Additional fish propagation project information: N/A

Appropriation Rule 40.05.c information: N/A

Mitigation Plan or acceptance form: N/A

Evidence of Pre-1987 development: N/A

6. cskinner 4/21/2005 Legal Notice Remarks

Comment: Application proposes adding an existing well, located just north of the Murtaugh High School football field, to water right permit 45-13412 as an authorized point of diversion. Permit 45-13412 currently authorizes the diversion of a total of 0.90 cfs of groundwater from two wells for municipal use within the City of Murtaugh service area. The proposed amendment will allow for the diversion of a total of 0.90 cfs of groundwater from three wells for municipal use within the City of Murtaugh service area

7. cskinner 4/21/2005 Amendment Review

Comment: According to the engineer who submitted the application for amendment, the mayor of the City of Murtaugh signed the application. The place of use of permit 45-13412 is identified as the City of Murtaugh service area. A place of use shape in SDE was not generated for the permit, but a shape exists in SDE for the City of Murtaugh service area for SRBA recommendation 45-7202.

8. kwalker 6/9/2005 Amendment of Permit

Comment: This amendment just adds another well to the City's water supply system.
No additional rate to be allowed. Recommend approval.
