, 1960

Re: Water Rights in the name of
Owsley Canal Company

Mr. H. R. Harn,
Box 7,
Dubois, Idaho.

Dear Mr. Harn:

Upon your request of February 23rd for the Owsley Canal Company, we find, as taken from our records, the following list of decreed water rights and permit rights. In the case of Ernest Sauve, Plaintiff, vs. W. R. Abbott, et al, Defendants, dated November 1, 1930, by Charles C. Cavanah, U. S. District Judge, the following rights were decreed to the Owsley Canal Company out of Mud Lake:

Priority of March 9, 1911, for 1.6 c.f.s.
" " " April 15, 1912, for 80.8 c.f.s.
" " " December 2, 1916, for 72.6 c.f.s.
" " " May 1, 1921, for 25.0 c.f.s.
" " " August 11, 1924, for 75 c.f.s.

Total of 255.0 c.f.s.

In the above stated decree, we find from our abstract of decreed rights, the following water rights out of Mud Lake decreed to the following persons and now in the name of the Owsley Canal Company:

November 3, 1910 - 1.6 cfs decreed to Carl Nordstrom
November 14, 1912 - 2.68 cfs decreed to Clara Welchman
July 21, 1913 - 4.0 cfs decreed to James A. Melton
September 6, 1913 - 2.5 cfs decreed to N. A. & Mary L. England
October 18, 1913 - 3.0 cfs decreed to Henry Jemmett
December 15, 1913 - 1.6 cfs decreed to Mary A. Jemmett
June 1, 1915 - 1.0 cfs decreed to George E. Monroe
June 24, 1916 - 2.44 cfs decreed to William H. Miller
December 3, 1916 - 1.0 c.f.s. decreed to George E. Monroe
August 28, 1926 - 6.4 cfs decreed to Ernest Sauve

In the case of the Owsley Canal Company, a corporation, Plaintiff, vs. Ernest Bauerle, et al, Defendants, dated October 14, 1940, by C. J. Taylor, District Judge, the plaintiff was awarded an amount not exceeding in the aggregate the equivalent of 200 cubic feet per second flowing continuously during the irrigation season from May 1st to November 1st of each year, from all or any of the wells constructed, or to be constructed, under permits Nos. 17611, 17612, 17640 and 18378.

A water license was issued by the Department of Reclamation on Permit No. 17262 for 40 cubic feet of water with priority of January 25, 1930. No mention was made in the last above entitled case of water license No. 17262 in the name of Owsley Canal Company, with priority of January 25, 1930, for 40 cubic feet from North Lake and subterranean sources. The point of diversion from North Lake is in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$, Section 23, Township 7 North, Range 34 East, and evidently three artesian wells were drilled along the canal to Mud Lake: - no information as to the capacity of the wells.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-25285. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

/s/ Mark R. Kulp

State Reclamation Engineer

Recorded in Book of
Permits, at Page , 1961

G25285

We have checked our records in this office thoroughly and to the best of our belief, this is a complete list of all valid water rights in the name of the Owsley Canal Company. This list does not include the water being applied for under Permit No. G-25544, G-25546, G-25547, G-25548, G-25549, G-25550 and G-25551; also G-25545.

There will be no charge for this information. Copy of this letter is being furnished you in triplicate.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Application for Amendment

POINT OF DIVERSION

Permit No. G-25287

Comes now Hyrum L. Meservy
and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-25287.

That the point of diversion is described in said Permit as being located:

SE $\frac{1}{4}$ SE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 2, T 7 S - R 18 E., B.M.

That he now requests that the point of diversion be changed to a point located: Lot 1, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 2, T 7 S - R 18 E., B.M.

That the reason for desiring to make such change is as follows:

Upon further investigation, it is found these are the most feasible well sites.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Dietrich this 15 day of June, 1957

/s/ Hyrum L. Meservy

February 25, 1960

Re: Water Rights in the name of
Owsley Canal Company

Mr. E. A. Harn,
Box 7,
Dubois, Idaho.

Dear Mr. Harn:

Upon your request of February 23rd for the Owsley Canal Company, we find, as taken from our records, the following list of decreed water rights and permit rights. In the case of Ernest Sauve, Plaintiff, vs. W. W. Abbott, et al, Defendants, dated November 1, 1930, by Charles C. Cavanah, U. S. District Judge, the following rights were decreed to the Owsley Canal Company out of Mad Lake:

Priority of March 9, 1911, for 1.6 c.f.s.
" " April 15, 1912, for 80.8 c.f.s.
" " December 2, 1916, for 72.6 c.f.s.
" " May 1, 1921, for 25.0 c.f.s.
" " August 11, 1924, for 75 c.f.s.

Total of 255.0 c.f.s.

In the above stated decree, we find from our abstract of decreed rights, the following water rights out of Mad Lake decreed to the following persons and now in the name of the Owsley Canal Company:

November 3, 1910 - 1.6 cfs decreed to Carl Nordstrom
November 14, 1912 - 2.68 cfs decreed to Clara Walchman
July 21, 1913 - 4.0 cfs decreed to James A. Malton
September 6, 1913 - 2.5 cfs decreed to H. A. & Mary L. England
October 18, 1913 - 3.0 cfs decreed to Henry Jannett
December 15, 1913 - 1.6 cfs decreed to Mary A. Jannett
June 1, 1915 - 1.0 cfs decreed to George E. Monroe
June 24, 1916 - 2.44 cfs decreed to William H. Miller
December 3, 1916 - 1.0 cfs decreed to George E. Monroe
August 28, 1926 - 6.4 cfs decreed to Ernest Sauve

In the case of the Owsley Canal Company, a corporation, Plaintiff, vs. Ernest Sauve, et al, Defendants, dated October 14, 1940, by C. J. Taylor, District Judge, the plaintiff was awarded an amount not exceeding in the aggregate the equivalent of 200 cubic feet per second flowing continuously

during the irrigation season from May 1st to November 1st of each year, from all or any of the wells constructed, or to be constructed, under permits Nos. 17611, 17612, 17640 and 18378.

A water license was issued by the Department of Reclamation on Permit No. 17262 for 40 cubic feet of water with priority of January 25, 1930. No mention was made in the last above entitled case of water license No. 17262 in the name of Owsley Canal Company, with priority of January 25, 1930, for 40 cubic feet from North Lake and subterranean sources. The point of diversion from North Lake is in the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$, Section 23, Township 7 North, Range 34 East, and evidently three artesian wells were drilled along the canal to Mad Lake; - no information as to the capacity of the wells.

We have checked our records in this office thoroughly and to the best of our belief, this is a complete list of all valid water rights in the name of the Owsley Canal Company. This list does not include the water being applied for under Permit No. G-25544, G-25546, G-25547, G-25548, G-25549, G-25550 and G-25551; also G-25545.

There will be no charge for this information. Copy of this letter is being furnished you in triplicate.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit Nos. G-25545, G-25546, G-25547
G-25550, G-25551
Owsley Canal Company

Mr. H. R. Harn,
Dubois, Idaho.

Dear Mr. Harn:

We are in receipt of your letter of February 23rd and enclosures. We are sending you a copy of a letter and notice for checking purposes, which is being forwarded as of this date to the Rigby Star, Rigby, Idaho, for publication purposes, in regard to the above numbered permits.

Each of the above numbered permits is being amended according to the amendments sent to this Department, amending the land list that you furnished us.

We are also sending you six sets of forms for making proofs of completion of works and beneficial use, together with our form letter and instructions.

You will be billed for the statutory expense in connection with your proofs after examination has been made by our field engineer, which will be some time next spring or summer.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G-25545; G-25546; G-25547
G-25550; G-25551
Owsley Canal Company

Mr. H. R. Harn,
Dubois, Idaho.

Dear Mr. Harn:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25545, G-25546, G-25547, G-25550 & G-25551, in the name of Owsley Canal Company. Final Proof is to be made before you, as Notary on the 28th day of March, 1960, ~~1960~~ at 9:00 o'clock A.M., at Dubois, Idaho.

As of this date we have mailed the Notice to the Rigby Star with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

- - - - -

Notice is hereby given that at 9:00 A.M., on the 28th day of March, 1960, at Dubois, County of Clark, State of Idaho, before H. R. Harn, Notary Public, at Dubois, Idaho, proof will be submitted of the completion of works for the diversion of 100 cubic feet per second of underground water from wells, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit Nos. G-25545, G-25546, G-25547, G-25550, and G-25551, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of corporation holding said permits is Owsley Canal Company, a corporation, Terreton, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 100 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 100 cubic feet per second.

4. The points of diversion of said water are: SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18; SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19, and the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 19; and the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 19; all in Twp. 7 N., Rge. 35 E.B.M.

5. The place where said water is used is S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 32; S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 33; Twp. 7 N., Rge. 34 E.B.M.; NW $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 3; all of Secs. 4 & 5; E $\frac{1}{2}$, Sec. 7; all of Secs. 8, 9 & 10; S $\frac{1}{2}$, Sec. 11; SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 12; all of Sec. 13; NE $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 14; NW $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 15; all of Sections 16, 17, 20, 21, 22, 23, 24, 25, 26, 27, 28, and 29; N $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 34; all of Sec. 35; all in Twp. 6 N., Rge. 34 E.B.M.; W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 8; W $\frac{1}{2}$, Sec. 17; all of Secs. 18 & 19; NE $\frac{1}{4}$, W $\frac{1}{2}$, Sec. 20; W $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 29; N $\frac{1}{2}$, Sec. 30; all in Twp. 6 N., Rge. 35 E.B.M., all in Jefferson County, Idaho.

6. The date of priority which said user is prepared to establish is September 3, 1954.

Re: Permit No. G-25544 - 25545 - 25546
25547 - 25548 - 25549
25550 - 25551

Date: Jan. 1, 1960

Mrs. Merrill Jemmett, Secretary
Owsley Canal Company
Teton, Idaho

Dear Mrs. Jemmett:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-~~see above~~ are due not later than March 28, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

GEO. N. CARTER
State Reclamation Engineer

Enclosures Forms 36 - 11 - instructions

P. S. This could be advertised in one ad, all eight permits, if the points of diversion were shown for each well and the land list is identical.

~~2320~~ - ~~2321~~

Date: June 1, 1930

Mrs. Merrill Bennett, Secretary
Crescent Canal Company
Boise, Idaho

Dear Mrs. Bennett:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-~~2314~~ ~~2315~~ ~~2316~~ are due not later than March 31, 1930.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

Geo. N. Carter

GEO. N. CARTER
State Reclamation Engineer

Forms 36 - 11 - Instructions
Enclosures

• This could be a variance in the ad, all right, provided, if the points of diversion were shown for each well and the land list is identical.

Mrs. Merrill Jemmett, Secretary
Owsley Canal Company
Terreton, Idaho

Dear Mrs. Jemmett:

Enclosed is a copy of Extension Bulletin No. 170
"Farm Water Measurement" of the University of Idaho - College
of Agriculture.

This bulletin has information on submerged orifices
on pages 22 and 23.

A free flow orifice (not submerged) uses the same
formula from which Table 10 was computed with Head "H" measured
from the water surface to the center of the orifice.

Adjustable orifices generally are manufactured devices
and have charts supplied by the manufacturer.

Very truly yours,

Mark R. Kulp
State Reclamation Engineer

RECEIVED
MAY 8 1957
Department of Reclamation

Dear Sir:

We would like to obtain a
Chart for measuring water through
an orifice and would like to
know if your office could tell
us where to inquire if you do
not have one. We would
appreciate your sending us
a chart or any information you
might have. Thank you.

Yours truly,

Mrs. Merrill Jemmett
