

Memorandum

To: Water Right Permit File No. 65-22551

From: Deborah Gibson

Date: Oct. 17, 2003

Re: Request for Extension of Time

This permit has had a previous extension based on due diligence. The President of the Rivers Bend Condo Assn. contacted me Oct. 17, 2003, to explain the basis for a second extension. Steve Clements said that the system had been in use, when the residents found that the system was leaking and inadequate. This second request is to correct the problems they have with the system and to improve the distribution system, which will require them to run pipes under driveways for better delivery of the water. Additionally, the well is at one end of the complex and the land to be irrigated is at the other end.

Secondly, I verified with Steve that August 1, 2004 would be the next proof deadline, and if that would give them enough time to finish the project. He said it would. He said they needed another summer to finish it.
