MEMORANDUM

TO: Files 45-07567 and 45-07588

FROM: Sharla

DATE: May 12, 1997

RE: SW Irrigation District Recharge Rights

Applications for amendment of permit came in on these two files and since the exams were here, it was decided to process them as licensing amendments. The final license recommendations are based on the following:

No volume is being shown on these licenses. ✓ The rates of diversion are reduced according to information submitted by examiner (45-07588: flume carries 7.76 and 8.0 cfs for other p/d; 45-07567: highest diversions weirs 1 & 2 from July of 1995 - 11.0 cfs weir 1 and 7.1 cfs weir 2) diverted in 1995.

The injection well permit records were reviewed and the locations noted in their files based upon USGS information have been described for the licenses and the associated injection permit numbers are listed in the remarks. A total of three injection wells are authorized under 45-07567 and six injection wells and one gravel pit are authorized under 45-07588.

45-07567:
