Boise, Idaho

Dear Mr. Kulp:

In connection with the above numbered Permit, we enclose herewith the Deposition of M. M. Owsley, holder of the permit, and of Ralph L. Albaugh and Frank S. Jackett, witnesses, for filing.

I telephoned The Rigby Star this morning, and they said they had published the notice, but had not yet sent out the Proof of Publication, so I requested that they mail it direct to you today. If you do not receive this from the newspaper within a few days, please advise me.

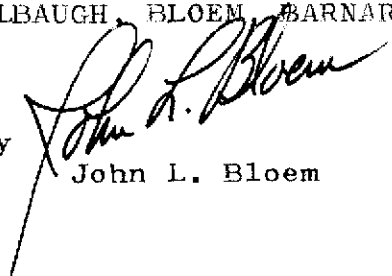

We have no record of any action taken by you on an Application for Permit for Mr. Owsley, which was mailed to you of November 27th. This application was, actually, for a Permit to appropriate waters supplemental to the waters under the above numbered permit; accordingly, if the new permit is issued, we will be in a position to submit Proof of Completion of Works and Application of Water to Beneficial Use immediately.

Mr. Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

Dear Mr. Kulp:

M. M. Owsley the holder of the above numbered permit has been in to see me about amending said permit. He wishes to eliminate from the land to be irrigated the NE $\frac{1}{4}$ and the E $\frac{1}{2}$ of the NW $\frac{1}{4}$ of Section 13, Township 6 North, Range 34 E.B.M. and to include in lieu thereof the E $\frac{1}{2}$ of the W $\frac{1}{2}$ of Section 12, said township and range; the SW $\frac{1}{4}$ of the SW $\frac{1}{4}$ and all that part of Lots 4 and 6 lying South of the government canal in Section 5, and all that part of Lot 3 and the SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 6, lying South of said government canal in Township 6 North, Range 35 E.B.M.

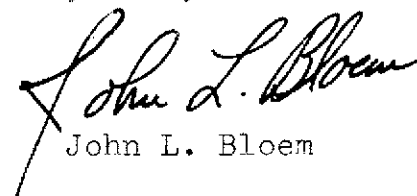

Will you kindly send me the forms for the amendment of this permit to make these changes.

Mr. Owsley also advised me that he says he can develop approximately 160 inches of additional water from the same point of diversion and would like to apply this 160 inches to the irrigation of the SE $\frac{1}{4}$ of Section 12, Township 6 North, Range 34. I advised Mr. Owsley that I thought you would require a new filing for this additional 160 inches but told him I would write to see if you would allow this as an amendment to his old permit. Please advise me on this and if a new application is required send me the necessary forms.

After this permit has been amended Mr. Owsley will be in position to make final proof of completion of works and application of water to beneficial use. Will you please send me your form of notice to be used in making such proof.

Very truly yours,

ALBAUGH, BLOEM, BARNARD & SMITH
