APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. G-24845 Comes now JOE T. WADSWORTH and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-24845. That the point of diversion is described in said Permit as being located NE¹/₄ NW¹/₄ Section 18, Township 8 North, Range 34 East B.M. That he now requests that an additional point of diversion be added also in the NE¹/₄ NW¹/₄ Sec. 18, Township 8 North, Range 34 East B.M. That his reasons for desiring to make such change are as follows: A sufficient amount of water could not be developed from the one well. That no one will be injured by such change, and that such change will be made at Permit Holder's own risk. Signed at Boise, Idaho, this 10th day of May 1954. JOE T. WADSWORTH Date of receipt at Department of Reclamation May 10, 1954. APPROVAL OF STATE RECLAMATION ENGINEER I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-24845. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby. Dear Mr. Thomas:

The only filing we have found that is appurtenant to the land described in your letter of March 15, 1972, is listed in the name of Joe T. Wadsworth. This is a licensed right for 155 acres in the NW $\frac{1}{4}$ of Section 18, Township 8 North, Range 34 East, Boise Meridian. The amount of water licensed is 3.1 cubic feet per second, with a priority of April 2, 1954.

The license is in good standing and requires no further attention by the present owner. We are sure this is the right you are referring to.

If we can be of any further assistance in reference to this matter, please do not hesitate to contact this Department.

Dear Mr. Wadsworth:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use on Permit No. G-24845. The proofs are to be made at 8:00 A. M. on the 20th day of April, 1959, before Garnet Lewis, Notary Public, at Montevieu, Idaho.

You will note that we have changed the date for making final proof to April 20, 1959 for the reason that it is a statutory requirement that the Notice be published for four consecutive weeks prior to the date for final proof. Your Notice was not received in this department until the 18th of March, 1959, therefore we advanced the date to allow for the necessary publications. We hope this meets with your approval.

As of this date we have mailed the notice to the Rigby Star, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, at the place, on the date, and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that the Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

RE: Permit No. G-24845

Date February 1, 1959

Joe T. Wadsworth
Montevieu
Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-24845 are due not later than April 2, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper will will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Dear Mr. Wadsworth:

We again return your application for Permit to Appropriate water from a well in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 18, Township 8 North, Range 34 East B. M., for the reason that you have not indicated on the sketch map the land to be irrigated as requested in our letter of March 20.

Question 12 seems to describe land in each of the sixteen, forty acre tracts in Section 18, but we think you intended to describe only the land in the NW $\frac{1}{4}$ of the section.

As mentioned in our letter of March 20, these sketch maps should be submitted in duplicate and should show distinctly by cross-hatching or coloring, the location of the land to be irrigated.

Dear Mr. Wadsworth:

We have your application for permit to appropriate 160 inches of water from a well in the NE¹/₄ NW¹/₄ Section 18, Twp. 8 N., Range 34 E., B. M., accompanied by money order for \$5.00.

However, you failed to enclose the two sketch maps showing the land to be irrigated and the location of the well. In case you have misplaced the forms for these maps previously sent you, we are enclosing others.

The correct filing fee on 160 inches is \$5.75 being at the rate of \$5.00 for the first 50 inches and 25¢ for each additional 50 inches or fraction thereof. There is therefore, a balance of 75¢ ~~due~~ to complete this filing fee.

Dear Mr. Wadsworth:

We return your application for permit to appropriate subterranean water with the request that it be resubmitted on the form which we have partially filled out and which should be completed as follows:

1. Question 2 claims 80 inches of water but your sketch map would indicate that it is to be used on 160 acres which would allow a maximum of 160 inches if your well will develop that much.

2. Question 4 should give the locations of the wells to a 40 acre subdivision, which we assume from the sketch map is the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 18, Township 8 North, Range 34 East B.M.

3. Question 10 should give the length of time required to complete your works and apply to the irrigation of the land.

4. Question 12 should give the acres to be irrigated in each 40 acre subdivision.

5. Answer Question 13.

A filing fee should accompany the application at the rate of \$5.00 for the first second foot (50 inches or fraction) and twenty-five cents for each additional 50 inches or fraction thereof.
