I passed the Jacklin Seed Co. one off to Bob, as he has been working with those guys.

Got a call into my Fish and Game contact in Lewiston regarding the Trainor App. I think they are happy now, but we better check to make sure. He won't be in until next week, though

Regarding 96-2032C, the "Groundwater Recharge" is incidental to the irrigation use, however, both applicants felt it was important to have this use listed on their Transfers. Can we further explain it just as above "Groundwater Recharge is incidental to the irrigation use? I'm sorry Sharla, but I forgot about discussing the conveyance losses with you before. I'm going to have to ask for a reminder on that one...(Must be age related)!

How'bout you fax me a copy of the Fish and Wildlife Application. Unless you think there is other information that would help having back here at the Region. I'll let you decide.

I'm trying to clean out my call-up drawer and clean off my desk and I have several loose ends for various Northern Region files.

First, I still need a PWS number for 95-8572 (license to be issued to Jacklin Seed Co.) and I need to know if you're ready for me to proceed with getting the licensing amendment. The last time we talked about this one, you said there was still some question about the rate. Did you get that resolved?

Next, do you have any feedback for me on the ground water recharge and conveyance loss issues for the two transfers on 96-2023C? If you need me to send a copy of my original mail message for your review, just let me know.

Have you heard anything back from Russell Trainor (app 81-11887)? That's the one where Fish and Game had concerns that needed to be addressed and I think you put the ball back in Mr. Trainor's court to work out the details with F&G. Is everything between the parties just "peachy" now?

Have you asked the Fish & Wildlife Service for Rule 40.05 "large diversion" info for app 98-7813? Do you need the paper file back?

I'm sorry for hitting you with all of this at once, but whenever you get a chance to work on an item or two, just let me know. Thanks for your help with this stuff Al. I really appreciate it.

Hope you're having a great week! Talk to you soon!!!

Bob Haynes
is working
on this one -
will request
licensing after
he gets PWS #
and new
measurement.
