Transfer No. 2303

Application No.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT
To Change the Point of Diversion and/or the Place of Use

APPROVED

Name of applicant JACKETT CANAL COMPANY Phone 523-0620

Post office address c/o HOLDEN, KIDWELL, HAHN & CRAPO, Box 129, Idaho Falls, Idaho

A. DESCRIPTION OF RIGHT AS RECORDED - See Attached Information

1. Right evidenced by:

- a. Decree to _____ (Name)
in case of _____ vs _____
dated _____ in _____ county of _____ (Name of court)
- b. License No. _____ issued by the Idaho Department of Water Resources
- c. Claim No. _____ on file with the Idaho Department of Water Resources

2. If applicant is not the original holder of this right, explain how it was acquired and attach a copy of the deed or other evidence of ownership of the land to which the right is appurtenant

3. Source of water _____ tributary to _____

4. Date of priority _____

5. Water is used for the following purposes:

amount _____ for _____ purposes from _____ to _____
amount _____ for _____ purposes from _____ to _____
amount _____ for _____ purposes from _____ to _____
(month/day - both dates inclusive)

6. Total amount of water under right: a. _____ cubic feet per second
&/or
b. _____ acre feet per annum

7. Location of original point of diversion is _____ 1/4 of _____ 1/4 of Section _____
Township _____ Range _____, B.M., in _____ County
Additional points of diversion, if any _____

8. Lands irrigated or place of use:

TWP.	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	

Total number of acres to be irrigated

RECORDED

JUL 7 1978

A. DESCRIPTION OF RIGHTS AS RECORDED:

Department of Water Resources
Eastern District Office

1. Rights evidenced by:

a. Decreed Rights:

- (1) Ernest Sauve, Plaintiff, vs. W. H. Abbott, et al, Defendants;
dated November 1, 1930; in the District Court of the United States for the District of Idaho, Eastern Division. Proceedings were held in Pocatello, Bannock County, Idaho, but the decree purports to allocate the waters of Mud Lake in Jefferson County, Idaho, and its tributaries. All lands irrigated through applicant's system are in Jefferson County. These rights were conveyed to applicant by an instrument entitled "Water Deed", dated May 1, 1956, recorded as Instrument No. 116320 in the records of Jefferson County, Idaho, on September 15, 1958; also in Book 55 of Water Deeds at page 309. A copy of this deed is attached hereto. The information for each such water right is listed as follows:

- | | | |
|-----|----------------------|--|
| (a) | Right No. - | 31-0134 (Page 47 of Decree, No. 70) |
| | Decreed to - | Los Angeles First National Bank and Trust Company (formerly First Nat'l Bank of Los Angeles), a corporation. |
| | Source - | Camas Creek, a tributary of Mud Lake. |
| | Priority Date - | March 20, 1911. |
| | Water Used For - | Irrigation |
| | Amount - | 3.5 cfs |
| | Point of Diversion - | In Lot 4, Section 4, Township 6 North, Range 35 East, B.M. |
| | Place of Use - | 7.38 acres in Lot 7, Section 32, Township 7 North, Range 35 East, B.M. 41. acres in Lot 4, Section 4; 41. acres in Lot 1, Section 4; 52.25 acres in Lot 2, Section 5; all in Township 6 North, Range 35 East, B.M. |
| (b) | Right No. - | 31-0135 (Page 47 of Decree, No. 70) |
| | Decreed to - | Los Angeles First Nat'l Bank and Trust Company (formerly First Nat'l Bank of Los Angeles), a corporation. |
| | Source - | Mud Lake |
| | Priority Date - | June 10, 1912 |
| | Water Used For - | Irrigation |
| | Amount - | 2.5 cfs |
| | Point of Diversion - | Near the Center of the Southwest Quarter of Section 5, Township 6 North, Range 35 East, B.M. |

- Place of Use - 320 acres as follows: 40 acres in the Northwest Quarter of the Northwest Quarter; 40 acres in the Northeast Quarter of the Northwest Quarter; 40 acres in the Southwest Quarter of the Northwest Quarter; 40 acres in the Southeast Quarter of the Northwest Quarter; 40 acres in the Northwest Quarter of the Northeast Quarter; 40 acres in the Southwest Quarter of the Northeast Quarter; 40 acres in the Northwest Quarter of the Southeast Quarter of the Southwest Quarter - all in Section 8, Township 6 North, Range 35 East B.M.
- (c) Right No. - 31-0143 (Page 49 of Decree, No. 75)
 Decreed to - Clarence O. McGill and G. B. Adams.
 Source - Camas Creek, a tributary of Mud Lake.
 Priority Date - March 29, 1911
 Water Used For - Irrigation
 Amount - 1.0 cfs
 Point of Diversion - In Lot 4, Section 3, Township 6 North, Range 35 East B.M.
 Place of Use - Lots 3⁴ and 4⁴, the Southwest Quarter of the Northwest Quarter; the Southwest Quarter of the Southwest Quarter, the Northeast Quarter of the Southwest Quarter, and the Northwest Quarter of the Southwest Quarter, all in Section 3, Township 6 North, Range 35 East, B.M.
- (d) Right No. - 31-0144 (Page 49 of Decree, No. 75)
 Decreed to - Clarence O. McGill and G.B. Adams
 Source - Camas Creek, a tributary of Mud Lake
 Priority Date - September 21, 1912.
 Water Used For - Irrigation
 Amount - 1.0 cfs
 Point of Diversion - Same as 31-0143.
 Place of Use - Same as 31-0143.
- (e) Right No. - 31-0190 (Page 60 of Decree, No. 99)
 Decreed to - Merritt M. Owsley
 Source - Camas Creek, a tributary of Mud Lake.
 Priority Date - October 14, 1913.
 Water Used For - Irrigation
 Amount - 5.9 cfs
 Point of Diversion - A point South 73.75° East 1222 feet from the Northwest Corner of Section 3, Township 6 North, Range 35 East, B.M.
 Place of Use - The Southwest Quarter, the West Half of the Southeast Quarter, and the West Half of the Northeast Quarter, of Section 9, Township 6 North, Range 35 East, B.M.

MICROFILMED

(2) The Owsley Canal Company, Plaintiff, vs. Ernest Bauerle, et al, Defendants; dated October 14, 1940; in the District Court of the Ninth Judicial District of the State of Idaho, In and For Jefferson County. These rights were conveyed to applicant by instrument entitled "Water Deed", dated December 20, 1956, recorded as Instrument No. 120684, in the records of Jefferson County, Idaho on December 11, 1959; also in Book 81 of Water Deeds, at Page 56. A copy of this deed is attached. By this deed, Independent Water Users of Mud Lake, Inc., conveyed to applicant:

"An undivided one-third (1/3) in and to all of the water and water rights and diversion works of every kind, nature and description owned by said First Party, or in which First Party has any interest and particularly, but not limited thereto, an undivided one-third (1/3) interest in and to the water rights evidenced by Idaho Water License No. 17690 and Idaho Water Permit No. 17763."

The Bauerle Decree recites that Independent Water Users of Mud Lake, Inc., is the owner of this license and permit and appears to confirm or decree the rights represented in both the license and the permit. Subsequently the Permit, No. 17763/31-2254 was canceled for failure to submit proof of beneficial use. However, water has been diverted and applied to beneficial use each year in reliance on this right and the applicant has always relied on the decree as evidence of the rights, rather than the license or permit. We are attaching a copy of a letter from Mr. Bobby D. Fleenor of the Department to Don Shenton, dated June 4, 1974, explaining that the permit was canceled because after the entry of the Decree there was no longer any need to prove up on the permit, and the filing was unnecessary. The rights under this decree are described as follows:

(a) Right No. - 31-0336 (License No. 17690/31-2253)
Decreed to - Independent Water Users of Mud Lake, Inc.
Source - Ground Water
Priority Date - April 27, 1932
Water Used For - Irrigation
Amount - Decree says 32.50 cubic feet per second, but combined with Right No. 31-0337 "an amount not exceeding in the aggregate the equivalent of 91.8 cubic feet per second, flowing continuously during the irrigation season from May 1 to November 1 of each year."
Point of Diversion - Northeast Quarter Northwest Quarter Section 3, Township 6 North, Range 35 E.B.M., Jefferson County.
Place of Use -

 Licensed To - Dennis Green
 Source - Ground Water
 Priority Date - April 25, 1953
 Water Used For - Irrigation
 Amount - 1.92 cfs
 Point of Diversion - Northwest Quarter Northeast Quarter Section 27, Township 7 North Range 35 E.B.M.
 Place of Use - 36 acres in Northeast Quarter South-west Quarter, 34 acres in North-east Quarter Southeast Quarter, 26 acres in Northwest Quarter Southeast Quarter all in Section 8, Township 6 North, Range 35 E.B.M.

All of the above described Licensed Rights were deeded to the Jackett Canal Company shortly after its organization in 1956. copies of all of the deeds are attached.

C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE:

1. Change in point of diversion:

- a. Amount of water to be diverted - the combination of all of the above described rights of the Jackett Canal Company amounts to 75 cubic feet per second. The decreed rights from Camas Creek are pumped out of Camas Creek at the points of diversion described below, so long as water is available to fill these rights. The seven wells maintained by the company are used only to the extent necessary to supplement the creek rights. Usually, this requires an increased use of the wells as the season progresses. Although the wells are usually operated to some extent from the time the irrigation season begins, in a sense, the wells are used as supplemental to the decreed rights from the creek.

b. Points of diversion -

- (1) Southwest Quarter Southwest Quarter, Section 13,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (2) Northwest Quarter Southeast Quarter, Section 22,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (3) Northwest Quarter Southwest Quarter, Section 23,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (4) Southwest Quarter Southwest Quarter, Section 23,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (5) Northwest Quarter Northeast Quarter, Section 27,
Township 7 North, Range 35 E.B.M., Jefferson County.
- (6) Southwest Quarter Southwest Quarter, Section 33,
Township 7 North, Range 35 E.B.M., Jefferson County.

(7) Lot 4 (Northwest Quarter Northwest Quarter), Section 3, Township 6 North, Range 35 E.B.M., Jefferson County.

- c. Description of diverting works - The Jackett Canal Company diverts both its decreed water rights from Camas Creek as well as the decreed and licensed rights from its seven wells at two locations on Camas Creek. The company maintains two pumps on Camas Creek in the Southwest Quarter of the Southwest Quarter of Section 33, Township 7 North, Range 35 E.B.M., and five pumps on Camas Creek in Lot 4 (Northwest Quarter Northwest Quarter), Section 3, Township 6 North, Range 35 E.B.M. The seven wells are located two to three miles north and east of the company's diversions from Camas Creek. Each of the wells discharges water into ditches which convey the well water into the Independent Ditch which empties into Camas Creek upstream from the two diversion points of the company. The Independent Ditch commences at a point in the Southwest Quarter of the Southwest Quarter of Section 13 where several wells are located at a point known as Buck Springs and flows in a generally southwest direction to the center of Section 27, Township 7 North, Range 35 E.B.M., and then directly south for approximately a mile where it discharges into Camas Creek in Section 34, Township 7 North, Range 35 E.B.M. In addition to assisting with the maintenance of the Independent Ditch and the small conveyances which discharge into the Independent Ditch, as well as the Jackett Canal system for distributing water to the lands of the stockholders south of Camas Creek, the company owns and maintains seven wells and fourteen pumps with electric motors ranging in size from 50 hp down to 20 hp.
- d. Describe the reasons for applying for a change in the points of diversion - The purpose of this entire application for

transfer is to conform the records of the department to the actual practice of the company which has been carried on since its organization in 1956. Some of the points of diversion as far as the actual records are concerned may be somewhat confusing because of the changes that were made at that time, as well as a result of the numerous deeds which the company received from individual stockholders as well as the Independent Water Users of Mud Lake, Inc. at the time of the organization. In fact, in reviewing the language of the deed from Independent Water Users of Mud Lake, Inc. to Jackett Canal Company in 1956, we observed that the deed purported to convey an undivided one-third interest in the wells and pumps and other diverting works, as well as the conveyance system and water right itself. There are actually five wells at Buck Springs, all located in the Southwest Quarter of the Southwest Quarter of Section 13, Township 7 North, Range 35 E.B.M. In actual practice, Jackett Canal Company has been treated as owning the two western most wells and Independent Water Users of Mud Lake, Inc. the three eastern most wells. In order to clarify this situation, the two companies have exchanged quit claim deeds on these wells, again to make the records conform to the actual practice. Copies of those deeds are enclosed with this application.

2. Change in place of use:

- a. Describe the lands or place of use to which the right will be transferred:

Total number of acres to be irrigated 3,107.23

- b. Draw a map indicating the new points of diversion and/or the new land to be irrigated. Show clearly the land involved by section, township, and range number. The attached map showing lands of the company irrigated by its stockholders colored in yellow with points of diversion and location of wells shown in blue.
3. Remarks - An attempt has been made by the applicant to identify the exact property of its stockholders upon which the company water is to be used, as well as the points of diversion. Essentially, the actual practice of the company has been as shown for a period of nearly 22 years. Recently, when the company began to review its water rights, it was discovered that although they were deeded to the company in 1956, no effort had been made to transfer the water rights so that an equal amount was appurtenant to each acre of ground within the system. Indeed, we discovered that the records would show that some land had several water rights appurtenant and some of the company land had no water rights appurtenant. It is the desire and intention of the company that all of the company's water rights be transferred to all of the company's lands so that each acre has an equal amount of each of the company's rights appurtenant to it since this is the way the company has actually operated.

RECEIVED

3. Remarks _____

I hereby assert that no one will be injured by such change and the change does not constitute an enlargement use of the original right. The information contained in this application is true to the best of my knowledge.

Rubio R. Yanesky

31-2317	31-2310
	31-2321

This is to certify that I have examined Application for Transfer of Water Rights No. _____ and said application is hereby approved.

1. Approval of said application is subject to the following limitations and conditions:
- (1) Any future transfer of any of these rights will cause the remaining rights to revert back to the original acreage.
 - (2) The intent of this transfer is to record water delivery practices that have existed since 1956 - no change in delivery patterns is authorized.
 - (3) Diversion of water authorized by this transfer shall not exceed 9321 acre feet per annum.
 - (4) Measuring devices and controlling works of a type approved by this Department must be permanently installed and maintained at the points of diversion from groundwater. The existing measuring methodology shall be maintained at the points of diversion/re-diversion from Camas Creek.
 - (5) Use of water under this transfer is subject to control by the watermaster of Water District No. 31, Mud Lake and tributaries.

Witness my hand this 23rd day of June, 1981.
