Ogden, Utah

Dear Mr. Blakeslee:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the Clark County Enterprise-Banner, all in connection with Beneficial Use proof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made an engineer from this Department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, field engineer for the Department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

When the engineer's report is filed, you will be notified of the amount due for Beneficial Use proof. Upon receipt of your check, a license will be issued.

Very truly yours,
E. V. BERG.

PROOF OF BENEFICIAL USE OF WATER

June 20, 1941

Re: 18500

Boise, Idaho,

Mr. H. A. Harn
Dubois, Idaho

Dear Sir:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 18500

Deposition of Permit Holder,
Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On June 30, 1941, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at

Dubois, Idaho before H. A. Harn, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

E. V. BERG
Commissioner of Reclamation.

Dear Mr. Blakeslee: Water Resources, Targee National
Stoddard Creek Campground.

This will acknowledge receipt of notice in duplicate for publication in connection with proof of Beneficial Use and your authorization to have the notice published in the Clark County Enterprise-Banner of Dubois, Idaho, all in connection with Permit No. 18500.

A copy of the notice has been sent to the newspaper with instructions to publish it once a week for four consecutive weeks prior to June 30, 1941. We changed the priority date from June 1939 to August 14, 1937. We were too late to reach this week's publication, which is on Thurs., so the first publication will appear on the 29th of May. We took the liberty to change the date of your first publication to the 29th and the last to June 19th on the notice to Water Users, which we enclosed with the notice for publication.

On the 20th of June, depositions, consisting of one for the holder and one for each of two witnesses, will be sent to Harry Harn at Dubois, Idaho, so that he will have them in ample time for proof.

On the 30th, some one in authority to make proof should appear at Mr. Harn's office, with two witnesses, who are familiar with the terms of the permit and the works constructed thereunder for the purpose of executing the depositions.

Very truly yours,

E. V. BERG.

Completion of Works proof and
Beneficial Use proof.

Dear Mr. Woods:

It is not necessary to publish for Completion of Works proof if the amount of water is 5.4 second feet or less, which is proven by your signing form No. 6 before a Notary Public. Please forward this form to our office with the \$5.00 fee and a Certificate of Completion of Works will be issued to you.

Intention to make Beneficial Use proof must be published on all permits regardless of the amount of water applied for in the application. Fill out and sign forms numbers 10 and 11 and return to this office as per instructions in our letter of the 31st.

Beneficial Use forms (Nos. 16 & 17) will be mailed to the Notary Public (selected by yourself) ten days before date set for proof, which you will sign on the designated date and return to this office along with the Affidavit of publication.

We are inclosing copies of forms (mailed on the 31st), which are used in making Completion of Works proof and intention for Beneficial Use proof.

Dear Mr. Berg:

Reference is made to your letter of January 31.

In preparing the affidavits which were enclosed in your letter it is noted that you included two copies of Form No. 10 and one of Form No. 11 for the authorization of publication in a local newspaper in the county in which the point of issuance is situated.

The Water Laws of the State of Idaho, Section 41 - 808, Proof of Completion, state that on all permits claiming 6.4 ft. of water or less the permit holder may make such Proof of Completion without publication of notice by filing with the Department an affidavit setting forth information pertaining to the ownership and use of the water.

This office would appreciate being informed whether we are correct in assuming that it is not necessary to advertise applications where a very small amount of water is being appropriated. Also, please send us any additional forms which we will need to file in making proof of beneficial use other than the ones already forwarded.

We are assuming that the only instruments necessary to make proof of beneficial use are the Proof of Completion of Work, the deposition of holder, and two depositions of disinterested witnesses.

Very truly yours,

C. N. WOODS, Regional Forester

Attention- Mr. W. B. Rice

Dear Sir:

We are in receipt of your letter of January 30th, and note that you are ready to make proofs of completion of works and beneficial use under your Permit No. 18500.

Proof of completion of works can be made on Form No. 6, enclosed, which should be executed before a Notary Public, and upon its return to this office, together with the statutory fee of \$5.00, a Certificate of Completion of Works will be issued.

The law requires that notice of intention to make beneficial use proof shall be published once a week for four consecutive weeks, prior to the date set for proof, in a newspaper published in the county where the water is diverted.

We are enclosing two copies of Form No. 10, which should be made out in duplicate, giving the necessary information, including the time and place, and the name of the Notary Public, or other officer authorized by law to administer oaths, before whom the proof will be made.

Duplicate copies of this notice, together with one copy of Form No. 11, authorizing publication in a newspaper designated by you, should be returned to this department; and upon receipt, we shall send one copy of the notice to the newspaper, with instructions in regard to publishing same. Be sure to set the date sufficiently far ahead to allow for the necessary four weeks' publication.

On the date set for proof, the permit holder and two disinterested witnesses should appear before the Notary Public, and execute the depositions on Forms Nos. 16 and 17, one of each of which is enclosed. These depositions, and also the affidavit of publication from the newspaper, should be transmitted to this department promptly after being taken, thus completing the beneficial use proof.

Under separate cover we are sending you additional copies of these several forms, as requested.

Dear Sir:

Under date of August 14th we received your application for a permit to appropriate water from two springs in Clark County for public use at the Stoddard Creek Camp Grounds.

All of the information which you supplied, with the exception of the applicant's name and address, was placed under "Remarks" on the third page of the application. I have therefore attempted to supply the information required on the face of the application.

I wish to call to your attention the fact that in your claim voucher, as well as in the application, you stated that Spring No. 2 would be located in the SW¹ NW¹ of Section 28; while your plats clearly indicate that it is located in the SW¹ NE¹ of Section 28. I have corrected the application accordingly.

Under paragraph 7 will you kindly give the estimated cost of this development.

When this information has been supplied, the application should be returned to this department.

I am also returning your claim voucher, which has been properly signed, for payment of the filing fee.
