Dear Mr. Wilson:

Our customer, Sidney Ashcraft, has discussed with West One Bank, Rexburg, a transfer of water to other irrigation uses on the property with the legal description attached.

Mr. Ashcraft is desirous of abandoning this well and drilling two new wells and putting pivot systems on the property. We agree with his plan and ask that you provide whatever assistance to help our borrower accomplish this goal.

Sincerely,

David L. Pincock

DEPARTMENT OF RECLAMATION

TRANSFER OF WATER RIGHT
TRANSFERRED RIGHT NO. 1083

THIS IS TO CERTIFY, That J. Thomas Williams, of Hamer, Idaho, is the owner of and using a certain water right of 5.4 cubic feet per second of the waters of subterranean flow, said water being obtained by virtue of License No. G-24677, issued by the State of Idaho, Department of Reclamation, dated April 7, 1960, bearing priority date of January 14, 1954, for the purpose of irrigating 300 acres of land situate, lying and being in the County of Jefferson, State of Idaho, to-wit:

NW $\frac{1}{4}$ SE $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, Section 1;
SE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 11; NW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$,
W $\frac{1}{2}$ W $\frac{1}{2}$, Section 12, all in Township
6 North, Range 35 E.B.M.,

That said license has been entered in the records of the Department of Reclamation of the State of Idaho in Volume 11 at Page 6881;

And that now, upon the application of J. Thomas Williams, the right to the use of 5.4 cubic feet per second of the waters of subterranean source by well upon the above described lands is hereby abandoned, and the place of use of said water under such right shall by this Certificate become appurtenant for irrigation purposes, is described as follows, to-wit:

300 acres of land within the SE $\frac{1}{4}$,
SW $\frac{1}{4}$, NW $\frac{1}{4}$, Section 1, E $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$,
Section 2; SE $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$,
Section 12, all in Township 6

This transfer did more than add points of diversion to the above listed water rights. The transfer application also removes the overlapping portions of the two rights, listing only the place of use and the rate of diversion for the on the non overlapping parts. The transfer is somewhat difficult to review but I believe that the transfer is correct as prepared.

Right 31-2331 for irrigation of 300 acres is not reduced, however, The rate of 5.4 cfs originally listed on the license is reduced to 4.67 cfs. Right 31-2454A was reduced from 507 acres to 47 acres. The rate for right 31-2454A is now 0.73 cfs rather than 3.40 cfs.

The condition R17 listed on Tim's memo is not necessary since the total of the two rights are not greater than 5.4 cfs.

TRANSFER NO. 3695

The right identified under this transfer is owned by the same party identified under Transfer No. 3655 and both transfers should be reviewed together to get a proper perspective on how all of the identified rights fit together.

MEMORANDUM

TO: FILE

FROM: TIM LUKE

DATE: May 15, 1990

RE: TRANSFER APPLICATION NO. 3655/LICENSE NO.S 31-2331 & 31-2454A

=====

This transfer seeks to change place of use and point of diversion descriptions, and add points of diversions to the licenses above. The applicant has noted that the transfer has been made in order to validate past changes and reflect the correct present place of use and points of diversion etc. A past transfer on license 31-2331 resulted in an incomplete place of use description for that right.

Upon my review of the files, I agree with the analysis provided by Keith Wilson and recommend that approval of the transfer be conditioned so that no more than 5.4 cfs can be diverted when license no.s 31-2331 and 31-2454A are combined. There appears to be no expansion of use as a result of the transfer. Changes concerning place of use and points of diversion descriptions should be made as provided on page 1 of the transfer.

Conditions of approval:

~~<<R17>>~~ The maximum combined rate of diversion under Right No(s). 31-02331 & 31-02454A shall not exceed 5.40 cfs.

Right no.s 31-02331 & 31-02454A when combined with all other rights shall provide no more than 3.0 afa per acre for the lands above.

<<T02>> The director retains jurisdiction of this transfer up to five (5) years for the purpose of determining potential injury to existing rights, both junior and senior, in the vicinity of the transferred point of diversion.

Note: Upon review of license file no. 31-2454, it appears that a previous transfer concerning 31-2454B had not been recorded in the water rights database. The attached water rights number index summary sheet contains the appropriate updates.

Dear Sir:

This office is currently in the process of publishing notice that the above applications for transfer were filed with the Department of Water Resources. Since the application may be of interest to you, a copy is enclosed for your examination. Comments concerning the applications should be addressed to the applicant with a copy forwarded to this office. Protests objecting to granting a permit should be directed to this Department and received as soon as possible. Action will be taken by this office shortly, provided there are no protests lodged against the applications.

Respectfully submitted,

RE: Transfer Application No.'s 31-02331, 31-02454A
31-02402

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your applications. Please refer to the application numbers above in all further correspondence.

This office is currently in the process of advertising the applications in the Jefferson Star. The advertisements will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before final action is taken. If the protest is not resolved by the involved parties this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. Department personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When final processing of the application is complete, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Water Rights Supervisor

Re: Permits G-32745, G-24677, G-30786, G-29254
Darrell Williams and J. Thomas Williams

John M. Corless, Manager
Federal Land Bank Association
of Idaho Falls
P. O. Box 30
Idaho Falls, Idaho 83401

Dear Mr. Corless:

In answer to your September 10, 1968, request as to status of three wells in the name of Darrell Williams and J. Thomas Williams, be advised that the Department records show the followings:

G-32745 is pending a field examination by the Department. Permit Holder Darrell Williams intends to establish a February 21, 1966, priority for use of 6.4 cubic feet per second from a well located within the NW 1/4, Sec. 12, T. 6 N, R. 35 E, B.M. The water is to be used for the irrigation of 320 acres in the SW 1/4, NE 1/4, S 1/4, SE 1/4, T. 6 N, R. 35 E, B.M. The inspection and license issuance are anticipated to be completed during the 1969 irrigation season.

Permit G-24677 is licensed (#6881) and transferred according to Transfer #1063. It shows a priority date of January 14, 1954, for the diversion of 5.4 c.f.s. from a well within the NE 1/4, Sec. 1, T. 6 N, R. 35 E, B.M. It is for the irrigation of 300 acres within the SE 1/4, Sec. 1; E 1/4, Sec. 2; SE 1/4, NE 1/4, NE 1/4, Sec. 12, all in T. 6 N, R. 35 E, B.M. and SE 1/4, SW 1/4, Sec. 36, T. 7 N, R. 35 E, B.M.

Permit G-30786 is pending the review of the field examiner's report. This permit intends to establish a right for the diversion of 6.4 c.f.s. from two wells within the NE 1/4, Sec. 1, T. 6 N, R. 35 E, B.M. The water is to be used for irrigation of land within the NE 1/4, S 1/4, SE 1/4, Sec. 1; SE 1/4, Sec. 2; NE 1/4, Sec. 12, T. 6 N, R. 35 E, B.M. The priority to be established under this permit is November 1, 1962. Land irrigated also includes NW 1/4, Sec. 12, T. 6 N, R. 35 E, B.M.

November 20, 1960

Permit G-29254 is also pending the review of the field examiner's report as well as the preparation of the license fee letter. Priority intended is December 20, 1960. It is for 5.4 c.f.s. from two wells within the NE 1/4, Sec. 1, T. 5 N, R. 35 E, B.M. and is for irrigation of 570 acres within the SE 1/4, Sec. 1; SE 1/4, NE 1/4, Sec. 2; SE 1/4, NE 1/4, NE 1/4, Sec. 12, T. 6 N, R. 35 E, B.M. and SE 1/4, SW 1/4, Sec. 36, T. 7 N, R. 35 E, B.M. This permit will be supplemental to G-24677 making a total of 570 acres.

Tentatively the Department is preparing to license the last two permits, G-29254 and G-30786, which will be supplemental to License G-24677, for a quantity of 0.25 c.f.s. from the two wells within the NE 1/4, Sec. 1, T. 6 N, R. 35 E, B.M. for the irrigation of 507 acres within the SE 1/4, SW 1/4, Sec. 36, T. 7 N, R. 35 E, B.M. and W 1/2, SE 1/4, Sec. 1; SE 1/4, NE 1/4, SE 1/4, Sec. 2; NE 1/4, NE 1/4, Sec. 12, T. 6 N, R. 35 E, B.M.

Be advised further that the irrigation requirement for the land above listed is 3.0 acre feet per acre per season. A limitation upon the licenses will be to the effect that the quantity diverted shall not exceed 1761 acre feet per season when used in conjunction with the other rights appurtenant to the above stated land list.

Issuance of the pending license fee letters is anticipated within the next thirty days.

Very truly yours,

Re: Permits G-29254, G-30786, G-24677,
& G-32745 (J. Thomas & Darrell T. Williams)

Grant L. Young
Attorney At Law
Rigby, Idaho 83442

Dear Mr. Young:

In order to clarify the above referenced permits per your request of January 8, 1968, the following actions have been set down:

- 1: G-29254 -- Amend the point of diversion to include both (or two) points of diversion in NEMSEK, Sec. 1, T. 6 N, R. 35 E, B.M., Jefferson County. Sign the amendment form and submit a \$5.00 application fee. Sign the Form 11, authorization to publish.
- 2: G-30786 -- Amend the point of diversion to include both (or two) points of diversion in NEMSEK, Sec. 1, T. 6 N, R. 35 E, B.M., Jefferson County. Amend the land list to read: NEMSWK, SWSWK, SEK, Sec. 1; SESEK, Sec. 2; NYNEM, NEMNWK, Sec. 12, T. 6 N, R. 35 E, B.M. (The balance of the acreage could be recorded in our office by use of the enclosed claim form.) Sign the amendment form and submit a \$5.00 application fee. Follow instructions on Form 36A to complete Forms 36 and 11.
- 3: G-32745 -- The permit cannot be enlarged upon; however, it is possible that the SEKNEK and the SWSWK, Sec. 12, T. 6 N, R. 35 E, B.M. can be included within the land list of Permit G-32745 if Mr. Darrell T. Williams will delete two other subdivisions; or, complete the enclosed land description by 40-acre subdivisions, giving the total acreage per subdivision, the total not to exceed 320 acres. Sign the amendment form, entering the preferred land list and submit a \$5.00 application fee. Follow instructions on Form 36A to complete Forms 36 and 11.

Re: Various Permits
J. Thomas Williams, Sr.
Hamer, Idaho

Dear Mr. Barnett:

There has been considerable confusion concerning certain permits of Mr. J. Thomas Williams, Sr.

First of all, please find enclosed herewith a check in the amount of \$45.00 in payment of Permit No. G-29254.

In making final proof on Permit No. G-30786 as scheduled for December 18, 1967, before Earl E. Hansen, Notary Public, it was learned that an amendment was necessary. Permit No. G-30786 should be supplemental to Permit No. G-24677 and Permit No. G-29254. Mr. Williams would like to take the necessary steps to abandon any claim for making beneficial use of water to the land described in Permit No. G-30786 and to make the entire amount of water in question supplemental to Permit No. G-24677 and Permit No. G-29254. This would involve exactly the same land with one exception. The SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 12, T. 6 North, Range 35 EBM should be deleted from all of the land covered by Permits G-24677, G-29254 and G-30786 and included only in Permit No. G-32745.

An amendment on Permit No. G-32745 should be made to include the SE $\frac{1}{4}$ NE $\frac{1}{4}$ and SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 12, T. 6 North, Range 35 EBM.

It is understood that Permit No. G-32745 is actually in

24677
31-2331

January 8, 1968

Darrel Williams' name. It would be appreciated, however, if you would send the necessary forms so that this amendment could be made by Mr. Darrell Williams.

I am enclosing a map which will help to clarify the land that should be covered by Permit Nos. G-24677, G-29254 and G-30786 and a map which will show the land to be covered by Permit No. G-32745.

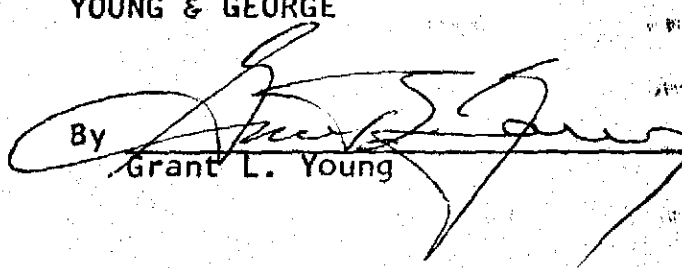

Would you send the necessary forms to this office to make application for these corrections. I have advised Mr. Williams that it would be pointless to proceed on final proof on Permit No. G-30786 when the water has actually been used elsewhere.

We hope that this can be accomplished without Mr. Williams losing his priority right on Permit No. G-30786.

Yours very truly,

YOUNG & GEORGE

Dear Mr. Young:

We are in receipt of your letter of October 16, 1967, on the above referenced permits. Pursuant to your request, we have reviewed the folders on both permits and have the following conclusions:

Permit No. G-24677: Our letter dated November 8, 1966, and our letter dated July 12, 1967, are completely in error as the fees in question were submitted at an earlier date and this permit is licensed. Therefore, the \$31.00 requested in these letters is not required.

Permit No. G-29254: The fee letter of November 8, 1966, and our follow-up letter of July 12, 1967, are correct. Currently statutory fees totaling \$45.00 are required in order that the licensing and certificate of completion of works be completed.

It has also been determined that our pre-cancellation order of September 25, 1967, is accurate. Therefore, we are returning Mr. Williams' personal check in the amount of \$76.00 which we request that he replace with a check in the amount of \$45.00 so that we may issue the license under this permit.

Please forgive the inconvenience caused by our oversights. We appreciate your assistance in this matter.

Very truly yours,

Gentlemen:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-24677 shows the well(8) is (288) capable of conveying 270 miner's inches, or 5.4 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 31.00 , we will issue the Certificate of Completion of Works for 5.4 c.f.s. and the License and Certificate of Water Right for 5.4 c.f.s. confirming the right, with priority of January 22, 1954 , to the use of subterranean water with the point of diversion in NE1/4, Sec. 1 for irrigation of 300 acres in E1/4SW1/4, W1/4SE1/4, SE1/4SE1/4, Sec. 1; SE1/4NE1/4, Sec. 11; N1/4NE1/4, SE1/4NE1/4, W1/4NW1/4, W1/4SW1/4, Sec. 12, T. 6 N, R. 35 E, B.M.

RE: License No. G-24677
Permit No. G-29254, G-30786 and G-32745

Mr. J. Thomas Williams
Hamer, Idaho

Dear Mr. Williams:

Our field examiner was out to examine your permit G-29254 and he finds there are several discrepancies on this permit as well as your licensed permit G-24677.

Inasmuch as both the licensed permit and permit G-29254 are being used on land other than that covered by either you will have to correct both of them before a license can be issued for permit No. G-29254.

Permit G-29254 is for irrigation of lands in Section 12 and Darrell has a permit G-32745 covering the same land with a new point of diversion. Therefore, before final proof on G-29254 can be accepted you will have to amend the land list.

We have filled out an amendment form to show you what is required to make your land list agree with the actual place of beneficial use. Also since this permit is in Darrell's name it should be assigned to you. We have filled out an assignment form and there is a \$.50 cent recording fee.

License No. G-24677 is being used on land other than that listed on the license, therefore, we have partially filled out a transfer on this license indicating the necessary information to get the license on the ground where it is being used. Some of the spaces marked in red still require some information from you. This transfer will have to be advertised for two weeks at your expense. Upon receipt of the transfer we will have it published and send you instructions on getting the affidavit of publication and for the fees involved.

We are enclosing new forms 36 and 11 in order that you can authorize the publication of Permit No. G-29254 and set a new date for taking proofs.

24677

After you take new proofs we can issue a license on Permit G-29254 for 5.4 cubic feet per second. Since your license G-24677 is for 5.4 c.f.s. this will leave only .85 cubic feet per second for use on Permit G-30786.

When you have completed the attached forms, please return them promptly to this office in order that we can re-publish permit No. G-29254 and you can take new proofs and obtain a license for this permit.

If we can be of further assistance in this matter please contact our office.

Dear Mr. Williams:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use, under Permit No. G-24677. The proofs are to be made at 10:00 A. M. on the 24th day of February, 1959, before George M. Larsen, Notary Public, at Rigby, Idaho.

As of this date we have mailed the Notice to the Rigby Star, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holders and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions, to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Mr. Williams:

We acknowledge receipt of your letter of November 15th in regard to the two copies of this Amendment which was made out the day you were in the office.

We inadvertently sent the two copies to the Idaho District Land Office rather than to the Utah Mortgage and Loan of Logan, Utah.

Upon receipt of your letter this morning we called the Idaho Land Office and they told us they had received the copies of the Amendment and since they were not for their office they had mailed them on to you about one week ago.

We sincerely regret any inconvenience that we may have caused you but trust by this time that the copies of the Amendment has reached you. If not kindly let us know.

Dear Miss Barrett:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24170, to be made on the 26th day of May at 4:00 P.M. before J. Henry Thompson, Notary Public.

As of this date we have mailed the Notice to the Burley Herald-Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the Permit and the work done thereunder, at the time, on the date, at the place and before the Notary as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions (Holder and two Witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Idaho

Dear Mr. Williams:

We have your letter of July 5 and note that you wish to make proof on your Permit No. G-24677. If the works are completed and the land irrigated, this proof may be made at this time but unless the land is irrigated, we suggest that you defer making the proof, as when a license is issued, it can only be for the number of acres which have been irrigated.

In order to make the proof the law requires publication once a week for four weeks in a county newspaper. The notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made.

The proof may be made at any place convenient for you and your two witnesses and the date must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

RE: License No. G-24677 ✓
Permit No. G-29254, G-30786 and G-32745 ✓

Mr. J. Thomas Williams
Hamer, Idaho

Dear Mr. Williams:

Our field examiner was out to examine your permit G-29254 and he finds there are several discrepancies on this permit as well as your licensed permit G-24677.

Inasmuch as both the licensed permit and permit G-29254 are being used on land other than that covered by either you will have to correct both of them before a license can be issued for permit No. G-29254.

Permit G-29254 is for irrigation of lands in Section 12 and Darrell has a permit G-32745 covering the same land with a new point of diversion. Therefore, before final proof on G-29254 can be accepted you will have to amend the land list.

We have filled out an amendment form to show you what is required to make your land list agree with the actual place of beneficial use. Also since this permit is in Darrell's name it should be assigned to you. We have filled out an assignment form and there is a \$.50 cent recording fee.

License No. G-24677 is being used on land other than that listed on the license, therefore, we have partially filled out a transfer on this license indicating the necessary information to get the license on the ground where it is being used. Some of the spaces marked in red still require some information from you. This transfer will have to be advertised for two weeks at your expense. Upon receipt of the transfer we will have it published and send you instructions on getting the affidavit of publication and for the fees involved.

We are enclosing new forms 36 and 11 in order that you can authorize the publication of Permit No. G-29254 and set a new date for taking proofs.

T-1083
31-2331

page -2-

After you take new proofs we can issue a license on Permit G-29254 for 5.4 cubic feet per second. Since your license G-24677 is for 5.4 c.f.s. this will leave only .85 cubic feet per second for use on Permit G-30786.

When you have completed the attached forms, please return them promptly to this office in order that we can re-publish permit No. G-29254 and you can take new proofs and obtain a license for this permit.

If we can be of further assistance in this matter please contact our office.

Re: License No. G-24677, Williams - 6881

Gentlemen:

Included in this License there is provided certain lands that are being irrigated, and located in the $E\frac{1}{2}E\frac{1}{2}$ of Section 11, and $W\frac{1}{2}W\frac{1}{2}$ of Section 12, Township 6 North, Range 35 East Boise Meridian, Jefferson County, Idaho.

6-31638
Under Permit No. G-31638, Heber C. Williams, a new well has been developed which will irrigate almost all of the above described lands.

License No. G-24677 probably stands in the name of Scott L. Williams, but the property now stands in the name of Heber C. Williams.

It is the desire of Heber C. Williams to release the water under this license to J. Thomas Williams et al, who will use it on other lands, it being the desire of this letter to ascertain just what procedure is necessary to accomplish this purpose.

When replying, please send the necessary forms to process this transfer.

Yours very truly,

H. R. Harn
